CAMPUS INFORMATION

Mission Statement

Infinity College is committed to serve the unique academic and social needs of our students in a learning environment that instills intellectual freedom enabling them to acquire skills that lead to career advancement in our ever-changing society.

Vision Statement

Infinity College provides an atmosphere of academic excellence where students and employees can achieve their full potential. Infinity College's education network instills the necessary skills so that graduates and employees can be responsive to socioeconomic, technological, and environmental challenges in a complex and shifting society.

Institutional Philosophy

Infinity College seeks to enhance and stimulate intellectual growth while concentrating on personal development and potential for career advancement. Infinity College offers the skills to help graduates succeed in Allied Health careers that will aid them in communicating effectively, thinking analytically, and advancing professionally and personally.

Core Values

The members of the Infinity College community maintain a culture that:

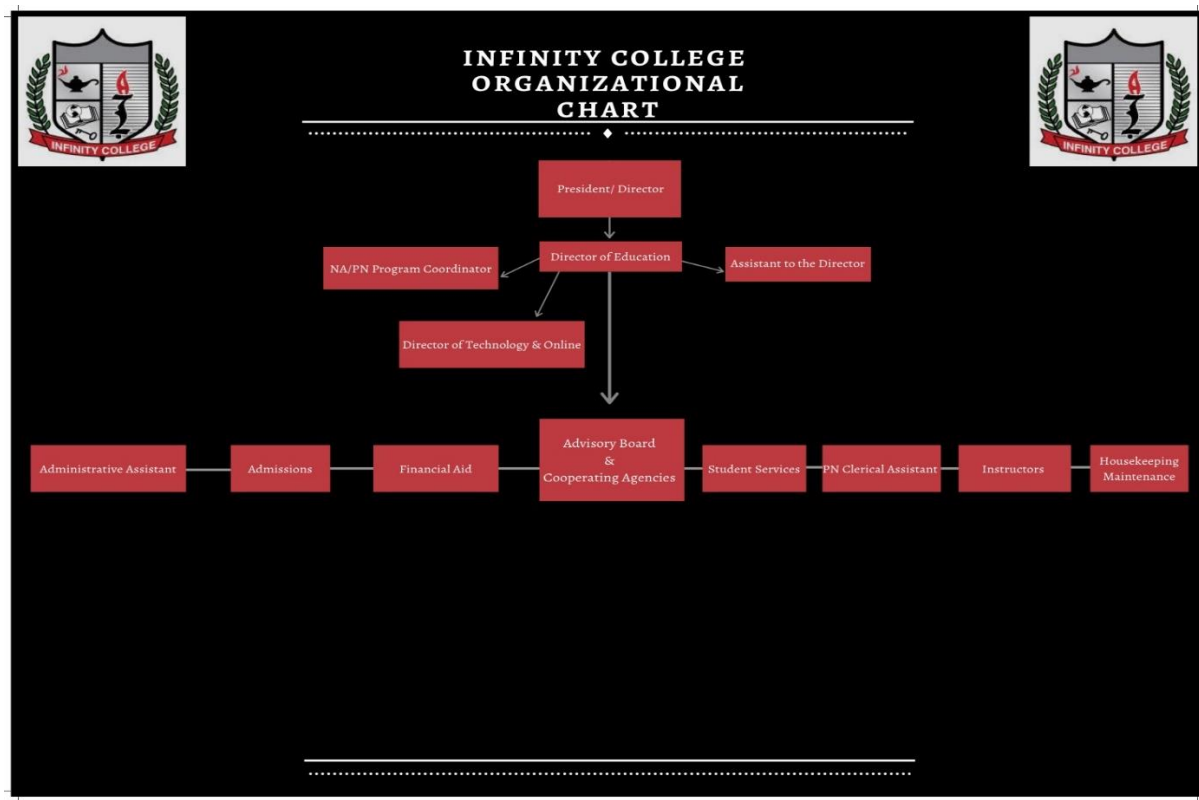

- Adheres to personal academic and intellectual integrity.
- Embraces the diversity of cultural backgrounds, personal characteristics, and life situations represented in this community.
- Values an environment for the free expression of ideas, opinions, thoughts, and differences in people.
- Respects the rights, dignity, and property of all.
- Trustworthiness
- Fulfilling Our Potential
- Valuing Ourselves
- Community Involvement
- Leadership
- Integrity
- Learning
- Collaborative Partnerships

Goals

Infinity College has identified goals that guide planning and resource allocation throughout the college. These goals are intended to be aspirations in that they are assumed to inspire, to guide, and to be on-going. Each goal should result in a number of long-term and annual initiatives that support progress toward accomplishing the broader aspiration. The goals are:

- To offer high quality programs
- To build and maintain a student-centered college
- To promote and celebrate diversity
- To foster a strong college community
- To enhance and support regional development and outreach

Organization Structure

Chain of Command Policy

While a student at Infinity College, it is hoped that all students are comfortable with the environment that they are in. However, from time-to-time individuals may experience situations and circumstances which give rise to unhappiness or discomfort. Infinity College desires to assist students in resolving any such issue.

All students are expected to show proper respect to and promptly obey the Chain of Command at all times. Respect for the supervisors is essential for both discipline and operational efficiency.

All students are required to be familiar with the Chain of Command and to work within its parameters.

No student shall initiate contact with Governing Agencies such as but not limited to the Board of Regents etc. collectively or individually, or with any other federal, state, regional, or local officials with regard to any business or a situation regarding Infinity College unless they have advised the President and/or Director through the chain of command and have secured his/her consent in writing. After the President/Director is advised of the situation, he/she will attempt to resolve the matter on an administrative level at the campus. If the matter is unable to be resolved at the administrative level, then it will be referred to the Corporate Board. Constructive criticism of the school is welcomed whenever it is motivated by a sincere desire to improve the quality of the educational program or to equip the school to do their tasks more effectively.

Infinity College have confidence in the professional staff and students and desire to support their actions in order that they are free from unnecessary, spiteful, or negative criticism and complaint. Proper use of the Chain of Command is vital to the overall effectiveness of Infinity College. Effective communication between Instructors and the administration within the Chain of Command is crucial to the proper functioning of Infinity College. Therefore, all students will use the chain of command when communicating issues and problems concerning matters at the campus.

Infinity College advises that the proper channeling of and most effective way to resolve complaints involving instruction, discipline, or learning materials etc.

Matters referred to Infinity College must be in writing, must include address, name, date, contact phone numbers, signature of the complainant, and should be specific in terms of the action desired. After reading such complaints, and if more information which might challenge or question the good name or character of an individual is needed, Infinity College shall consider this in Executive Session. At the end of the meeting the Director and/or President and should ideally provide an immediate decision and any appropriate action required. However, in exceptional circumstances the final decision may be deferred. The outcome of the meeting will be confirmed in writing to all parties involved. Every student has the right to voice concerns about policies, conditions, or personnel at the institution which creates an adverse effect on the education being pursued.

Campus Facility

Infinity College is located at 117 West Pinhook Rd., Lafayette, LA 70501. Infinity College currently offers the following programs: Medical Assistant, Phlebotomy and EKG Technician, Pharmacy Technician, Medical Insurance Billing & Coding Specialist, Nursing Assistant, Practical Nursing, and Associate of Applied Science in Healthcare Management.

The campus facility is a single-story building containing approximately 6200 square feet. The building is centrally heated and air conditioned. The campus facility is equipped with several classrooms, break room area, offices, multi-purpose room, and a reception area. Students will learn by utilizing various types of medical and office equipment and computers. The class ratio is 1 Instructor per 20 students for most programs.

Non- Discriminatory Policy

Infinity College is an equal opportunity education institution. It does not discriminate on the basis of race, color, religion, age, sex, physical handicap, marital status, sexual preference or national origin in administration of its admissions policies, administrative policies, and other school-administered programs.

Students with Disabilities

In accordance with the Americans with Disabilities Act, Infinity College makes provisions to accommodate students with qualified physical, learning, and/or psychological disabilities. Students are asked to please inform staff upon enrollment of any disabilities so that accommodations can be made.

GENERAL INFORMATION

Hours of Operation

Please feel free to visit our campus at any time during office hours.
Monday – Friday, 8:00am-5:00pm.

Enrollment and Start Dates

New Students may enroll at any time. Classes start at frequent intervals; therefore, prospective students should consult an Admissions Representative for the dates of the next starting class.

Admissions

Students who are seeking admission or readmission to Infinity College must file appropriate documents with the Admissions Office. Regardless of the intended program of study, all applications are processed in the admissions office. High school transcripts are evaluated, along with other required admissions-related documents. All applicants will be considered for admission on a nondiscriminatory basis.

Admissions Requirements

This Admissions Policy is used to define the enrollment requirements for individuals who wish to enroll at Infinity College as a regular student. Infinity College must adhere to the U.S. Department of Education, Accrediting Agency, and LSPBNE guidelines.

Applicants must file a standard application for admissions. Applicants interested in enrolling in one of our programs of study should contact the school and schedule an appointment for an admissions evaluation and take an entrance exam. Applicants should be at least 17 years of age, possess a high school diploma or GED and must successfully pass the entrance exam prior to admission, submit all required documents, and satisfy tuition. Pharmacy Technician students and Practical Nursing students should be at least 18 years of age to enroll into the program.

- There is a \$20 testing fee for the Entrance Exam. (Non- PN Students)
- Interview with an admission representative.
- Practical Nursing Students Pre-entrance exam-fee \$ 40-TABE and \$50- Accuplacer
- Receive a grade placement of at least 12.0 on an achievement test approved by LSPBNE
- Provide proof of immunization. As required by Louisiana R.S. 17:110: All first-time students born after 1956 must provide proof of immunization against measles, mumps, rubella, and tetanus- diphtheria as a condition of enrollment. Vaccination for Meningococcal Meningitis for first time students is required according to Acts 251 and 711 of 2006 Regular LA Legislative Session. Forms are provided to students and must be completed by the physician/health unit. A waiver may be signed by the student; however, in the event of an outbreak of measles, mumps, rubella, tetanus, or diphtheria on campus, the college will require students who are not immunized to stop attending classes until the outbreak is over or until they submit proof of adequate immunization.
- Please provide a copy of your high school transcript/diploma, GED Certificate or sign a release allowing Infinity College to request it from your high school or GED testing center.
***Note:** The high school diploma or transcript requirement can also be from a foreign school if it is equivalent to a US high school diploma; documentation of proof of completion of secondary education from a foreign country must be officially translated into English and officially certified as the equivalent of high school completion in the United States.

Home School Students: must have a recognized equivalent of a high school diploma such as a home-schooled certificate by the state where the student resided during home school. The student must have completed homeschooling at the secondary level as defined by state law. Due to the passage of Consolidated Appropriations Act of 2012, students who do not have a high school diploma or equivalent and did not complete secondary school in a home-school setting can no longer gain eligibility for Title IV, HEA funds by passing an "ability-to-benefit" test.

- If the applicant does not pass the entrance exam on the first attempt, he/she will have the opportunity to re-take the test for no additional fee. The exam may be attempted only two

(2) times in one (1) day. The exam can be attempted three (3) times in a six (6) month period.

- If the applicant does not possess a high school diploma or GED, then the applicant must also pass the entrance exam and is only eligible to enroll in the Nursing Assistant program.
- Once the applicant has completed all admissions requirements including satisfying tuition payment standards, the applicant will be granted a scheduled start date to begin their program of studies.
- Nursing Assistant, Practical Nursing and Pharmacy Technician Students must submit to a state background check and not have committed crimes listed in the program requirements section. Pharmacy Technician Students must be of good moral character and non-impaired and be at least 18 years of age.
- Pharmacy Technician Training and Medical Assistant students must possess a high school diploma or GED and does not have any felony convictions on their background. Pharmacy Technician Training students must adhere to have their background check completed with the Louisiana State Police and following the regulations of the Louisiana Board of Pharmacy.
- All students will be required to attend an orientation session prior to starting class. The purpose of the orientation is to acquaint the student with the goals of the school, its rules, regulations, and the objectives of their course of study.
- Have math proficiency sufficient to fulfill the requirements of pharmacy technician job responsibilities.
- Students may be required to submit a copy of their immunization records to the school and a copy of their background check if required. Must speak, read, and write fluently in English (all classes are taught in English)
- A Skills and Achievement Commencement Credential for Students with Severe Disabilities is replacing the Individual Education Program (IEP) diploma effective July 1, 2013. Neither the IEP diploma nor the Skills and Achievement Commencement Credential is acceptable for entrance into the program requiring high school graduation or a GED.
- Student's enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under Title IV [34 C.F.R. 668.43(a) (9)]
- **Additional requirements for Practical Nursing Applicants:**

- Be fingerprinted by the Louisiana State Police at least before the start of the program. Please list our school's name as your employer and list student nurse as your reason for fingerprinting.
- Provide LSBPNE with a \$51 (by Visa or MC credit or debit) and evaluation form.
- Submit an unexpired driver's license or state issued identification
- Meet all admission requirements as set forth by the board, faculty, and administration
- Be admitted with the regularly scheduled class
- Provide a certified copy of birth certificate or permanent resident card or possess a valid United States passport
- Must **not** be currently serving under any court-imposed order of supervised probation, work-release, school release or parole in conjunction with any felony conviction(s), plea agreement or any agreement pursuant to the Louisiana Code of Criminal Procedure, Article 893.
- Scheduled Informational Session (for practical nursing students) - Applicants are required to attend an informational session. The session provides information and clarifies questions related to history, general program information, functional abilities-competency and performance standards, testing score review/explanation, selection process, rating sheet, general policies, Louisiana State Board of Nursing Examiners, financial aid and cost of the program.

This session is not a component of the selection process

- *Practical Nursing students are required to submit immunization records and a state background check. State Background Checks must be mailed directly to the LSBPNE from the Louisiana State Police.
- Students that are enrolled in programs that require externship must submit a negative TB result prior to attending clinical. *PN students must submit a TB skin test or chest x-ray that is less than one-year old upon acceptance into the program.
- Submit to random drug screening.
- Provide proof of Selective Service Status: In accordance with the requirements of Louisiana Law R.S. 17:3151 and the Federal Selective Service Act, male applicants who are between the ages of 18 and 25 must provide written evidence that they have registered with Selective Service before they will be allowed to register for classes. Acceptable documentation may be a copy of the applicant's Selective Service Registration card or a printout from the Selective Service website indicating the applicant's status.

Online Associate Admissions Policy:

- Completed application.
- High School Diploma, GED or equivalent.
 - Waived if the student has completed at least 15 credits of college level coursework from an institution that is accredited by a CHEA recognized accrediting body or an international equivalent.
- Official Transcripts for all previous college credit earned (if applicable)

- Provide proof of Selective Service Status: In accordance with the requirements of Louisiana Law R.S. 17:3151 and the Federal Selective Service Act, male applicants who are between the ages of 18 and 25 must provide written evidence that they have registered with Selective Service before they will be allowed to register for classes. Acceptable documentation may be a copy of the applicant's Selective Service Registration card or a printout from the Selective Service website indicating the applicant's status.

Technology Requirements:

The following lists the minimum recommended hardware and software requirements a student will need to successfully access Infinity College's online academic programs:

Supported Operating Systems:

- Windows 8 • Windows 10 • MAC OS X 10.6 (Snow Leopard) and Higher
- Pop-up blocker must be disabled.
- Students that are enrolled in programs that require externship must submit a negative TB result prior to attending clinical.

High School Diploma Validation

Many students applying for admission to Infinity College have completed the coursework required to obtain a high school diploma. As required by rule 688.16, the validity of a student's high school diploma or transcript must be ensured by the Offices of Admission and Financial Aid. This policy governs the process of ensuring the validity of a potential student's high school diploma.

II. STATEMENT OF POLICY

In the event that a potential student submits a high school diploma with their application for admission to Infinity College, the Offices of Admissions and Financial Aid is required to ensure the high school diploma is valid. If questions about the validity of a high school diploma arises, the Diploma and Transcript Validation Process is to be followed.

III. DEFINITIONS

DIPLOMA AND TRANSCRIPT VALIDATION PROCESS:

- Review the documents (diploma and/or transcripts) provided by the student
- Contact the school or individual listed on the document
- Request direct written communication (preferably in the form of an official transcript)
- from the school validating graduation of the student in question

Cases that Require Additional Validation

Additional validation of a high school diploma is mandatory for applicants whose diploma does not meet the required criteria and in cases when there is reason to believe that the diploma is not valid or was not earned from an entity that provides secondary school education.

In compliance with 34 CFR 668.16 (p), reasons that the high school diploma may not be accepted or may require additional validation include:

1. The issuance of the high school diploma was based only on a test and/or payment of fees.
2. The curriculum consisted exclusively of online/distance education instruction, and the high school is not listed as an accredited institution. The institution will accept diplomas from on-line high schools only if they are accredited by a national and/or regional accreditor that is recognized by the US Department of Education.
3. There is conflicting high school information.
4. The high school was previously questioned as being a diploma mill by other accredited higher education institution.
5. The high school is not listed in the U.S. Department of Education's National Center for Education Statistics (NCES). The list of public high schools is accessible at <http://nces.ed.gov/ccd/schoolsearch/> and the list of private high schools is at <http://nces.ed.gov/surveys/pss/privateschoolsearch/>.
6. The private high school is not listed in the State's Department of Education listing.
7. Other evidence provides reason to believe that the diploma is not valid or was not earned from an entity that provides secondary school education.

IV. PROCEDURES

When the Office of Admissions receives an application for admission from a potential student which contains a high school transcript or diploma, the document must be validated. If the validity of the document(s) submitted by the student is in question, the evaluator of the application must follow the Diploma and Transcript Validation Process. After completing the Diploma and Transcript Validation Process, the application evaluator will be able to assess the validity of any documentation provided by the student. In the case of students applying for Transfer admission to Infinity College, high school transcripts and diplomas are assumed to be previously validated by the previous collegiate institution.

Once the institution renders a decision on the validity of a high school diploma, the decision is final and not subject to appeal.

Applicants must pass the Wonderlic entrance exam with the following scores based on the program of study:

Program	Passing Score
Medical Assistant	15
Phlebotomy and EKG Technician	15
Pharmacy Technician Training	15
Medical Insurance Billing & Coding Specialist	15
Nursing Assistant	10
Practical Nursing	12 on TABE Test
Associate of Applied Science in Healthcare Management	TESOL results if applicable with a minimum score of 100

Applicants must pass the entrance exam with the following scores based on the program of study: **(Practical Nursing Applicants)**

Exam-Minimum Passing Score	Program	Reading	Language	Math
TABE	Practical Nursing	12.0	12.0	12.0
ACT		20	17	18
Compass		85	70	55 (<i>Pre-Algebra 33</i>)
Accuplacer-Classic		65 (Reading comp)	74 (sentence Skills)	48 (Elem Algebra)
Accuplacer-Next Generation		250 (Reading comp)	241 (Writing)	243 Quantitative Reasoning Algebra and Statistics, (QAS)
ASSET		44	42	42

Determining a Student's Location

The location of each student is determined by the information provided at the time of enrollment into the academic program. It is the student's responsibility to inform the institution if their location has changed during their enrollment. All students participating in activities outside of Louisiana must notify the university of their change of location. If students change their location for other reasons not related to participating in academic activities, they, also, must notify the university of their change of location.

This policy applies to students in all modalities including but not limited to students who are enrolled in the following:

- online programs
- hybrid courses
- face-to-face courses
- out-of-state learning placements including but not limited to clinical rotations, internships, community services etc....
- enrollment in Infinity College online courses while out of the state of Louisiana

Financial Assistance

A plan tailored to meet your needs while attending school can be arranged at the time of registration. This payment plan cannot be changed. In case of an emergency situation, you can provide a written request to the school to change your payment plans. The school may at the discretion of the Director, change this plan for you at an additional cost of \$25 each time. Financial Assistance may be available through local vendors if funds are available and if contracted with the school. Interest rates for alternative loans vary according to the applicant's credit worthiness. Infinity College requires that all students who enroll in classes complete, sign, and return the Tuition Contract. The Tuition Contract provides a financial planning option that allows the student to pay tuition and fees in equal installments. The Infinity College Tuition Contract serve both as the application and the promissory note for all tuition and fee payments due to the school and is valid until all charges due are paid in full.

To receive Federal Student Aid, you will need to:

1. Qualify to obtain a college or career school education, either by having a high school diploma or General Educational Development (GED) certificate, or by completing a high school education in a homeschool setting approved under state law.
2. Be enrolled or accepted for enrollment as a **regular student** in an eligible degree or certificate program.
3. Be registered with Selective Service, if you are a male (you must register between the ages of 18 and 25).

Men exempted from the requirement to register include.

- Males currently in the armed services and on active duty (this exception does not apply to members of the Reserve and National Guard who are not on active duty).
- Males who are not yet 18 at the time that they complete their application (an update is not required during the year, even if a student turns 18 after completing the application).
- Males born before 1960.
- Citizens of the Republic of Palau, the Republic of the Marshall Islands, or the Federated States of Micronesia*.
- Noncitizens that first entered the U.S. as lawful non-immigrants on a valid visa and remained in the U.S. on the terms of that visa until after they turned 26.

4. Have a valid Social Security number unless you are from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau.
5. Completed a FAFSA and the school must have a current ISIR to start the initial eligibility process.
6. Sign certifying statements on the *FAFSA* stating that:
 - you are not in **default** on a **federal student loan**
 - do not owe a refund on a **federal grant**
 - Sign the required statement that you will use federal student aid only for educational purposes
7. Maintain *satisfactory academic progress (SAP)* while you are attending college or a career school.
8. Be enrolled at least halftime to receive assistance from the Direct Loan Program.
9. The Pell Grant program does not require half time enrollment, but the student enrollment status does affect the amount of Pell a student may receive. A student may receive Pell for a total of 12 payment periods or 600%. Once the student has reached this limit, no further Pell may be received.

In addition, you must meet one of the following:

1. Be a U.S. CITIZEN or U.S. NATIONAL
You are a U.S. citizen if you were born in the United States or certain U.S. territories, if you were born abroad to parents who are U.S. citizens, or if you have obtained citizenship status through naturalization. If you were born in American Samoa or Swains Island, then you are a U.S. national.
2. Have a GREEN CARD
You are eligible if you have a Form I-551, I-151, or I-551C, also known as a green card, showing you are a U.S. permanent resident.
3. Have an ARRIVAL-DEPARTURE RECORD
Your Arrival-Departure Record (I-94) from U.S. Citizenship and Immigration Services must show one of the following:
 - Refugee
 - Asylum Granted
 - Cuban-Haitian Entrant (Status Pending)
 - Conditional Entrant (valid only if issued before April 1, 1980)
 - Parolee
4. Have BATTERED IMMIGRANT STATUS
You are designated as a “**battered immigrant-qualified alien**” if you are a victim of abuse by your citizen or permanent resident spouse, or you are the child of a person designated as such under the **Violence Against Women Act**.

5. Have a T-VISA

You are eligible if you have a T-visa or a parent with a T-1 visa.

Veterans Benefits/Other Funding Sources

Selected programs of study at Infinity College are approved by the Veterans Affairs for enrollment of those eligible to receive benefits under Section 3676, Chapters 30 or 32, Title 38. The determination for VA funds is made directly through the department of Veterans Affairs. Additional funding may be obtained for eligible candidates through many different programs including Louisiana Department of Workforce Services, Louisiana Rehabilitative Services (LRS). The determinations for these funds are made through the respective organizations.

Incarcerated Applicants

A student is incarcerated if she/he is serving a criminal sentence in a federal, state, or local penitentiary, prison, jail, reformatory, work farm, or similar correctional institution (whether it is operated by the government or a contractor). A student is not considered to be incarcerated if she/he is in a halfway house or home detention or is sentenced to serve only weekends. Our attendance policy specifies that all classed and practical studies are done at the school's physical location; therefore, incarcerated students are not eligible for admissions.

Conviction for possession or sale of illegal drugs (Drug Program Information)

- A Federal or state drug conviction can disqualify a student for FSA funds. The student self-certifies in applying for aid that he/she is eligible for by using the FAFSA. The school is not required to confirm this unless there is evidence of conflicting information.
- The chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for the sale of drugs includes conviction for conspiring to sell drugs)

	Possession of illegal drugs	Sale of illegal drug
1st Offense	1 year from date of conviction	2 years from date of conviction
2nd Offense	2 years from date of conviction	Indefinite period
3+ Offense	Indefinite period	

- If a student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different the student will be ineligible for the longer period
- A student regains eligibility the day after the period of ineligible ends or when he/she successfully completes a qualified drug rehabilitation program. Further drug conviction will make him/her ineligible again.
- When a student regains eligibility during the award year, the institute may award Pell and/or Loan for the current payment period.

- A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:
 - Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
 - Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company.
 - Be administered or recognized by federal, state, or local government agency or court.
 - Be administered or recognized by a federally or state-licensed hospital, health clinic or medical doctor.

Upon receipt of all required documents and in good order, the prospective student is eligible to enroll in the school. When all admissions criteria and requirements are met, the prospective student is given the date of the next class. The prospective student is asked to bring their Student Permit Fee, if applicable, a color photo of themselves and is informed of the appropriate dress code. The first day of class will include financial aid and academic orientation, in which the students will sign their enrollment contract, student permit form and additional required paperwork.

****The Nursing Assistant program is not Title IV eligible.***

Federal Financial Aid

To be considered for Federal Financial Aid, a student must complete the Free Application for Federal Aid online. The student and the parent (in the case of a dependent student) may sign the FAFSA online by using a PIN number. Once the student completes the FAFSA, and it is processed by the government, the school will receive an ISIR which will contain the Estimated Family Contribution and let the student know if he/she is selected for verification.

Verification

Each year at least 30% of financial aid recipients are randomly selected for verification by the U.S. Department of Education. If a student is selected for federal verification, they will be asked to complete a Verification Worksheet (provided by the Office of Financial Aid) and must provide additional information before financial aid can be disbursed to the student account. This documentation may include but is not limited to federal income tax transcript and W-2 forms (student's, spouse and/or parents/guardians), proof of untaxed income, housing allowances, etc.

Students will be notified in writing of all documents required to fulfill this federal requirement. If after review by the Office of Financial Aid, there are any changes to the Estimated Family Contribution and possibly the financial aid available, the student will be notified by email or in writing.

CONTACT INFORMATION FOR ASSISTANCE IN OBTAINING INSTITUTIONAL OR FINANCIAL AID INFORMATION

Disclosure Requirement: Made available through appropriate publications, mailings, or electronic media.

Each institution must make available to prospective and enrolled students' information regarding how and where to contact individuals designated to assist enrolled or prospective students in obtaining the institutional or financial aid information required to be disclosed under HEA Sec. 485(a). This information is posted on the school's website can be found in the student catalog. Paper copies are available upon request.

(501)
Office Hours
9:00 a.m. - 4:30 p.m.

NSF Checks

Any check that is received by the school from the student for any type of payment and is returned to the school due to insufficient funds, there will be a non-refundable fee of \$36 assessed to the student account. Infinity College will notify the student to collect payment and will place the NSF check and documentation of fees in the student's file. All grades, transcripts, certificates, diplomas, and services will be withheld until the student account is satisfied.

Housing

The school does not maintain dormitory facilities.

Library

The library and library resources are available to students and faculty for research and reference. Computers, periodicals, tests, newspapers, Internet, and other reference materials are available in the library and computer lab. Infinity College uses the Book Source library management system so inventory books that students may need to check out. In addition, Infinity College's students have access to "The Free Library by Farlex" which is an online library. (www.thefreelibrary.com)

Bookstore

Infinity College maintains a bookstore area where students may pick up books and supplies. Additional items are available for purchase.

Personal Property

Infinity College assumes no responsibility for the loss or damage to personal property.

Designated Parking

Students are required to park in designated parking areas only. Students will be required to purchase a parking permit for a fee of \$10. Students that are in violation of parking regulations will be towed at their own expense.

Inclement Weather

Infinity College is closed if the COMMUNITY COLLEGE AND UNIVERSITY SCHOOL SYSTEM is closed due to inclement weather ONLY. (University of Louisiana at Lafayette and

South Louisiana Community College). **There will be times when Infinity College will be open when the Lafayette Parish Public Schools, ULL and SLCC are closed at the discretion of the Director.** All management staff and Instructors must have current telephone numbers on all students and staff members. The Director will inform staff when the school will be closed so that all instructors can contact their students and management staff can inform all employees. Students and staff may also be notified via the Learning Management System via email, text and posted on the dashboard. There will be a voice recording on the school telephone system notifying callers that the school is closed. Furthermore, local media will also be notified when the school is closed due to inclement weather. Employees will rotate working when the school is closed due to inclement weather- (*Weather conditions permitted*)

Career Services Assistance

Our career services department provides assistance to all graduates of programs at no charge. However, while career service assistance may be provided, it is understood that the school cannot promise nor guarantee employment to any student or its graduates.

The Board of Regents recommends that prospective students seek independent job/career counseling prior to enrollment in an academic degree-granting postsecondary institution and encourages such institutions to promote this recommendation.

Students seeking employment may be required to submit to some of the following but not limited to a criminal background check, screening of the national sex offender registry, employment references, physical, employment pre-screening testing, drug screen, credit check, submit a resume and/or cover letter, employment application, provide personal and professional references and attend an interview. Depending upon the employment sought, you may be required to have a certification and/or license in the respective field of study although some agencies may permit years of experience. For more specific information on what may be required as a condition of employment with various agencies, it is suggested to contact the agency that you are seeking employment as well to inquire as to the qualifications of each job that you may desire to apply for. This list is not meant to be exhaustive but to provide you with an idea of what may be required when seeking employment.

The career services assistance may include but not be limited to:

1. Employment orientation prior to graduation. This orientation will provide the essential information relating to interviews, resumes and appointments, with emphasis on dress, appearance, and applications.
2. Assistance with applications and employment forms.
3. Efforts to provide interviews with prospective employers.
4. Contacts with employers to identify job openings.
5. Student participates in job readiness
6. Information concerning employment opportunities with local, state, and federal agencies.
7. Communication with career centers to seek employment assistance in areas of Louisiana.

The success or failure of the placement efforts of the school will be influenced by the attendance, academic records, and personal appearance of the graduate. Students are required to submit an electronic resume to Infinity College prior to completion of their program of study.

Externship/Internship

Externship students are placed in an actual job in the business community for part of his or her school day in his or her last quarter of training. The students are exposed to the many components of his or her chosen occupational field and have the opportunity for "hands-on" experience. Externship is considered a service to the student as well as curriculum requirement. Because of Externship training, the student receives valuable experience and the opportunity to relate in an actual job situation. Often, Externship training is the beginning of many permanent jobs and job networking.

Externship training is under the direction and supervision of Infinity College, the Instructor, Site Supervisor, and Program Coordinator (if applicable). All externship sites must be approved by the school and a contract must be signed by both the school and the externship site prior to the student attending training. Students are not permitted to work independently while in externship or internship. All training must be supervised. Externship training is a requirement to complete a program of study (if applicable); therefore, students are not compensated during this phase of training. Internship training is under the direction and supervision of Infinity College and the program Instructor. Externship sites may be located up to a 60-mile radius from the campus. All externships must begin within one month of the end of the in-school classes. *Additional program requirements may apply.

After Hours in Clinical

Due to safety, students are not allowed to represent themselves as a "Student in Clinical" after school hours unless for specific purposes such as: assigned evening clinical hours as a student or obtaining patient assignment per faculty instructions.

Student Conduct

Infinity College reserves the right to dismiss a student whose conduct is detrimental to the school or other students. Students are expected to maintain the standards of conduct that would be applicable to any work situation. Attendance, participation, challenging work, and honesty are expected always.

In instances of student misconduct, it can be expected that the school will assert authority through the practice of progressive discipline. A student may receive a warning, be placed on disciplinary probation, or even be suspended from the school. Procedural fair play and due process will be provided in every instance. The School Administration reserves the right to discipline each student as an individual and not one of the masses or based upon past similarities. Institutional obligations include, but are not limited to, upholding the law and maintenance of regulations regarding cheating, prejudicial behavior, physical abuse or harassment, impropriety of sexual behavior or illicit use of drugs or intoxicants, especially as these relate to this institution's educational goals. Infinity College does not allow the use of alcohol or illegal drugs on school property or at school.

sponsored functions. A student who is in possession of or under the influence of alcohol or illegal drugs is subject to loss of financial aid and immediate dismissal from the school.

U.S. Constitution Day

In recognition of the United States Constitution Day, Infinity College staff and students recite the preamble to the U.S. Constitution and engage in a brief discussion of the Constitution.

Emergency Calls and Calls to the Students

Students and staff are permitted to use the business telephone; however, it is recommended that all personal calls be kept to a minimum. In the event of an emergency call, students will be notified immediately by staff. Students and staff are not permitted to communicate via personal devices which include but are not limited to personal cellular telephones, home telephones, personal email, or social media. All student and staff interaction should be done on the company email and company business telephone.

Designated Break Areas

Students are not permitted to loiter in employee's offices or in hallways. It is recommended that students utilize the break room or other areas designated for break time.

Guidance and Counseling

Infinity College offers guidance and counseling sessions with students so that they can gain assistance with personnel. School activities which can be arranged with the Director, Director of Education, and/or Instructor during non-class hours.

Grievance Policy

While enrolled at Infinity College, it is hoped that all students are comfortable with the environment that they are in. However, from time-to-time individuals may experience situations and circumstances which give rise to unhappiness or discomfort. Infinity College desires to assist students in resolving any such issue.

It is the policy of Infinity College not to discriminate against any individual based on race, color, religion, national origin, sex, sexual orientation, marital status, age, or disability etc. If a student believes that he or she has been discriminated against, he or she has the right to file a grievance.

It is recommended but not required that the student speak first about the concerns to his or her instructor. Anyone wishing to file a formal grievance may do so in writing (including, if possible, witnesses, dates, and details of all incidents) and submit the grievance to the Director. Anyone who makes a grievance will not be retaliated against for doing so. After the grievance is reviewed and researched by the School Director; if required, a meeting will be scheduled with all parties involved which will allow each party to outline his or her concerns.

At the end of the meeting the Director and should ideally provide a decision and any appropriate action required. However, in exceptional circumstances the final decision may be deferred. The outcome of the meeting will be confirmed in writing to all parties involved. The Council on Occupational Education may also be utilized if a grievance is not settled at the institution level.

Complaints shall be addressed to: Council on Occupational Education, 7840 Roswell Rd, building 300, Suite 325, Atlanta, GA 30350, Phone 1-800-917-2081, and the web address is www.council.org.

Complaint Procedure

The student shall have the right to appeal any sanction of probation or suspension, dismissal, or expulsion regardless of whether this sanction is imposed by the decision of the Director. The appeal must be made in writing within seven (7) days of the date of the decision. If the student wishes to appeal the decision of Infinity College, the student may appeal in writing their student complaints related to actions of school officials. All correspondence shall be addressed to the Louisiana Board of Regents, Division of Planning, Research, and Performance, Proprietary Schools Section, P.O. Box 3677, Baton Rouge, LA. 70821, phone 225-342-7084. This step should only be taken after the student has unsuccessfully resolved the matter with the school and having first filed a written and signed complaint with the School Director. The Council on Occupational Education may also be utilized if a grievance is not settled at the institution level. Complaints shall be addressed to: Council on Occupational Education, 7840 Roswell Rd, building 300, Suite 325, Atlanta, GA 30350, Phone 1-800-917-2081, and the web address is www.council.org.

SARA Student Complaint Process

Applicability

This policy applies to student complaints filed against public, independent non-profit and proprietary institutions of higher education in Louisiana and approved by the Louisiana Board of Regents to participate in the National State Authorization Reciprocity Agreement (SARA) (“Louisiana- approved SARA institutions”) concerning interstate distance education (pursuant to the terms of the State of Louisiana’s Reciprocity Agreement) offered by such institutions in other states participating in SARA. This policy does not apply to any courses, online or otherwise, offered by Louisiana-approved SARA institutions within Louisiana or in any non-SARA states.

This policy governs conduct or behavior on the part of any Louisiana-approved SARA institution or any of its agents, representatives or employees that constitutes:

- Dishonest or fraudulent behavior, including giving false or misleading information to a student. Examples may include, but are not limited to:

- Veracity of recruitment and marketing materials
- Accuracy of job placement data
- Accuracy of information about tuition, fees, and financial aid
- Complete and correct admission requirements for courses and programs
- Accuracy of information about whether course work meets professional licensing requirements

- Operating a course or program contrary to standard practices set forth in the Interregional Guidelines for the Evaluation of Distance Education Programs (Online Learning) in such a way that harms a student
- Operation of distance education programs contrary to practices expected by institutional and, if applicable, programmatic accreditors. This policy does not apply to complaints related to course grades, academic sanctions, or discipline/conduct matters.

The Louisiana Board of Regents' Staff Role

As the SARA State Portal Agency (SPA) for Louisiana, the Louisiana Board of Regents' staff is responsible for responding to formal complaints against Louisiana-approved SARA institutions, brought by students who are enrolled in interstate distance education courses or programs (pursuant to the terms of the State of Louisiana's Reciprocity Agreement) offered by such institutions in other states participating in the SARA.

While Louisiana Board of Regents' staff cannot offer legal advice to or initiate civil court cases on behalf of students, staff will review submitted complaints and work with student complainants and Louisiana-approved SARA institutions to:

- Ensure compliance with published institutional complaint processes by both the Louisiana-approved SARA institution and the student; and

Serve as a final arbitrator in disputes between Louisiana-approved SARA institutions and students enrolled in interstate distance education courses or programs (pursuant to the terms of the State of Louisiana's Reciprocity Agreement) offered by such institutions in other states participating in SARA.

Consistent with the scope of this policy and SARA guidelines, the Louisiana Board of Regents' staff cannot review complaints related to course grades, academic sanctions, or discipline/conduct matters.

SARA Student Complaint Process

Step 1

If a student has concerns related to academic or administrative actions, he/she should contact the faculty or staff member(s) with whom he/she has a conflict. It may be possible to resolve the concerns without the need for formal institutional action. However, if the student's complaint is not resolved satisfactorily, or if the complaint cannot be resolved by contacting the faculty or staff member(s), the student should proceed to STEP 2.

Within two years from the date of the incident about which the student is complaining:

Step 2

Student submits complaint/concern via the form: (make online form) The form is reviewed by a faculty member or staff member of the institution. Information on the process can be found in the student catalog. If the student and faculty member or staff member are unable to resolve the complaint satisfactorily or feels that not all issues were resolved with the final disposition of the institution, he/she should proceed to Step 3 to utilize the Louisiana Board of Regents' SARA Student Complaint Process.

Step 3

The student is directed to the Louisiana Board of Regents where they must file a formal complaint using the complaint form and follow the process below:

- a. After receiving a formal complaint through the complaint form, Louisiana Board of Regents' staff will, within 30 days of receipt of the complaint:
 - Review the submitted materials and contact the complainant for any required additional information or clarifications.
 - Send a copy of the complaint to the Louisiana-approved SARA institution against which the complaint has been filed and request a response.
 - Forward the institution's response to the complainant

Step 4

Within 30 days of the conclusion of STEP 3, a committee consisting of three Louisiana Board of Regents' staff members will review all materials related to the complaint in order to:

- Determine whether the Louisiana-approved SARA institution's student complaint process has been followed by both the institution and the student, and exhausted.
- Make a final, binding decision on the matter; and
- Inform both parties involved in the complaint of the Louisiana Board of Regents' final disposition

In the event that the facts cannot be sufficiently determined based on documents submitted and by separately corresponding with the Louisiana-approved SARA institution and the complainant, the Louisiana Board of Regents' staff may request both parties to participate in a telephone conference or meeting so that the facts can be sufficiently ascertained, and a final determination can be made.

ACADEMIC INFORMATION

Academic Freedom and Responsibility

Infinity College is committed to the principle of freedom of thought, inquiry, and expression. No member of the college community may, in the exercise of academic freedom, deny the

corresponding right of any other member of the college, or interfere with the legal and proper functions of the college.

ACADEMIC INTEGRITY

Statement of Policy

Ethical conduct is a foundation upon which a successful academic career at Infinity College rests. The students, faculty, and staff must commit themselves to the highest standards of honesty, trust, fairness, respect, and responsibility. Therefore, any deviation of these standards is a breach of the ethics that are the basis of Infinity College 's academic programs and thus a violation of the college's Academic Integrity policy.

A violation of the Academic Integrity Policy includes, but is not limited to:

- Cheating: using unauthorized materials or receiving unauthorized assistance during an examination or in connection with any work done for academic credit.
- Plagiarism: taking the work of another and offering it as one 's own without proper acknowledgement of the true source, whether that material is paraphrased or copied in verbatim or near-verbatim form.
- Unauthorized collaboration on a project, homework, or other assignment unless otherwise allowed by course instructor.
- Sharing, selling, or buying information related to graded learning activities.
- Using professor feedback for another student as the basis for an essay response.
- Resubmitting a paper that has already been submitted for another course.
- Falsifying information
- Accessing or using unauthorized materials (electronic or print) and/or websites.
- Use of an alternate, stand-in, or proxy during an examination.

Sanctions

Infinity College regards violations to the Academic Integrity Policy as a serious matter. Students who are found to be in violation of the Academic Integrity Policy are subject to sanctions, which range based on incident and severity from a letter of reprimand up to and including dismissal from school and diploma revocation.

Statute of Limitations

There shall be no statute of limitations 'that precludes faculty from acting on the discovery of alleged violations, either during the time in which the course in question is being offered or after the course has ended (and after the student has graduated).

Educational Records

Educational records are all files, records, or documents maintained by the school that contain information related to the student. Each student has two separate files, an Education and Financial Aid file. The records are maintained by each individual department (Education and Financial Aid). When the student completes or withdraws, the two (2) files are combined and stored on the campus. The only persons allowed access to such records are those who have a legitimate administrative or educational interest.

Infinity College recognizes and respects the student 's right to privacy. As such, the release of student records is prohibited without written authorization and permission from the student in accordance with Public Law 93-389.

Records of Students include:

- Application/Enrollment Form
- Cumulative Health Record
- References
- Testing Results (ACT)
- High School/G ED/College Transcripts
- Physical, Immunization Records
- Other forms as required by Infinity College
- Competency checklist
- Copy of graduate certificate
- Copy of transcript with seal

The institution will annually distribute to all enrolled student's information about:

- The right to review their education records, to request amendment of records, to consent to disclosures of personally identifiable information and to file complaints with the Department of Education.
- Procedures for reviewing education records and requesting amendment of the records.
- Information about the institution's policy regarding disclosures to school officials with a legitimate educational interest in the education records.

What is FERPA?

The Family Rights and Privacy Act of 1974, as amended, (commonly known as the Buckley Amendment) is a federal law which provides that schools will maintain the confidentiality of student education records. The law basically says that no one outside the institution shall have access to students' education records nor will the institution disclose any information from those records without the written consent of students.

There are exceptions, of course, so that certain personnel within the institution may see the records, including persons in an emergency to protect the health or safety of students or other persons.

What is considered Directory Information?

In compliance with **FERPA**, the following statement reflects the school's policy:

The following directory information may be released by telephone: a) student's dates of attendance; b) date of graduation and degree or certificate earned. Other kinds of directory information, such as a student's address, telephone listing, program of study, awards received, and the most recent previous education agency or previous institution attended, will be released only in response to a written request. The school reserves the right to refuse the above information if the reason for the request is not considered to be a

sufficient need to know. Information regarding the student's record: grades, courses, GPA, social security number and other personal information will not be released without the student's written consent.

However, the Act states that each student has the right to inform the school that any or all the information is not to be released. No information will be released without the written consent of the student. This status is binding until such time that Infinity College is notified in writing by the student to permit release of "directory information".

Health and Safety Exemption Requirement

Infinity College adheres to all requirements pertaining to the protection of student information. Information about Student Records and confidentiality.

However, there are limited exceptions to FERPA regulations under which ACHS is permitted to disclose education records or personally identifiable, non-directory information from education records in connection with a health or safety emergency without student consent.

The situation must present imminent danger to a student, other students, or members of the school community in order to qualify as an exception. This action is not taken lightly and only under circumstances that present imminent danger.

Review of Records

It is the policy of the school to monitor educational records to ensure that they do not contain information that is inaccurate, misleading, or otherwise inappropriate. The school may destroy records that are no longer useful or pertinent to the student's circumstances.

Access to Student Records without Consent

The school may release student information without written consent of the student to:

- Other school officials who have legitimate interests.
- Other schools where students have applied for admission. In this case, students must be advised that the records are being sent so that they may receive a copy and have an opportunity to review and challenge the records.
- Authorized representative of the Department of Education and the Comptroller General of the United States.
- State and local authorities, where required.
- Accrediting agencies.
- Parents of a student who is their dependent as defined in the Internal Revenue Code of 1954. However, the school is not required to release such records.
- To comply with a court order or subpoena, provided that the student is notified prior to compliance.

- In the event of a health or safety emergency, where such release without consent is necessary under the circumstance

Study Time

The school believes that a student's main objective should be to further his or her education. To successfully complete the class requirements, a student must consider his or her obligation to studies and allow the necessary required amount of study time.

Tutorial Assistance

Tutorial services are available on an individual basis. Any student interested in attending a tutoring session should contact the Director of Education to make the necessary arrangements. Tutoring is provided at no additional cost to all students who need assistance with his or her studies to achieve the desired results.

1. Friday of each week is set aside for assistance in any area of difficulty that the student may be experiencing (classroom, personal, etc.).
2. A notebook will be available in the classroom to sign up for assistance from instructor(s).
3. Each student must sign up by 3:30 p.m. the day before Selective Study.
4. The faculty recommends individual or small group sessions.
5. This time will not be used as review for upcoming tests. Test reviews will be given to entire class during class time.
6. Students will complete form to document areas of weakness and strategies to improve weakness prior to meeting with instructor. Instructor will discuss with student at meeting.
7. This is counted as class time; therefore, attendance is required.

Remediation

Students are expected to take full responsibility for his/her learning while in the program. It is the student's responsibility to discuss with the faculty any difficulties he/she may be having in subject matter, review each test, and identify new strategies for improvement.

An intervention process will be implemented when a student's academic performance in classroom, attendance, clinical, and behavior have declined. The purpose is to improve opportunities for student success in the program.

Class Hours

Day classes are in session from 8:30am-3:30pm.; 8:30 a.m. to 2:30 p.m.- Monday through Thursday; Monday - Friday from 8a-5p. Typically, evening classes are held on Monday, Wednesday, and Thursday's from 5:30p-9:30p. Some classes are offered Monday – Friday from 5p-9p. Fridays are offered to students from 9:00 a.m. to 12:00 p.m. for makeup tests, individual and group tutoring, skill building drills, and additional lab time on equipment. *Practical Nursing classes are scheduled Monday - Thursday from 8:30am - 3:30pm and Monday – Thursday from 5:30pm – 10:00pm. *Clinical times will be approximately 7-12 hours per day, from 2-4 days per week. Days and times will vary according to the clinical facility availability. *Distance education class hours vary*

Incomplete

Grades of "Incomplete" can be assigned the letter grade of "I". Incompletes are only assigned under certain circumstances such as illness or hospitalization. It is up to the instructor to decide if an "I" will be assigned. The student is then given one week to complete all work missed so that the instructor may assign a grade. If for some reason, the student fails to make up the work within five scheduled class days after that, the "I" will turn to an "F".

Attendance Policy

Students are expected to be in class for the prescribed number of hours for which they have enrolled. All students must be present for at least 80% of offered hours to remain in school. Continuous absences hinder educational objectives and result in unsatisfactory achievement which may lead to termination of the student's enrollment. Absences for acceptable personal or medical reasons will not lead to a student's termination, although the student's projected date of graduation may have to be revised. Students obtaining 14 consecutive absences will be dropped from their program of study. Excessive tardiness and leaving early will be counted as absences. Keeping good attendance in school will benefit you both in your training and in employment. Furthermore, if a student is absent from school, although the student submits an excuse for their absence; the student is required to make up all work and clock hours missed.

If a student accumulates five or more absences in a month, the student will be placed on attendance probation at the time of their monthly progress report. While on attendance probation a student must not accumulate a total of five or more absences, or they may be terminated from the school.

Additionally, if a student is placed on attendance probation for a total of three times throughout their program of study, the student may also be terminated. In each case, when the student is in a situation where they may be terminated, the student must contact the Director and/or Director of Education of the campus in writing to appeal the decision to be terminated. After consulting with the student and the instructor, the Director and/or Director of Education will decide (also in writing) to accept or deny the written appeal.

If a student is approved to re-enroll in their program, the student must complete a re-entry application and a \$50.00 readmission fee is applicable. There will be a 7-day waiting period before a student is permitted to re-enter.

*Additional policies may be required in various programs.

Veterans' Attendance Policy

All absences, regardless of reason, are recorded and will be reported to the U.S. Department of Veterans Affairs. Class cuts are not permitted, and a veteran or other eligible person who cut class are charged with the length of the class absence. If a veteran or other eligible person is absent more than ten percent of the scheduled hours of attendance in the course pursued, he/she shall be terminated. He/She may be reenrolled in the same course after specific approval of the director of the school.

The effective date of interruption will be the end of the month in which the excess occurred provided he/she attends to the end of the month; otherwise, interruption will be as of the last day of attendance. If progress were unsatisfactory the time of interruption will be as of the last day of

attendance. If progress were unsatisfactory the time of interruption, the VA will be advised. Under those conditions, approval by a VA Counselor is necessary before other benefits can be authorized.

Should it be necessary for a veteran or dependent to be out of school for several consecutive days, the VA will be notified to terminate his/her benefits. (VA Form 22-1999b), and a reenrollment form (22-1999) will be submitted when he/she returns. The days which his/her benefits are discounted will not count as days of absences.

(This is the minimum standard required by the SAA under the authority of 38 CFR 21.4254. A more restrictive school policy may be used.) Early departures, class cuts, tardies, etc., for any portion of a class period will be counted as absence (1) (number). Students exceeding 14 consecutive total absences of scheduled hours in a calendar month will be terminated from their VA benefits for unsatisfactory attendance. In order to show that the cause of unsatisfactory attendance has been removed, students must show good attendance (as defined) for one calendar month after being terminated for unsatisfactory attendance. After such time, the student may be recertified for VA education benefits. The student's attendance record will be retained in the veteran's file for VA and SAA audit purposes.

Standards of Academic Progress for VA Students

(All standards must logically relate to graduation requirements)

Students receiving VA educational benefits must maintain a minimum cumulative grade point average (CGPA) or percentage of 2.0 each (term, quarter, semester, **evaluation period**, etc.).

A VA student whose CGPA or percentage falls below 2.0 at the end of any (term, quarter, semester, **evaluation period**, etc.) will be placed on academic probation for a maximum of two consecutive terms of enrollment. If the VA student's CGPA or percentage is still below 2.0 at the end of the second consecutive term of probation, the student's VA educational benefits will be terminated.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the school to be recertified after attaining a CGPA or percentage of 2.0.

Veteran's Refund Policy

The school has and maintains a policy for the refund of the unused portion of tuition, fees, and other charges in the event the Veteran or eligible person fails to enter the course, withdraws, or is discontinued at any time prior to completion. This policy provides that the amount charged to the Veteran or eligible person for tuition, fees, and other charges for a portion of the course shall not exceed the approximate pro rata portion of the total charges for tuition, fees, and other charges that the length of the completed portion of the course bears to its total length. The amount should not vary more than 10% of the exact pro rata amount – 38 CFR 21.4255

Veteran's Credit for Previous Education or Training

The school must maintain a written record of the previous education and training of the veteran or eligible person and clearly indicate that appropriate credit has been given for previous education and training, with the training period shortened proportionately, and the veteran or eligible person so notified. This means that records of all prior education and training must be

obtained, evaluated, and credit granted toward the student's program as appropriate, regardless as to whether or not the student wants that credit transferred.

Policy Protecting Students from Fees and Penalties Due to VA Payment Delay

Effective August 1, 2019, schools are not allowed to penalize or prohibit a GI Bill student from attending or participating in courses while awaiting VA payment (for up to 90 days). See the [Veterans Benefits and Transition Act of 2018](#) for more information.

Make- Up Work

Classroom work and clock hours missed because of an absence can be made up through arrangements with the Director of Education. Make-up work, however, does not remove an absence and does not grant credit for clock hours missed. Absences of instructional hours must be made up and supervised and documented by faculty, in order for the student to receive credit. Otherwise, his or her graduation date will be extended by the number of hours missed. Attendance at make-up sessions will be permanently recorded in an attendance register maintained by the instructor. Make-up work must be completed within 1 week of the assignment given.

Students will be granted a three (3) day grace period to make up any assignments or examinations missed due to an excused absence to earn a grade. Until the assignment is "made up" the student will receive a zero (0) for all work missed. Examples for excused absences are: (i.e., jury duty, military assignment, sickness with a verified doctor's excuse, hospitalization, death of an immediate family member). Students needing to make-up time will be charged a fee of \$25 per make up class and \$25 per make up day of clinical ***Additional policies may be required in the PN program.**

Late Assignments/Tests

Late assignments and/or tests will only be considered for a maximum of 85% of the total points.

Early Dismissal

Any student desiring early dismissal from class must have a valid reason and make his or her request in writing to the Director and/or Instructor. Early dismissal from class is granted at the sole discretion of the school's management staff.

Tardiness

Tardiness disrupts the learning process, is unfair to the instructor, to students who arrive on time, and will not be tolerated. Tardiness is defined as ten (10) minutes late arrival or early departure from the class. Four or more consecutive tardiness events will result in one-hour deduction. Students demonstrating such a pattern will be asked to discuss this situation with the Director of Education to remedy the situation. Continued violations may result in the student's probation or suspension.

Standards of Satisfactory Academic Progress (SAP)

A student must meet the following minimum standards of academic achievement and successful course completion while enrolled at Infinity College. Infinity College requires that all courses be successfully completed to graduate from the program.

Maximum Program Length: A student must complete the entire program in no more than one and one-half the normal time frame or a diploma cannot be awarded. If the student exceeds the maximum program length, a certificate of completion will be awarded.

Student not meeting standards will be placed on probation. A student who successfully completes only the minimum percentage of courses attempted at each evaluation point as described above will have to continue beyond the standard length of the program.

Institutional Procedures: If at any point, it is clear the student is not meeting SAP Standards, they will be placed on academic probation or suspension. A student will be placed on probation if they fail to meet minimum SAP Standards at any of the checkpoints and will remain on probation until the end of the next grading period. At this point their standards will be checked and if a student has progressed since being placed on probation they will be returned to active status.

SAP measured in accordance with the criteria below, which affect a student's academic standing. Although there are four criteria listed below, the most measurable factor is that of the GPA. The student must complete a specified percentage of clock hours attempted and maintain the minimum required GPA at each progress evaluation.

Program Length	Maximum Length (150%)	Pmt Period 1	Pmt Period 2	Pmt Period 3	Pmt Period 4	Pmt Period 5
600 clock hours	900 clock hours	0-300 clock hours SAP Evaluation at the end of PP1	301-600 clock hours			
900 clock hours	1350 clock hours	0-450 clock hours SAP Evaluation at the end of PP1	451-900 clock hours			
1692 clock hours	2538 clock hours	0-450 clock hours SAP Evaluation at the end of PP1	451-900 clock hours SAP Evaluation at the end of PP2	396 clock hours SAP Evaluation at the end of PP3 (AY2)	396 clock hours	
60 Credit hours= 2 years	90 credit hours	0-12 credit hours 1 st of 1 st Academic Year	13-24 credit hours 2 nd ½ of 1 st Academic Year	25-36 credit hours 1 st of 2 nd Academic Year	37-48 credit hours 2 nd of 2 nd Academic Year	49-60 credit hours

		SAP Evaluation at the end of PP1	SAP Evaluation at the end of PP2	SAP Evaluation at the end of PP3	SAP Evaluation at the end of PP4	
	3 years					

EVALUATION POINTS AND STANDARDS		
PROGRAM EVALUATION POINTS	GPA	COMPLETION
25	1.5	25%
50	1.7	50%
75	1.9	75%
100	2.0	100%

Students should receive a progress report at the end of every month. Nursing Assistant students will be informed if their grades daily. Should a student fail to maintain a cumulative grade point average of 2.0 or above, that student is placed on probation for thirty (30) days. During this probationary period, the student shall raise his/her status to the acceptable standards of 2.0 or above. If a student fails to meet SAP during the probationary period, the student will be reevaluated during the next period. *After two (2) consecutive probationary terms, the student shall be dismissed from their program of study.

Standard of Satisfactory Academic Progress for Financial Aid and Requirements

Satisfactory Academic Progress (SAP) standards are published and are reasonably applied for measuring whether an otherwise eligible student is making SAP in his/her educational Program. In order to maintain eligibility for financial aid, students must make adequate academic progress toward completion of his/her program.

All students must meet Infinity College's minimum standards of academic achievement and course completion progress requirements while enrolled at Infinity College. Infinity College's satisfactory academic progress standards ("SAP") have two primary components: one is qualitative, and the other is quantitative. The qualitative component requires certain minimum cumulative grade point averages be achieved as of certain measuring points and the quantitative component requires completing courses at a certain pace in order to complete an educational program within the allowed maximum timeframe.

Minimum Measurement Points occur at the end of each Financial Aid Payment Period and in addition thereto, at the applicable Minimum Measuring Point as a percent of Program Length, Minimum Measuring Point in courses, and Minimum Measuring Point in Clock Hours Attempted.

The qualitative and quantitative components of SAP are evaluated as of each Minimum Measurement Point based upon grades, credit or clock hours attempted and credit or clock hours completed as indicated on a student's transcript as of the end of the Grading Period ending contemporaneously with the most recent Minimum Measurement Point being reached.

Infinity College's satisfactory academic progress standards are the same whether or not a student receives financial aid.

A student that fails to satisfy the SAP requirements at any Minimum Measuring Point and is not placed on either Financial Aid Warning or Financial Aid Probation status shall no longer be eligible to receive assistance under the Title IV programs.

Because financial aid warnings would delay a rigorous review of students' academic performance, Infinity College decides not to use warnings. Instead, it requires students to submit an appeal when they are not meeting SAP standards and the student can no longer receive financial aid.

Process Overview

Federal regulations require all schools participating in state and federal financial aid, Title IV, and HEA programs to properly monitor and document SAP. These standards are applicable to all students enrolled in our Educational Programs and are used to measure their satisfactory progress toward graduation. The policy is provided to all students prior to the first-class session and is consistently applied to all applicable students

New SAP definitions went into effect on July 1, 2011. Policies were developed to determine the academic standards that students must meet. A schedule of measuring the achievement of Quantitative (Pace), Qualitative standards as well as the maximum time allowance to achieve SAP.

SAP standards are established by the faculty in consultation with the Director of Education Programming. Students must maintain SAP according to the set standards in order to continue enrollment. SAP is measured at the end of each payment period and will be checked prior to disbursement of aid.

SAME AS, OR STRICTER THAN

The SAP policy for Title IV, HEA students is identical to the school standards for students enrolled in the same educational programs who are not receiving Title IV aid.

The Financial Aid Administrator reviews the Title IV SAP policy to ensure it meets all federal requirements. The Director of Education Programming notifies the Financial Aid Office if the school changes academic policies.

EVALUATION PERIODS

At each formal SAP evaluation point (end of each payment period), the school checks:

Qualitative Measure (grade based)

Remedial course work may be part of or separate from regular qualitative measure

Quantitative Measure (Pace)

Maximum time frame.

Formal evaluations for SAP must coincide with the end of a payment period. The formal evaluations must be placed in each student's file. Evaluations determine if students have met the minimum requirements for SAP.

Formal evaluations for SAP are conducted at the following actual clocked hours:

300 Clock Hours (mid-semester)		0-300 clock hours	301-600 clock hours
1500 Clock Hours		450 clock hours	After first payment period
	900 clock hours	End of Second Payment Period	
	1200 clock hours	3 rd evaluation	
	1500 clock hours	4 th and final evaluation	

EVALUATION POINTS AND STANDARDS		
PROGRAM EVALUATION POINTS	GPA	COMPLETION
25	1.5	25%
50	1.7	50%
75	1.9	75%
100	2.0	100%

Evaluations determine if students have met the minimum requirements for SAP. The frequency of evaluations ensures that students have ample opportunity to meet both the attendance and SAP requirements by the end of each of the payment periods in the course.

Academic Year Definition

900 CLOCK HOURS AND 26 WEEKS

24 Credit hours and 30 weeks

For all FSA programs, a week of instructional time is any period of 7 consecutive days in which at least 1 day of regularly scheduled instruction, examination or (after the last day of classes) at least 1 scheduled day of study for examination occurs.

Quantitative Measure

To be considered making SAP, Students are required to attend a minimum of 67% of his/her educational program in no longer than 100% of the published length of the program as measured in clock hours as determined by the program. Evaluations are conducted at the end of each payment period to determine if students have met the minimum requirements and are based on the cumulative attendance percentage as of the last day of the evaluation period.

Pace is calculated by dividing the total hours accrued (successfully completed) by the total number of hours scheduled. At the end of each evaluation period, the school determines if

students have maintained at least 67% cumulative attendance since the beginning of the course. This indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed. Remedial coursework may be included at the school's option.

Full-time students are scheduled to attend (30) clock hours weekly and part-time students are scheduled to attend (12) clock hours weekly.

MAXIMUM TIME FRAME

A school may use a graduated standard instead of the fixed standard above. This would mean that the student could attend less than 67% in the first payment period but would have to eventually "catch up" to complete the program in the required 150% of the time.

SAP policies contain a Pace measure. Students must progress through the Program at a sufficient pace to ensure completion within the maximum timeframe of 150% of the published length of cumulative clock hours.

The maximum time for students to complete the Program is as follows:

For undergraduate programs measured in clock hours, it is a period that is no longer than 150% of the published length of the program as measured by the cumulative number of clock hours the student is required to complete and expressed in calendar time.

Normal Clock Hours	Normal Credit Hours	Normal Timeframe	Maximum Clock Hours	Maximum Timeframe
900		26 weeks	1350	39 weeks
	60	2 years	4050	3 years

****Example:** If an undergraduate academic program is 27 weeks and $1.5 \times 27 = 40.5$ the time cannot be rounded. If, at any time the student cannot complete the program within the maximum time frame, then the student must successfully appeal for an extension to the maximum time frame to continue receiving title IV aid.

To calculate the pace at which the student is progressing the school would:

- Divide the cumulative hours the student has successfully completed by the cumulative number of hours the student has attempted.

$$\frac{\text{Cumulative hours completed}}{\text{Cumulative hours attempted}}$$

The maximum time frame must be measured at each evaluation point (the student is ineligible at the evaluation point when it is determined that the student will exceed the maximum timeframe NOT at the point when they actually reach the maximum timeframe.)

If a student is meeting satisfactory academic progress before the beginning of a payment period but will exceed the maximum time frame before the end of the payment period, the student must

submit a successful appeal to extend the maximum time frame to at least the end of the payment period.

Qualitative Measure

The qualitative measure is used to determine SAP is based on grades. Students must maintain a cumulative grade point average of at least 2.0 at the end of each semester.

Students must make up failed or missed evaluations and assignments. Students receive a letter grade as indicated on the chart below which is based on the end-of-semester evaluation. Mid-semester evaluations are for informational purposes and therefore students do not receive a letter grade.

Students receive a letter grade as indicated on the chart below and is based on the end-of-semester evaluations. Students who receive an “F” course grade will be required to repeat that course.

Grade	Points	Description
A	4.00	Superior: Mastery of subject matter
A-	3.70	
B+	3.30	Good: Above average of mastery of subject matter
B	3.00	
B-	2.70	
C+	2.30	Satisfactory: Acceptable mastery of subject matter
C	2.00	
C-	1.70	
D+	1.30	Low pass: Limited mastery of subject matter
D	1.00	
F	0.00	Failure: Deficiency in subject matter

Students who fail to meet the Qualitative standards are placed on Financial Aid Warning. If there is no improvement by the end of the next payment period, students could be placed on Financial Aid Probation. Students have the option to appeal the decision. The Financial Aid Administrator and the Director of Education Programming monitor’s qualitative progress.

A student, who has not improved his standing and still fails to comply with the satisfactory academic progress policy at the end of the Warning period, will be ineligible for future aid disbursement. It is advisable for any student on warning status to meet with both a financial aid counselor and an academic advisor to ensure future satisfactory progress and aid eligibility.

The student may continue a cash-pay basis with an approved payment plan. Arrangements for payment, must be approved within 10 school days after notification of loss of SAP.

If either one of these puts the student in a non-satisfactory status, we will notify the student in writing either by mail or email and notate in the student file.

CHECKING SAP:

Student's SAP evaluations, whether after each payment period, annually or less often than each payment period, MUST OCCUR AT THE END of a payment period. Official evaluation cannot be less than a payment period.

Frequency of evaluation determines options

- School must evaluate SAP at the end of each payment period for a program that is one academic year or less in length.
- For programs, longer than one academic year:
 - School may evaluate at least annually to correspond to the end of a payment period
 - School may evaluate at the end of each payment period.
- Each evaluation must include qualitative, quantitative, and maximum timeframe standards.

At the time of review, any student who is not in compliance with SAP standards is no longer eligible to receive any title IV assistance. This is true whether the student has not achieved the required qualitative assessment or is not successfully completing the program at the required pace of completion and will not complete within the maximum time frame.

Each student will be notified by mail of the results of their evaluation and how it impacts his/her Title IV eligibility.

Awarding of Title IV Funds

A. Financial Need To determine your eligibility for financial aid, financial need must be calculated. Financial Need is determined by subtracting the Expected Family Contribution (EFC) from the Cost of Attendance (COA):

$[\text{Cost}] - [\text{Expected Family Contribution}] = \text{Financial Need}$

(If your expected family contribution is less than the cost of attendance, you have *demonstrated financial need* and may be eligible to receive financial aid.)

Cost refers to the total cost of attending the College for one academic year (two terms), which includes tuition and fees, books and supplies, room and board, transportation, clothing, and a modest allowance for personal/miscellaneous expenses.

Expected Family Contribution is derived from a federal need's assessment formula developed by the U.S. Congress, known as Federal Methodology, which includes two parts:

- the parental contribution* (for dependent students)
- the student contribution* (for dependent and independent students)

Parent contribution and student contribution equal the Expected Family Contribution. Since you are the primary beneficiary of the college education, you are expected to contribute toward meeting your college costs.

B. Circumstances That May Change Your Financial Need or Cost of Attendance

- **Change in Family Circumstances** - If you or your family's situation changes because of a separation, divorce, or death, request a Special Circumstance Form. You must submit the completed form and any required documentation to the Financial Aid Office. Any adjustment in aid resulting from this request is contingent upon your eligibility, according to program regulations and the availability of funds to the college at the time of review.
- **Change in Financial Circumstances** - If you or your family's situation changes because of a loss of employment, loss of untaxed income or has a family member who is a dislocated worker, request a Special Circumstances form from the Financial Aid Office. Return the form and required documentation to the Financial Aid Office. Any adjustment in aid resulting from this request is contingent upon your eligibility, according to program regulations and the availability of funds to the college at the time of review.
- **Other Extenuating Circumstances** that may be considered
- Tuition expenses at an elementary or secondary school,
- Unusual medical or dental expenses, out-of-pocket costs not covered by insurance, or
- Other unusual circumstances that might affect your eligibility for student financial aid.

AWARDING - The financial aid offer is based on information you submitted; our estimates of available funds, and the anticipated number of applicants seeking financial assistance. Your financial aid will be credited directly to your student account for automatic payment of on-campus charges. If you are eligible for grants in excess of tuition and fees, and you wish to make other charges (e.g., books, supplies, etc.) using your financial aid funds, you must authorize South Central College to pay these charges. You may rescind this authorization at any time prior to incurring any such charges; and you may not cancel it once any such charges have been made. This authorization is valid for funds in excess of tuition and fees, based on your financial aid eligibility and enrollment status. **IF AUTHORIZATION IS NOT GIVEN, YOU WILL BE RESPONSIBLE FOR PAYMENT OF THESE CHARGES AT THE TIME EXPENSES ARE INCURRED.**

PACKAGING PHILOSOPHY - It is our responsibility to coordinate all sources of financial aid for students. If you start in the fall, we will send an email communicating your award availability through your e-services account. Revised award notices will be sent when applicable. We will attempt to package aid for all applicants that will meet direct educational costs of tuition and fees.

Most outside resources such as Military Federal Tuition Assistance, Workforce Investment Act (WIA), Rehabilitation Services (RS), Employment Training (MET), Dislocated Worker Funding, private scholarships, and any other outside resources of financial assistance will be counted toward meeting student need.

Federal Direct Loans will be the last resource of aid. This packaging philosophy is subject to change as necessary due to the number of qualified aid applicants, school policies, federal or state law, and the dollar amount of aid available in each program.

Eligibility Requirements

The award listed on your original award represents an offer based on full-time registration for each term of the academic year. Disbursed funds will reflect actual enrollment as of the census date of the term.

ELIGIBLE PROGRAMS: A vocational program leading to a certificate, diploma, or degree, no less than 16 semester hours in length in an occupational field.

ELIGIBLE STUDENTS: A student who is enrolled in an eligible program for the purpose of obtaining a certificate, diploma, or degree program. A student must be a high school graduate, have a GED or home school document to be eligible for student aid.

Registration Requirements

Federal Financial Aid is based upon the following enrollment status:

- Full-Time
- Three-Fourths Time
- One-Half Time
- Less than Half Time

Your award will be adjusted if you register for less than full-time status.

- Financial aid is adjusted after the census date. Enrollment status will be determined after the last date to add and/or drop a class for the term. Withdrawal from the college on or prior to the deadline to add a class will cancel all financial aid.
- Financial aid is not adjusted for credits added after the census date.
- Financial aid for qualified applicants is prorated to actual enrollment, based upon full, three-quarter, half, or less than half-time. Students must be enrolled in a program of study leading to a certificate in an occupational field and be making satisfactory academic progress.
- Other financial aid, specifically loan aid is limited depending upon grade level.

****Note:** Infinity College does not participate in FWS Community Service or FSEOG selection programs.*

Rights and Responsibilities of Student Receiving Financial Assistance

MONEY MANAGEMENT - Paying for college is more than paying your tuition and fees. It means managing your money and stretching your dollars to meet your financial obligations. The Financial Aid Staff can assist students with their budgets, advise on loan indebtedness and other money management topics through educational programming and advising services.

You have a right to:

- Accept, reject, or seek adjustment to your financial aid award without prejudice.
- Know how much aid you will receive by term and how it will be disbursed or applied to your account.

- Know the terms of any employment program award offered.
- Know the interest rate, amount and repayment starting date of loans offered to you.
- Meet with a financial aid professional to review any decisions you feel warrant consideration due to an emergency or circumstances beyond your control.
- Receive answers to any questions you have about financial aid.

You have a responsibility to:

- Apply each year you want to receive financial aid.
- Provide complete and accurate information, and documentation if requested.
- Notify our office of change of enrollment, number of credits, financial status, and outside awards.
- Complete an entrance and exit counseling and repay all loans according to the terms of your disclosure statement and Master Promissory Note.
- Use funds awarded solely for educational expenses incurred while attending SCC.
- Know and comply with the policies for financial aid "Satisfactory Academic Progress".
- Accept responsibility for all agreements signed.
- Report any changes in your financial situation from which you reported on your FAFSA.

DRUG FREE REQUIREMENT - In compliance with federal law (The Drug Free Schools and Communities Act Amendment of 1989), Infinity College has adopted and implemented a drug free prevention program to prevent the illicit use of drugs and the abuse of alcohol by students and employees. The program includes:

- Providing all students and employees with information concerning the health risks associated with the use of illicit drugs and the abuse of alcohol.
- Informing students and employees of drug and alcohol counseling, treatment, or rehabilitation programs available.
- Providing all students and employees with a description of applicable legal sanctions under law for unlawful possession, use, or distribution of illicit drugs and alcohol.

REPORTING OF FALSE INFORMATION - South Central College is required to refer for investigation to the Office of the Inspector General any instance in which the review of Federal Title IV aid shows reason to suspect that an applicant may have engaged in fraud or other criminal misconduct in connection with the application or documentation that was submitted in response to the application. This includes, but is not limited to, the following situations:

- False claims of independent student status
- False claims of citizenship
- Use of false identities
- Forgery of signatures or certifications
- False statements of income
- False statements of household data

Contacts for Information on financial assistance and institutional issues

- Institutional Financial Aid Representative- 337.261.9009
- General Information and Telephone Inquiries- 337.261.9009
- Federal FAFSA Processor: 319.337.5665
- Federal Programs/Application: 800.4-FED-AID
- IRS (Tax return copy request): 800-TAX-1040

[NSLDS](#) - Institutions that enter into an agreement with a potential student or parent of a student regarding a Title IV loan are required to inform the student or parent that the loan will be submitted to the National Student Loan Data System (NSLDS) and will be accessible by guaranty agencies, lenders, and institutions determined to be authorized users of the data system.

Consumer Loan Disclosure Notice - In compliance with federal regulations under HEOA Sec. 489 amended Sec. 485B (d) (4) (20 U.S.C. 1092b) the College is required to notify you that approved loans will be submitted to the National Student Loan Data System (NSLDS) by the U. S. Department of Education and will be accessible by guaranty agencies, lenders, and institutions determined to be authorized users of the data system as determined by the U. S. Department of Education.

Financial Aid Programs

FEDERAL PELL GRANT PROGRAM - The Pell Grant Program was established by the Federal Government to provide the foundation upon which a complete package of financial aid may be constructed. If you apply and are determined eligible, you will receive an award. Before your Pell Grant can be disbursed, we must have a valid FAFSA record in our office by the last day of the term for which you were enrolled. The Federal Pell Grant is not available to students with a prior bachelor's degree or higher. Eligibility is limited to the equivalent of six full-time years of receiving Pell Grant funds.

Federal Direct Subsidized and Unsubsidized Loans

- The Federal Direct Subsidized Loan Program is a need-based, federal student loan program administered by the college, the Department of Education, and a loan servicer. You must be enrolled at least half-time (6 credits) to be eligible. The Federal Government subsidizes the interest while the student is enrolled at least half-time.
- The Federal Direct Unsubsidized Loan Program is a non-need based, federal student loan program administered by the college, the Department of Education, and a loan servicer. You must be enrolled at least half-time (6 credits) to be eligible.

Loan Limits - The loan amount may not exceed the cost of attendance less any other financial aid. More information on annual and aggregate Federal Direct Loan limits can be found [here](#). A

borrower may receive both a Subsidized and an Unsubsidized Federal Direct Loan up to the annual loan limit based on grade classification.

Pre-Requirements -

- Direct Loan Entrance Counseling provides information on your rights and responsibilities as a borrower as well as financial management.
- Master Promissory Note is your contract with the Department of Education that you agree to abide by the repayment terms of your federal student loans.

Exit Counseling - Exit counseling must be completed when you graduate, withdraw, or drop below half-time. The process provides information on the average amount borrowers owe, repayment options, consolidation of loans, and budget information.

Loan Proration - Students who are graduating after fall semester or enrolled in a program that is shorter than a full academic year will have their Direct Loan(s) prorated based on the number of credits needed to complete the program on record. Therefore, the amount listed on your award letter may be higher than your actual remaining eligibility. The amount will be revised at the time the college certifies your loan.

Federal Direct Parent Plus Loans

Federal Parent PLUS loans enable parents to borrow up to the cost of attendance minus other financial aid for each child who is enrolled at least half-time and is a dependent student. Federal PLUS borrowers do not have to demonstrate financial need, although they will have to undergo a credit analysis. If a parent is denied a PLUS Loan, the student may be eligible for additional Unsubsidized Direct Loan funding.

CANCELLATION - Borrowers have the right to cancel all or a portion of the loan if request is submitted to South Central College within 14 days of disbursement.

Note: If you completely withdraw during a term, future loan disbursements will be cancelled.

OFFICE OF THE OMBUDSMAN - Students who experience problems with their student loan during the course of repayment may seek assistance through the Department of Education Office of the Ombudsman. Borrowers can contact them at <https://studentaid.ed.gov/repay-loans/disputes/prepare/contact-ombudsman> or 877-557-2575.

PROFESSIONAL JUDGEMENTS AND DEPENDENCY OVERRIDES

The law governing the FSA programs is based on the premise that the family is the first source of the student's support, and the law provides several criteria that decide if the student is considered independent of his/her parents for aid eligibility.

Note that a student reaching the age of 18 or 21 or living apart from her parents does not affect her dependency status. If a student is considered a dependent of his parents, their income and assets must be included on the FAFSA. The CPS will calculate a parent contribution and add it

to the student's contribution to derive an EFC. In unusual cases an aid administrator can determine that a student who does not meet any of the independence criteria should still be treated as an independent student.

Professional Judgment

IN GENERAL—Nothing in this part shall be interpreted as limiting the authority of the financial aid administrator, on the basis of adequate documentation, to make adjustments on a case-by-case basis to the cost of attendance or the values of the data items required to calculate the expected student or parent contribution (or both) to allow for treatment of an individual eligible applicant with special circumstances. However, this authority shall not be construed to permit aid administrators to deviate from the contributions expected in the absence of special circumstances. Special circumstances may include tuition expenses at an elementary or secondary school, medical, dental, or nursing home expenses not covered by insurance, unusually high child care or dependent care costs, recent unemployment of a family member or an independent student, a student or family member who is a dislocated worker (as defined in section 101 of the Workforce Investment Act of 1998), the number of parents enrolled at least half time in a degree, certificate, or other program leading to a recognized educational credential at an institution with a program participation agreement under section 487, a change in housing status that results in an individual being homeless (as defined in section 103 of the McKinney-Vento Homeless Assistance Act), or other changes in a family's income, a family's assets or a student's status. Special circumstances shall be conditions that differentiate an individual student from a class of students rather than conditions that exist across a class of students. Adequate documentation for such adjustments shall substantiate such special circumstances of individual students. In addition, nothing in this title shall be interpreted as limiting the authority of the student financial aid administrator in such cases (1) to request and use supplementary information about the financial status or personal circumstances of eligible applicants in selecting recipients and determining the amount of awards under this title, or (2) to offer a dependent student financial assistance under section 428H or a Federal Direct Unsubsidized Stafford Loan without requiring the parents of such student to file the financial aid form prescribed under section 483 if the student financial aid administrator verifies that the parent or parents of such student have ended financial support of such student and refuse to file such form. No student or parent shall be charged a fee for collecting, processing, or delivering such supplementary information.

Students Without Parental Support

Students whose parents refuse to support them are not eligible for a dependency override, but they may be able to receive unsubsidized Stafford loans only. For a student to be eligible for this provision (the text of which is in the "Professional judgment" margin note on page 114), you must get documentation (1) that his parents refuse to complete his FAFSA and (2) that they do

not and will not provide any financial support to him. Include the date support ended. If the parents refuse to sign and date a statement to this effect, you must get documentation from a third party (the student himself is not sufficient), such as a teacher, counselor, cleric, or court. As noted in the next section, this situation does not justify a dependency override. But as with overrides, resolving the situation is at your discretion. If you decide that a student falls into this category, you must document your decision and ensure that the student submits a FAFSA and passes all the eligibility matches. The result will be a rejected application with no EFC. You can then award the student unsubsidized Stafford loans up to the maximum the student would normally be eligible for depending on his grade level (but not the amount a student can get when his parent is unable to get a PLUS loan).

Dependency Overrides

A financial aid administrator (FAA) may do dependency overrides on a case-by-case basis for students with unusual circumstances. If the FAA determines that an override is appropriate, she must write a statement detailing the determination and must include the statement and supporting documentation in the student's file. However, none of the conditions listed below, singly or in combination, qualify as unusual circumstances meriting a dependency override:

1. Parents refuse to contribute to the student's education.
2. Parents are unwilling to provide information on the FAFSA or for verification.
3. Parents do not claim the student as a dependent for income tax purposes.
4. Student demonstrates total self-sufficiency.

Unusual Circumstances

Unusual Circumstances do include (and may cause any of the above conditions) abandonment by parents, an abusive family environment that threatens the student's health or safety, or the student being unable to locate his parents. In such cases a dependency override might be warranted. The presence of these conditions would not disqualify a student from being an unaccompanied youth who is homeless or self-supporting and at risk of being homeless. Such a student who is too old (i.e., is 22 or 23) to be a "youth" would merit a dependency override. An FAA may, without gathering documentation, use an override that another school granted in the same award year. However, overrides do not carry over from one year to the next; the FAA must reaffirm each year that the unusual circumstances persist, and an override is still justified.

A third party that knows the student's situation—such as a teacher, counselor, medical authority, member of the clergy, prison administrator, government agency, or court—should establish the unusual circumstances. Evidence can be a signed letter or an official document, such as a court order. If third party documentation is truly not available, the school may—though it is not required to—accept a signed and dated statement from the student or a family member detailing the unusual circumstances. Such a statement should be a last resort.

Unable to Provide Parental Data

FAFSA on the Web allows students to indicate that they believe they have special circumstances that prevent them from providing parent information. A student who indicates this is thoroughly informed about what warrants a dependency override and what the results will be for his application. If he persists through those screens and does not include parent data, he will get a rejected ISIR that will have the special circumstances flag set. You will have to review the student's situation and determine if he is an unaccompanied homeless individual, merits a dependency override, must instead provide parent data, or should be permitted to borrow only unsubsidized Stafford loans because he can document that his parents have refused to support him and to provide their information on his FAFSA. In the last case he does not receive a dependency override.

Credit Balances

The college's policy is to resolve *eligible* credit balances in student accounts as promptly as possible - in compliance with all applicable regulations and by the end of the term in which the credit balance is created - by issuing refunds to the student.

A *credit balance* results when the total of the credits posted to a student's account (e.g., payments, loan disbursements, scholarships, etc.) exceeds the total of the charges applied or applicable to the account for a specific term or semester.

A *credit balance eligible for a refund* is one where all the applicable charges and credits have been posted to the account and his or her eligibility for such funds has been reviewed and confirmed or adjusted based on current eligibility, enrollment, or any other applicable conditions.

Anticipated funds, including anticipated financial aid, are not considered credits to a student's account until the funds have actually been disbursed to the account.

Accounts of students on a Payment Plan are not eligible for a refund unless the Payment Plan has been completed and paid in full, and payments exceed the applicable charges.

Account Balances, Returns and Payments

In some cases, if a refund is issued and subsequently a balance is created in the student's account, it is the student's responsibility to return the funds to the University or pay the balance in accordance with the school's billing and payments policies, including any applicable penalties and late fees

Types of Student Account Credit Balances and Refunds

Credit balances may be related to payments from several sources, including from personal funds; Title IV Federal Student Aid; and non-federal aid funds, such as private loans and grants, and other external awards.

The school's policies and procedures for handling student account credit balances adhere strictly to federal and other regulatory requirements, as applicable, and vary depending on whether a credit balance is related to federal aid funds or not.

Credit balances may also be related to and affected by changes in a student's enrollment status during a term or semester; changes to expected enrollments status prior to a term, including non-

enrollment; changes to academic workload (Add/Drop) that affect federal or other aid eligibility; leaves of absence; or withdrawal.

If a student's enrollment status changes as a result of adding or dropping classes, the student's federal aid award may need to be adjusted and this may affect the amount of any refunds.

CREDIT BALANCES AND REFUNDS DUE TO FEDERAL FINANCIAL AID

Depending on the specifics of the situation, for students who have a credit balance and are recipients of Title IV federal aid, the level of aid awarded may need to be recalculated by the school's financial aid office.

The University will credit Title IV federal aid funds to a student's account only against allowable institutional charges

Written Authorization:

Students (or parent borrowers) must provide written authorization before the University can perform any of the following actions with respect to credit balances related to Title IV federal aid funds:

- Hold a credit balance in the student's account across terms within the same award year, or
- Apply funds awarded for the current year to prior year charges, up to \$200, to pay for charges other than for tuition, fees, room, and board

*Students may provide this written authorization by **sending us an email request**.*

CREDIT BALANCES AND REFUNDS DUE TO OVERPAYMENT OR OTHER, NON-FEDERAL STUDENT AID FUNDS:

If a student or parent overpays the student's account, related credit balances will be refunded to the student, regardless of the source of the payment.

For students who did not enroll during the term or semester for which a credit balance exists in the student's account, the credit balance will be refunded to the student, unless the payment was made via wire transfer, in which case the payment will be returned to the source.

If a credit balance on a student's account is related to other, non-Title IV Federal Student Aid funds (for example, external awards, such as scholarships, grants, or private loans) the credit balance in the account may be reduced, may be returned to the source, or may be refunded to the student, depending on the specifics of the situation and the conditions of the award.

Sponsored (Third-Party) Billing:

For students who are sponsored by a third party for whom the college is billing the sponsoring organization through its Third-Party Billing program, the refund may be sent to the sponsoring organization, depending on the conditions of sponsorship.

Refund Processes

The college's policy is to monitor credit balances daily as they are created in student accounts; Infinity College also reviews student accounts for accuracy of charges and funds posted, as well as possible pending charges.

Infinity College prioritizes refund processing in the following manner:

PRIORITY OF CREDIT BALANCES AND REFUNDS DUE TO TITLE IV FEDERAL STUDENT AID:

The college will automatically issue refunds for eligible credit balances related to Title IV Federal Student Aid funds.

Credit balances related to Title IV federal aid funds, per federal regulations, must be refunded no later than 14 days after either:

- *The date the credit balance occurred on the student's account*, if the credit balance occurred after the first day of class of a payment period, *or*
- *The first day of classes of the payment period* if the credit balance occurred on or before the first day of class of that payment period.

Credit balances related to Title IV funds are always prioritized for refund processing, except that, as noted above, the University will hold credit balances in a student's account across terms within the same award year if the student (or parent borrower for Parent Plus Loans recipients) provides prior written authorization.

Issuing Refunds

Refunds are issued via paper check.

Financial Aid Warning

The school evaluates SAP at the end of each payment period. Students who do not meet SAP measures described above will automatically be put on Financial Aid Warning for one payment period. This status may only be given to a student who was in compliance with the institution's SAP standards at the previous evaluation. Students who are put on a Financial Aid Warning continue to receive Title IV aid for the next payment periods after they receive the warning status. The student's academic progress will be evaluated at the end of the Warning period. It may not be assigned for consecutive payment periods.

The Warning status is applied only to students with a reasonable expectation of improvement in one payment period.

If a student is making SAP at the end of the Financial Aid Warning period, they shall be returned to normal SAP status with no loss of Title IV eligibility.

APPEAL PROCESS

Students who do not make SAP and is placed on Financial Aid Suspension will lose their Title IV financial aid eligibility.

The Financial Aid Appeal process allows students who are not meeting SAP standards to petition the institution for reinstatement of Title IV aid eligibility. (If a school does not allow an appeal, a student may not be placed on financial aid probation).

Students may have the opportunity to have their financial aid eligibility reinstated by appealing the decision and being placed on Financial Aid Probation. Students have five (5) business days after being notified to institute an appeal. The appeal must be in writing and given to the Executive Director, who will meet with the Financial Aid Academic Appeals Committee to decide on the appeal.

The bases on which a student may file an appeal are injury or illness; death of a relative; or other special circumstance. Students must provide supporting documents and describe in writing any unusual circumstances that warrant special consideration. Students must provide information as to why they did not make SAP and what has changed that will allow them to make SAP by the next evaluation point.

The Executive Director will provide a decision in writing within ten (10) business days. The school has the final decision. If a student's appeal is accepted the student can get financial aid.

Financial Aid Probation

If the institution approves the appeal, the student may be placed on probation after the institution evaluates the student's progress and determines that the student did not make Satisfactory Academic Progress during the warning or previous evaluation period. Probation will only be for one additional payment period during which the student remains eligible for federal aid.

The student will be placed on an academic plan to regain satisfactory academic progress status to continue to be eligible for federal aid beyond the initial probationary period, the student must either be meeting the cumulative attendance and grade standards as published by the school or be in compliance with any customized written academic plan.

The academic plan may be as complicated as a course-by course plan toward completion, or as simple as a mathematical formula that specifies the percentage of coursework that the student must now complete. An academic plan may continue for multiple payment plans. The student is now on financial aid probation. At the completion of the plan the student will either be in compliance with SAP or have completed the program. If the student fails to meet the standards established in the plan, the student will no longer be eligible for title IV aid.

In the academic plan, the school determines the minimum grade point average the student must achieve and the number of credits that the student may take.

An academic plan can be changed if the student files another appeal. The reasons for changing the academic plan are related to unusual circumstances that presented the student from meeting the requirements of the original academic plan. These reasons may include:

- Two required courses are only available in the same time slot.
- The school is unable to offer a required course during the term outlined in the plan.
- Personal situation or emergency.

All documents concerning a written appeal of a SAP evaluation must be kept in the student file, including the school's written determination of such appeal and details of any academic plan that may be developed.

Return Of Title IV Funds

The return of Title IV funds policy is designed for students who wish to discontinue their enrollment in their educational program or for those students who cease attendance without officially notifying the college. The policy outlines the potential financial ramifications of withdrawing from the College.

Federal regulations require that Title IV financial aid funds to be awarded and disbursed under the assumption that the student will attend the institution for the entire period in which federal assistance was provided. When a student withdraws from all courses for any reason, he/she may no longer be eligible for the full amount of Title IV funds that he/she was originally scheduled to receive. The return of funds is based on the premise that students earn their financial aid in proportion to the amount of time in which they are enrolled. A prorated schedule is used to determine the amount of federal aid he/she will have earned at the time of the withdrawal.

Please Note:

- Institutional funds are not subject to the R2T4 policy.
- If a student withdraws from all courses after the 60th percentile of the payment period, the Return of Title IV refund calculation is not required.
- Prior to completing the Return of Title IV Funds calculation, the College will evaluate student eligibility for a post withdrawal disbursement, and if eligible, the post withdrawal disbursement will be made.

This calculation must be completed if a student receives federal funds and:

- completely withdraws prior to the 60th percentile of the payment period, or
- does not complete all modules (courses that are not scheduled for the entire payment period), or stops attending before completing the payment period

Steps involved in the Return of Title IV Funds Calculation

1. Financial Aid Office will determine:

The total amount of Title IV aid disbursed (if any) for the term the student withdrew. (Title IV aid is counted as aid disbursed in the calculation if it has been applied to the student account on or before the date the student withdrew.) The total amount of Title IV aid disbursed, plus the aid that could have disbursed (if any) for the term in which the student withdrew.

2. Percentage of Aid Earned
3. Amount of Aid Earned by Student
4. Amount of Title IV Aid to be Disbursed or Returned

Order of funds returned

1. Unsubsidized Federal Direct Loan
2. Subsidized Federal Direct Loan

3. Federal Direct Graduate PLUS Loan
4. Federal Direct Parent PLUS Loan
5. Federal Pell Grant

Loans must be repaid by the loan borrower as outlined in the terms of the borrower's promissory note.

The grace period for loan repayments for Federal Unsubsidized, Subsidized Direct Loans will begin on the day of the withdrawal from the MCCM. The student should contact their loan servicer if he/she has questions regarding the grace period or repayment status.

Reinstatement Of Title IV, HEA Aid

Reinstatement of aid is limited to the period under evaluation. Students making SAP by the conclusion of the Warning or Probation period will be removed from the warning/probation status and will regain eligibility for Title IV, HEA funding.

A student who failed to make SAP progress may re-establish his/her financial aid eligibility after meeting the following conditions:

Enroll at the student's own expense until both the Quantitative and Qualitative SAP standards are met, while not exceeding the Maximum Time Frame in order to regain eligibility for Title IV, HEA funding.

A former student requesting to be reinstated as an active student should do so in writing. Supportive documentation and/or information concerning any mitigating circumstances should be noted in the request. The requesting prior student shall be notified of the Reinstatement Review within five (5) business days following the decision of the Financial Aid Academic Appeals Committee.

Students who regain SAP at the end of the next payment period will have regained full eligibility for Title IV, HEA funding.

Leave Of Absence, Interruptions, Course Incompletes, Withdrawals, And Transfer Credits

If enrollment is temporarily interrupted for a Leave of Absence, students return to school in the same SAP status prior to the leave of absence. Clock hours that have elapsed during a leave of absence will extend students' contract period by the same number of clock hours and days taken in the leave of absence and will not be included in the cumulative attendance percentage calculation. Requests for a LOA must be specific in writing, be signed and dated. Before a LOA is granted there must be reasonable expectation that the student will return from the leave.

Students who do not return from a Leave of Absence will be unofficially withdrawn from the school within 14 days after the return date and will have their last date of attendance as the last day they attended before the start of the leave.

Students who withdraw prior to completion of the course and wish to re-enroll within 180 days of the original official withdrawal date will return in the same SAP status as at the time of withdrawal.

Course incompletes, repetitions and non-credit remedial courses do not apply. Therefore, the school does not issue incompletes or offer non-credit remedial courses. All hours attended are considered attempted. Students are not permitted to withdraw from individual subjects. Students withdrawing from school will receive credit for all work successfully completed up to the point of withdrawal.

Change of Major or Program: If a student changes his/her major or program, the school does not count for SAP purposes, classes taken in the first major or program that do not apply to the second or subsequent major or program.

Due to the unique nature of Infinity College's curriculum, transfer credits are not accepted from other institutions.

Notification

Students will be sent written notification if their status changes as a result of the SAP evaluation.

OFFICIAL WITHDRAWAL FROM SCHOOL

In the event a student must withdraw, she/she must consult with the Executive Director and/or Director of Education Programming and notify in writing of his/her official last day.

UNOFFICIAL WITHDRAWAL FROM SCHOOL

If the school unofficially withdraws a student from the school, the Executive Director and/or Director of Education Programming will record the circumstances and last day in writing and include the information in the student's official file.

Course Retakes:

A full-time student in a term-based program only, may retake (one time only per previously passed course) any previously passed course. "For this purpose, passed means any grade higher than an "F". This retaken class may be counted toward a student's enrollment status based on inclusion of the class.

A student may be repeatedly paid for repeatedly failing the same course (normal SAP policy still applies to such cases) and if a student withdraws before completing the course that he or she is being aid title IV funds for retaking, then that is not counted as his or her one allowed retake for that course. However, if a student passed a class once, then is repaid for retaking it, and fails the second time, that failure counts as their paid retake, and the student may not be paid for retaking the class a third time.

If a student withdraws from all Title IV eligible courses in the payment period or period of enrollment and continues to attend only the course(s) that he or she is completing or repeating for which he or she may not receive Title IV eligible program only if he or she is attending one or more courses in that program for which the student is receiving Title IV HEA program funds.

Net Price Calculator

What is the Net Price Calculator?

- The Net Price Calculator is a tool for students and parents to use to get an estimate of what it may cost to attend *Infinity College*.
- The information you receive from the calculator is an estimate of costs and financial aid.
- The estimate assumes that you will be a degree seeking undergraduate student enrolled full-time (12 or more credits) in fall and spring semesters.

How does the calculator work?

- The calculator uses information on the typical cost of attending *Infinity College*, including tuition, fees, books, supplies, room and board, transportation, and personal expenses.
- Your actual costs will vary depending on your major, the courses you select and your living arrangements.
- Using family financial information that you enter; the calculator will estimate the amount of grant and scholarship financial aid that similar students received in the previous year.

Getting Started

- Using the calculator should take less than ten minutes of your time, assuming you have family financial information available.
- You will be asked some basic questions about you and your family's financial situation, so it might be helpful to have recent tax forms or pay stubs on hand.

Privacy

- Information you enter into the tool is not retained, transmitted, or used by *Infinity College* or any third party.
- You will be asked basic information about you and your family's income and plans for college in order to calculate your expected costs and financial aid.
- You will not, however, be asked to enter your name, date of birth, address, social security number or any other personally identifiable information.

Things to Keep in Mind

- The Net Price Calculator can only provide an ESTIMATE of costs and financial aid. It is not a final determination or actual award of financial assistance or a final net price.
- Financial aid award packages are determined after a student has submitted a Free Application for Federal Student Aid (FAFSA) indicating the *Infinity College* FAFSA school code.
- For more information on applying for Federal student aid, go to <http://www.fafsa.ed.gov>.

- Estimated costs are based on the costs for students based on previous academic year's enrollment.
- Financial aid is estimated based on the median grant and scholarship aid received by first-time, full-time degree seeking students enrolled in based on previous academic year.
- The financial aid estimates do not include any loans or work-study assistance.
- Education costs and available financial aid programs will vary each academic year.

Academic Counseling

Academic counseling is a continuing experience between the student and teacher, and students are counseled relating to Academic Probation. The Director of Education counsels with students often to help with school and personal problems. Infinity College has a sincere interest in the personal welfare of each student and promotes an open-door policy of communication to provide assistance when needed.

Grade and Grade Points

Students must maintain satisfactory academic progress at all times. Students are encouraged to consult with their instructors regarding their grades and academic progress. Students will receive a progress report at the end of each month.

Your final course grade reflects the grades earned on quizzes, case studies, discussion responses, assignments, internship/externship, and the final exam. A letter grade will be assigned upon conclusion of the course. Successful completion of a course requires an overall score of 70% or better.

The following scale will be used to determine your course grade:

A	Excellent	93-100%	3.5-4.0
B	Good	92-85%	3.0-3.4
C	Satisfactory	84-77%	2.0-2.9
D	Poor	76-70%	1.0-1.9
F	Failure	69 below	0.0
W	Withdrawn		0.0
I	Incomplete		0.0
Students should maintain a minimum of 70% or 2.0 GPA			

A student's cumulative grade-point average (GPA) is computed by dividing the total number of points earned by the total number of hours completed. A failing grade becomes part of the student's permanent record. Upon successful completion of the course, the previous grade is not computed in the student's GPA, but the prior grade remains on the transcript. (. (In the event of a repeated course)

Practical Nursing Grading Scale			
A	Excellent	93-100%	3.5-4.0
B	Good	92-85%	3.0-3.4
C	Satisfactory	84-80%	2.0-2.9
D	Poor	70-79%	1.0-1.9
F	Failure	69 below	0.0
W	Withdrawn		0.0
I	Incomplete		0.0
Students should maintain a minimum of 80% or 2.0 GPA (PN Students)			

Withdrawals

Students withdrawing from a class should consult with the class instructor and then the Director of Education. Students withdrawing from school should complete a withdrawal form. The school requests that a notice of cancellation or withdrawal be made in writing. The date of withdrawal shall be the last date of recorded attendance. If a student withdraws prior to completing 50% of the course, the student will receive a “W” for that course; however, if the student withdraws after completing 50% of the course, the student shall receive the letter grade earned for that particular course. Students who receive a “W” have not met the minimum objectives and must repeat the course in order to receive official credit. Students are required to obtain the signature the Director, Director of Education, Program Coordinator, and/or Financial Aid Representative in order to drop or add courses. Dropped courses will appear on your transcript and could impact academic standing.

Unofficial Withdrawals

If and/or when a student "unofficially" withdraws from school, the date of determination will be established as no later than 14 days after the last date of attendance.

Determining Withdrawal Date

If the student fails to attend classes prior to the end of the payment period or period of enrollment, a student's withdrawal date is:

For students who provide notification to the institution of his or her intent to withdraw, the withdrawal date is the date that notification is received by the institution in writing or orally.

For students who do not provide notification to the institution of his or her intent to withdraw, the withdrawal date is the date that the institution becomes aware that the student has failed to attend. The institution will determine the withdrawal date as follows:

- The last date of recorded attendance.
- Any earlier or later date that the institution documents as the last date of academically related activity by the student.
- Another date, as determined by the institution, related to an accident, illness, grievous personal loss, or other circumstances beyond the student's control that prevented the student from withdrawing officially.
- For a student who does not return from an approved leave of absence, the withdrawal date is the earlier of the date of the end of the leave of absence or the date the student provides official notification to the institution that he or she will not be returning to the institution.

Financial Implications of a Course Drop or Withdrawal

A student who drops a course or withdraws from all courses may be entitled to a refund or partial refund of tuition and fees.

A student who drops or withdraws from a course after the semester disbursement of financial aid may be subject to the cancellation of a portion or all of the financial aid the student received.

The student may be obligated to return financial aid overages disbursed to them and may be required to pay the tuition and fee charges that were previously covered by the student's aid award.

Academic Implications of a Course Drop or Withdrawal

Subpart A. A student who drops or withdraws from a class, or who has been administratively dropped or withdrawn from a class, is no longer eligible to participate in that class.

A dropped course is no longer considered enrolled credits, effective first day of the term. A withdrawn class is no longer considered enrolled credits, effective from the date of withdrawal.

Withdrawn credits are considered attempted but not earned for the calculation of percent completion when assessing satisfactory academic progress.

Dismissal from a Course

Students must maintain appropriate behavior, full attendance, and achieve at the top level of their ability to remain in a course. Upon recommendation of the Instructor, Director and/or Director of Education any student can be removed from a course for the remainder of a class period, or permanently removed if the joint judgment of the Director, Director of Education, and/or Instructor and merits this conclusion. If permanent removal is the resolution of the situation created by the student, the school Director must make the final ruling. Academics, behavior, attire, or attendance can singularly or in combination be the criteria used for class dismissal or removal from a course.

Refunds/Cancellations for Programs over 300 Clock Hours

Louisiana Board of Regents Refund Policy

Cancellation within three business days: If for any reason a student is unable to begin classes, all monies paid will be refunded if requested within three business days after signing an enrollment agreement and making an initial payment.

Cancellation after three-business days: Tuition or fees are collected in advance of entrance and if the student does not begin classes, the institution shall retain not more than \$100. Refunds for a student who does not begin classes shall be made within 30 days of the start of a quarter, term, or semester.

1. During the first week of classes, the institution shall refund at least 90% of tuition, less the registration fee, thereafter.
2. During the next three weeks of classes, the institution shall refund at least 75% of the tuition, less the registration fee, thereafter.
3. During the first 25% of the course, the institution shall refund at least 55% of the tuition, less the registration fee, thereafter.
4. During the second 25% of the course, the institution shall refund at least 30% of the tuition, less the registration fee, thereafter.

5. During the third and fourth 25% of the course, the institution shall retain 100% of the stated course price. Percentages of course completion are to be computed on the basis of clock hours. For programs, longer than one year (12 calendar months) in length, 100% of stated course price attributable to the period beyond the first year will be refunded when the student withdraws during the prior period.

If tuition and fees are collected in advance of the start date of a program and the institution cancels the class, 100% of the tuition and fees collected must be refunded. The refund shall be made within 30 days of the planned start date.

Refunds when due, shall be made within thirty (30) days (1) of the last day of attendance if written notification of withdrawal has been provided to the institution by the student, or (2) from the date the institution terminated the student or determines withdrawal by the student. Refunds when due are made with and without requiring request. All refunds shall be made within thirty (30) days of the student's last day of attendance.

Refunds/Cancellations for Programs under 300 Clock Hours

****Louisiana Board of Regents Refund Policy****

Cancellation within three business days: I understand that if for any reason, I am unable to enter; all monies paid will be refunded if requested within three business days after signing an enrollment agreement and making an initial payment.

Cancellation after three business days but before commencement of classes by the student: Tuition or fees collected in advance of entrance and if the student does not begin classes, not more than \$100.00 shall be retained by the institution. Refunds for a student who does not begin classes shall be made within 30 days of the start of a quarter, term, or semester.

1. After a student, has completed less than 15% of the course, the institution shall refund at least 80% of tuition, less the registration fee, thereafter.
2. After a student, has completed less than one fourth of the course, the institution shall refund at least 70% of the tuition, less the registration fee, thereafter.
3. After a student, has completed one fourth but less than one half of the course, the institution shall refund at least 45% of the tuition, less the registration fee, thereafter.
4. After a student, has completed one half or more of the course, the institution may retain 100% of the stated course price.

If tuition and fees are collected in advance of the start date of a program and the institution cancels the class, 100% of the tuition and fees collected must be refunded. The refund shall be made within 30 days of the planned start date.

Refunds when due, shall be made within thirty 30 days (1) of the last day of attendance if written notification of withdrawal has been provided to the institution by the student, or (2) from the date the institution terminated the student or determines withdrawal by the student. Refunds when due

are made with and without requiring request. All refunds shall be made within thirty (30) days of the student's last day of attendance.

COE-Refund Policy

Refunds when due are made with and without requiring request.

1. Refunds for Classes Canceled by the Institution

If tuition and fees are collected in advance of the start date of a program and the institution cancels the class, 100% of the tuition and fees collected must be refunded. The refund shall be made within 45 days of the planned start date.

2. Refunds for Students Who Withdraw on or Before the First Day of Class

If tuition and fees are collected in advance of the start date of classes and the student does not begin classes or withdraws on the first day of classes, no more than \$100 of the tuition and fees may be retained by the institution. Appropriate refunds for a student who does not begin classes shall be made within 45 days of the class start date.

3. Refunds for Students Enrolled Prior to Visiting the Institution

Students who have not visited the school facility prior to enrollment will have the opportunity to withdraw without penalty within three days following either attendance at a regularly scheduled orientation or following a tour of the facilities and inspection of the equipment.

4. Refunds for Students Enrolled in Professional Development, Continuing Education, or Limited Contract Instruction

Institutions engaging in programs which are short-term **must** have a written policy or contract statement regarding whether or not fees and instructional charges are refundable.

5. Refunds for Withdrawal After Class Commences

(a) Public Institutions

The refund policy for students attending public institutions shall be consistent with the policy established by the institution's governing board.

(b) Non-Public Institutions

(1) Refund Policy for Programs Obliging Students for Periods of 12 Months or Less

The refund policy for students attending non-public institutions who incur a financial obligation for a period of 12 months or less shall be as follows:

(i) During the first 10% of the period of financial obligation, the institution shall refund at least 90% of the tuition.

(ii) After the first 10% of the period of financial obligation and until the end of the first 25% of the period of obligation, the institution shall refund at least 50% of the tuition.

(iii) After the first 25% of the period of financial obligation and until the end of the first 50% of the period of obligation, the institution shall refund at least 25% of the tuition; and,

(iv) After the first 50% of the period of financial obligation, the institution may retain all of the tuition.

(2) Refund Policy for Programs Obligating Students for Periods Beyond Twelve Months

Institutions with programs longer than 12 months that financially obligate the student for any period of time beyond 12 months shall release the student of the obligation to pay beyond the 12 months if the student withdraws during the first 12 months. The calculation of the refund for the unused portion of the first 12 months shall be based on section (b)(1) Non-Public Institutions above. If the student withdraws during any subsequent period following the first 12 months, the student's refund for the unused portion of the tuition applicable to the period of withdrawal shall be based on section (b)(1) Non-Public Institutions above. Deviations from the requirements of this policy as stated above are permitted if (1) mandated by a nonpublic institution's licensing agency or a public institution's governing board and (2) accepted by the commission.

Degree Refund Policy

Students may request cancellation in any manner, but a written request is recommended. Your signature on the enrollment form indicates that you have read and understood the terms of this Agreement that you have read and understood any literature you have received from us and that you believe you have the ability to benefit from the course you have selected.

- Students who withdraw prior to the first day of classes are entitled to a full refund of tuition and fees
- Any administrative fees retained by the institution upon the early withdrawal of a student shall not exceed 15 percent of the total cost of tuition and fees paid by the student.

Institutions which financially obligate students on a quarter, semester, or similar basis will be subject to the following tuition and fee refund policy:

- students withdrawing during the first 10 days of classes shall receive a minimum refund of 75 percent of total tuition and fees paid, excluding any nonrefundable application fees, less the maximally allowable administrative fees retained by the institution.
- students withdrawing from day 11 through day 24 of classes shall receive a minimum refund of 50 percent of total tuition and fees paid, excluding any nonrefundable application fees, less the maximally allowable administrative fees retained by the institution.
- students withdrawing from day 25 through the end of the quarter, semester, or similar time period may be ineligible to receive a refund.

Institutions which financially obligate students for longer periods of time, i.e., periods exceeding six months, shall be subject to the following tuition and fee refund policy:

Students completing up to 25 percent of the course of study shall receive a minimum refund of 50 percent of total tuition and fees paid excluding any nonrefundable application fees, less the maximally allowable administrative fees retained by the institution.

- students completing more than 25 percent but less than 50 percent of the course of study shall receive a minimum refund of 25 percent of total tuition and fees paid, excluding any nonrefundable application fees, less the maximally allowable administrative fees retained by the institution.
- institutions are not allowed to keep the full amount of tuition and fee charges until at least half the program of study has been completed.
- refund policies for programs offering tuition/fee payments on an installment plan or programs offered through distance learning will be examined by the Board of Regents on an individual basis. Refund policies for installment programs are expected to conform generally to refund policies as per the Board of Regents of the State of Louisiana.

Refunds must be paid within 45 days of the date of withdrawal of the student from the institution.

The remaining tuition and refundable fees will be refunded based on the Term start date and the tuition percentage amounts below:

Degree Tuition Refund Chart

1 st Ten (10) days of class	75% Tuition and fees paid Refund, excluding any nonrefundable application fees, less the maximally allowable administrative fees retained
11 th -24 th day of classes Complete	50% Tuition and fees paid Refund, excluding any nonrefundable application fees, less the maximally allowable administrative fees retained
25 th day until the end of the term Complete	May be ineligible for a refund
50% complete of the program	No Refund

Course Progression Policy

Courses for the Infinity College Degree programs feature an 8-week course broken into 8 lessons/weeks. Students are required to complete each lesson in chronological order as well as attend live lectures if applicable. Information in each week or lesson builds as the course progresses. Therefore, in order for students to reach their full academic potential, students are required to complete each lesson in chronological order. For example, students should complete week or lesson 1 in full before beginning lesson 2 and then complete lesson 2 in full before beginning lesson 3. All Infinity College programs require at least one course activity per week and live course attendance if applicable.

Reinstatement/Re-Entry

A student who successfully appeals will be reinstated for one grading period, during which time, he or she will be on probation and subject to the same requirements as any other student on academic probation. The student is reminded that the graduation requirements still apply.

A student who has withdrawn from the school and desire's re-entry must sign a new enrollment agreement for the hours remaining to complete the program. Any tuition due to the school will be determined and payment must be arranged before re-entry. Students will be charged at the hourly

rate only for the hours that they need to complete the program. Students will be permitted to re-enter at the discretion of the School Director and after a review of their academic records.

After Voluntary Interruption: Any student who desires to be readmitted must submit an appeal in writing to the Director or Director of Education at least ten (10) business days prior to the time the student desires to re-enroll. All student records will be reviewed with the student to determine whether the student can be re-admitted into their program of study.

After Academic Dismissal: A student who has been dismissed for academic reasons and who desires to be readmitted must notify the Director and/or Director of Education, in writing, ten (10) business days prior to the time the student desires to re-enroll. All records established at the school shall be reviewed. No readmission will be considered after a third dismissal. There will be a \$50.00 readmission fee.

After Disciplinary Dismissal: A student who has been dismissed for disciplinary reasons and who desires to be readmitted must notify the Director and/or Director of Education, in writing, two weeks prior to the time the student desires to re-enroll. All records established at the school shall be reviewed. The accomplishments of the student while out of school shall be considered carefully. No readmission will be reconsidered after a second dismissal. There will be a \$50.00 readmission fee. *This policy may differ for Practical Nursing Students. Associate degree students must wait one full semester and re-apply to the program of study.

*Any student who withdraws and subsequently re-enters are subject to policies in effect at the time of re-entry

Program Transfer within location and from other Institutions

- In case a student wants to transfer into a different program, he must meet with his Director of Education and explain his reason for the request.
- The Director of Education sits with the student and identifies the student's concerns and refers the matter to the Director.
- The student then has to go through a second session of counseling with the Director who tries to make sure that the change of program is going to benefit the student.
- The Director contacts the accounting department and makes sure that all the financial obligations have been met by the student.
- The student must fill out and sign the "Transfer Request Form" for Program Transfer and submit to the Director of Education. Upon receipt of this form from the student, depending on the schedule availability the student is authorized for the new program of choice.
- The Director of Education makes sure that the student completes a new enrollment agreement. If the student has received the books for the previous program, the student must pay for the books of the original program.

- Any student entering one of the educational programs at Infinity College is not guaranteed to receive academic and financial credit for courses taken at other institutions upon receipt of an official transcript from the other accredited institution and approval of those courses by the Director. Students must follow the transfer policy to request transfer of credits. Due to the nature of Infinity College's curriculum, it is not guaranteed that transfer credits will be accepted from other institutions.
- Student must take at least 80% of their program at Infinity College and receive at least a 2.0 in the program. Requests for transfer of credits shall occur during the first week of attendance.
- Students must complete a transfer of credit form and submit official transcripts. The Director and/or Director of Education will evaluate all previous official transcripts and determine which courses, if any, will be accepted by the school. In addition, students must be in good standing at the previous school.
- However, if the prospective student had previously attended Infinity College and did not complete his/her program of interest, then the student will be given credit for all clock hours and class work earned while attending Infinity College.
- If at any time a student decides to change programs, the student must write a letter requesting to drop from the current program and transfer to another program and/or complete a change of program form. If the new program contains some of the same information as the previous program the student will be given credit for all clock hours and class work earned while attending Infinity College.
- Refunds will be calculated, if applicable, according to the refund policy as stated in the enrollment agreement and this catalog. All students requesting to transfer programs within Infinity College will be charged a fee of \$25.

Transfer Credit

Due to the nature of Infinity College's curriculum, it is not guaranteed that transfer credits will be accepted from other institutions. Student's wishing to transfer credits to Infinity College must submit an official transcript from the other institution and complete a transfer of credits request form for review by the Education department. Upon completion of the review, the student will receive a written response regarding the request. Students wishing to transfer credits earned at Infinity College to another institution should check with that institution to understand their transfer of credit policy and all requests must be made before the student begins class. Please note that it is not guaranteed that credit hours or clock hours earned at another institution will be accepted at Infinity College.

In addition, students must be in good standing at the previous school. However, if the prospective student had previously attended Infinity College and did not complete his/her course of interest,

then the student can be given credit for all clock hours and class work earned while attending Infinity College provided the courses were taken within one calendar year of withdrawal and the student was in good academic standing. If at any time a student decides to change programs, the student must complete a withdrawal form requesting to drop from the current program and transfer to another program and/or complete a change of program form. If the new program contains some of the same information as the previous program, such as CPR or Microsoft, the student will be given credit for all clock hours and class work earned in these courses while attending Infinity College. Refunds will be calculated, if applicable, according to the refund policy as stated in the enrollment agreement and this catalog.

When accepting credit from other sources, the institution must verify that the source of the credit accepted is accredited by an agency recognized by the U.S. Department of Education or whose acceptance is required by a state or federal approving agency.

Academic Honesty

All members of Infinity College are expected to be honorable and observe standards of conduct appropriate to a community of scholars. Students are expected to behave in an ethical manner. Individuals who disregard the core values of truth and honesty bring disrespect to themselves and the college. A college community that allows academic dishonesty will suffer harm to the reputation of students, faculty, and graduates. It is in the best interest of the entire college community to sanction any individual who chooses not to accept the principles of academic honesty by committing acts such as cheating, plagiarism, or misrepresentation. Students are expected to adhere to high standards of academic honesty. In classes where a faculty member has determined that a student is guilty of academic dishonesty, the faculty member shall make certain that there is a prompt, firm, and fair response by developing an anecdotal record of the incidence. The penalty for academic dishonesty can include a zero (0) grade for that paper, test, or assignment. A failing grade for the class can be assigned for flagrant academic dishonesty.

Plagiarism Statement

Plagiarism means using the exact words, opinions, or factual information from another person without giving that person credit. Writers give credit through accepted documentation styles, such as parenthetical citation, footnotes, or endnotes; a simple listing of books and articles is not sufficient. Plagiarism is the equivalent of intellectual robbery and cannot be tolerated in an academic setting. Student writers are often confused as to what should be cited. Some think that only direct quotations need to be credited. While direct quotations do need citations, so do paraphrases and summaries of opinions or factual information formerly unknown to the writers or which the writers did not discover themselves. Exceptions for this include factual information which can be obtained from a variety of sources, the writers' own insights or findings from their own field research, and what has been termed common knowledge. What constitutes common knowledge can sometimes be precarious; what is common knowledge for one audience may not be so for another. In such situations, it is helpful, to keep the reader in mind and to think of citations as being "reader friendly." In other words, writers provide a citation for any piece of information that they think their readers might want to investigate further. Not only is this attitude considerate of readers, but it will also almost certainly ensure that writers will never be guilty of plagiarism.

Honor Roll

Students can earn an Honor Roll status each month by maintaining a minimum 3.5 cumulative GPA. The grades for each month are compared with the grades from the previous month to determine if the student is eligible for Honor Roll. If a student earns the status of Honor Roll, the student's name will be displayed within the school.

Academic Probation Policy

Any student, who is absent more than 20% of the total number of instructional hours offered during the first half of the program, excluding approved leaves of absences, may be given a second chance by being placed on probation for one grading period.

A student who does not make satisfactory progress toward meeting graduation requirements will be placed on Academic Probation if his/her cumulative GPA falls below satisfactory progress (2.0). Student's progress will be evaluated daily, and a formal review will be granted to the student at the end of each month. Students may not be placed on academic probation more than three times or greater than two (2) consecutive times. If a student fails to meet the required satisfactory standards after the second time, the student will be suspended from their program of study and will be given the option to re-enter after thirty (30) days. In order to be eligible for re-entry, students must make their request in writing and the Director and/or Director of Education will determine if the student is eligible to re-enter and continue in their program of study and complete within the necessary timeframe.

Academic Suspension

A student who fails to maintain satisfactory progress while on Academic Probation (after two (2) consecutive times or three (3) times in the program) will be dismissed from school. If a student is suspended due to academics, all courses that are in progress will be assigned a "W" which means withdrawal. A student who has been readmitted after academic suspension may be dismissed if he/she fails to fulfill the conditions of readmission.

Leave of Absence

In some cases, a student may arrange to leave school temporarily, with the intention of returning at a later date. A student may obtain a Leave of Absence (LOA) form from the Education Department. The Director and/or Director of Education must approve all requests for LOA. Leave of absence will be granted based upon the student's individual situation. Maternity, surgery, severe illness, death in the family, and family emergencies are all just causes for leaves of absence. The Director and/or Director of Education counsel's students at the time written request is submitted and informs students that taking a Leave of Absence will extend the student's program length. The school will not charge the student for the leave time; however, the allowed time for a Leave of Absence cannot exceed one hundred eighty (180) days per year. The time on a leave of absence does not count into the 150% maximum timeframe a student has to complete the program. The year begins on the first date of student's granted leave, which is also the student's last date of school attendance. Weekends and holidays are included in the calculation of the leave period. If the student fails to return from the leave of absence as specified by the Education Department, the student will be dropped from school. The withdrawal determination date that the school will use

in calculating the withdrawal settlement will be the date the student was scheduled to return from the leave of absence. The student's charges will be based on the actual time in school excluding the leave time. If any refund is due, the refund will be given thirty (30) days after the withdrawal date.

Voter Registration

The school encourages its students to register to vote. The National Mail Voter Registration Form is available from the U.S. Election assistance commission (EAC) website.

U.S. citizens who are students and of voting age, can find information specific to their states of residence from: www.eac.gov/voterresources or call the Election Assistance Office at (866) 747-1471.

How Do I Register to Vote?

You may register to vote by completing and submitting the National Mail Voter Registration Form. This form may be used to report a name or address change to the voter registration office or to register with a political party. You may obtain this form in person from the following public facilities.

- State or local election offices
- The Department of Motor Vehicles
- Public Assistance Agencies
- State funded programs that serve people with disabilities
- Any public facility a state has designed as a voter registration agency (such as public libraries, public schools, city, or clerk's offices).

Am I eligible to Vote?

You must be 18 years of age and a U.S. citizen to be eligible to vote. States may have their own requirements, which are outlined in the "State Instructions" section of the National Mail Voter Registration Form.

Student Termination

The school reserves the right to terminate a student's enrollment for any one of the following reasons including but not limited to:

- 1) Nonpayment of tuition
- 2) Unsatisfactory academic progress
- 3) Unsatisfactory attendance-- including tardiness
- 4) Failure to submit course work as scheduled
- 5) Nonconformity with policies, regulations, or Code of Conduct.
- 6) Conduct damaging to any facility
- 7) Disruptive behavior or unprofessional conduct.
- 8) Plagiarism (cheating)
- 9) Violating drug-free workplace requirements.
- 10) Theft
- 11) Not abiding to policies and procedures

Appeal Process

A student whose training is interrupted by the school for unsatisfactory progress may file a written appeal for reinstatement with the Director. The written appeal process must be initiated by the student and be received by a school official within three (3) business days of the termination. All appeals received within these guidelines will be acted upon within ten (10) business school days of receipt by the school. For these purposes, a business school day is considered a weekday when the school is in session.

The Director may waive interim satisfactory academic progress standards provided the student can demonstrate that mitigating circumstances had an adverse impact on the student's progress.

**Absolutely no waivers will be provided for graduation requirements.*

Transcripts

Students requesting an additional copy of the transcript or graduation certificate must do so in writing. The second copy of the transcript or graduation certificate can be sent for a fee of \$10.00. Please send a self-addressed, stamped envelope with the request for a transcript. The school reserves the right to withhold a transcript if the student's financial account is in arrears.

Exams

External Industry Exam/Certification fees are not considered to be a part of the tuition fee unless explicitly mentioned. There will be an administrative fee charge per individual for all external certification exams that the student wishes to take at Infinity College. Students enrolled in programs at Infinity College certification exam fees are not included in the cost of tuition. (Effective, January 1, 2014) Students are responsible to register themselves for the exam.

Student Organizations

Infinity College recognizes student organizations that respond to a broad variety of interests, providing learning opportunities in the areas of scholarship, recreation, leadership, and service. Infinity College has a charter with the National Technical Honor Society (NTHS) in which students will be able to be a part of a national organization that honors the student in regards of academics and workforce employment. *Individual student organizations are available based on the study program of study.

STUDY SKILLS AND TECHNIQUES

Introduction

Good study skills and strategies help facilitate successful completion of courses. Research suggests that there is no right or wrong way to study. What follows are some useful study tips. Use those that work best for you.

Motivation

1. **Take Some Small Steps toward Your Goal Now!** Get a sense of satisfaction from achieving small goals each day. Break a study task into small pieces.
2. **Be an Optimist.** Fill your mind with positive thoughts and outcomes. If you falter in your studies, do not listen to the self-defeating voice inside you. A failure is just another opportunity to succeed.
3. **Be a One-Minute Course Manager.** Take at least one minute each day and write down what you must do in your course to achieve your goal. Chart a course. The time you spend in mapping out a study strategy will enable you to move more quickly.
4. **Pay Attention to Your Thoughts.** Thought always precedes an action. When we limit our thinking, we limit our motivation to act. Use positive thoughts to put your goals into action. Everyday list some of your most creative and exciting thoughts. From time to time during the day pause and think about your goal, picture it, and talk about it in your mind.
5. **Analyze Your Study Plan.** Is there a way it could be better organized? Is it organized to utilize your dominant learning techniques? Does your study place foster creativity and sharpen your focus?
5. **Read Aloud for Your Next Reading Assignment.** Chances are you will retain more for a longer period of time when you read aloud. Put key information from your reading on a tape recorder or MP3 player. This will enable you to study while you drive, exercise, etc.

Time/Self-Management

1. **Set up a Time Management System that Works for You.** If you learn best in the morning, read and study before work. When your things-to-study list gets boring try recreation. Use planners and time organizers that are colorful and imaginative. Make a time/study plan and follow it. Have a study area where you can concentrate. Establish a study priority list for the day and week. Keep your stacks of work/study material out in your study area.
2. **Make Use of Integrating Time.** The strategy is combining different tasks at the same time, so all are accomplished. As you look at a number of daily or weekly tasks, ask yourself whether you could accomplish two or more at the same time.

3. Make Use of Several Study/Time Management Techniques. Divide a big assignment into small pieces that can be done one at a time. Start with an easy and enjoyable part of your study task. Have a study area where you can concentrate. Examine your procrastination patterns and break them. Make a commitment to someone about your study plan for the week. Get a tutor if you need extended assistance.

Reading Textbook Assignments

The reader of a college textbook must decide what is important to learn and read with the goal to understand and comprehend information for long-term recall.

One of the keys to successful reading is concentration; accordingly, you should find a quiet place to study that is free of distractions. There are several reading models around to put into practice.

One such model is “**The Action Reading Plan**” consisting of three steps: **Get an overview, read actively, and Recall the Material.**

Get an Overview

Why? Getting the big picture regarding a topic, chapter, or section will better enable you to comprehend and retain the details you will read later. Most of us learn details better when we can relate them to a meaningful whole. How? Quickly skim over your textbook to gain a sense of how it is organized and what it concerns. You should review the author’s background, index, table of contents, preface, glossary, headings, sub-headings, and summaries. Skim through the sections or chapters before reading them in detail.

Try to answer these questions:

1. How is the text organized?
2. What is the general thrust of each chapter?
3. What do I already know about the subject matter?

Read Actively

Why? This process will involve you in the material, facilitate comprehension, and increase your retention. How? The following suggestions will assist you in this process.

1. Pre-plan how much you intend to read at one sitting.
2. Work on sections of the chapter rather than trying to read the whole chapter non-stop.
3. Ask questions before each section or paragraph. Comprehension and retention improve when you read for a purpose. A suggested question is: What in the paragraph, section, or chapter do I need to know? Questions you formulate may later appear on exams.
4. Actively read a paragraph or one short section at a time. Read with a pencil or marker underlining key (but only key) concepts, ideas, or words. After you finish a full paragraph or a headed section, jot in the margin, cues, and small notes you find helpful.

Recall the Material

Research on retention of acquired knowledge indicates that immediate recall and practice is important. How?

1. After you have read a paragraph or section, answer your questions in a summary, using your own words. If you have difficulty with this step you may want to review the paragraph or section again.
2. Look at marginal or mapped notes you have made which serve as cues and try to recall the material they represent.
3. After you have read several paragraphs or sections, try to tie main ideas, concepts, and facts together into a whole that is meaningful to you.
4. Link the main ideas to something you already know.

Organization and Preparation for Writing

Writing papers can be an enjoyable experience when you take the time to plan and organize. The key is to have a format or —blueprint for your paper design. For example, if you intend to prepare a paper on how technology has changed marketing strategies, the following suggestions will assist you in this process.

1. List several focus ideas you have for the paper you intend to write and rank them in logical sequence.
2. After you have decided on the direction your paper will take, begin to collect the data and documentation, and sources from which you will draw in preparing your paper.
3. Jot down thoughts regarding your course of study during the week at various times.
4. Begin —free writing; just write as it comes. Refrain from judging what you ‘re writing or from trying to choose correct words. You can edit later. Use clustering as —free writing. Put your subject in the center of a piece of paper and write as rapidly as possible all the thoughts that —pop into your brain.
5. From the —free writing form a rough thesis sentence—what the paper is about.
6. From this sentence make an outline and begin writing by filling in your outline.
7. Try this form to structure your outline:

Introduction- your opening statement or quotation, questions you will attempt to answer and terms you may need to define if it is to be a technical paper.

Body - The first aspect you choose to introduce is based on what you are trying to emphasize. The second aspect should flow from the first aspect. The third, fourth, and other aspects are tied into each other and continue to make the body of the paper.

Conclusion- this section of the paper summarizes your findings and answers the questions you presented in the introduction.

8. Hints to keep you on track with your paper.

- ☐ Maintain an idea folder for the introduction, body, and conclusion section. As ideas occur, write yourself a note and put it in your folder.
- ☐ Divide the paper into sections and start writing the one you can do now. No need to start with the introduction first.
- ☐ If you are working on one section and ideas about another one occurs, simply write some notes, and insert them in the proper section.
- ☐ Do take breaks while writing; particularly if you start thinking self-defeating thoughts such as, —I ‘m sick of writing this paper. | Leave it for a while and do something that you enjoy.
- ☐ Work on small parts of the paper you can do now rather than trying to tackle the whole project.

Memory Improvement

Improving your memory requires knowledge of various techniques. Select from these methods appearing below, those that work best for you and practice. Just because you have read and understood your textbook assignment does not mean you have retained this material. Most of what you have read in the last 10 minutes is in your short-term memory. More than likely, you will not be able to recall this material tomorrow unless you use methods to move it to the long-term memory. Review the following long-term memory techniques.

1. **Get the “Big Picture” of a subject area before you attempt to learn the specifics.** Skim your whole textbook, section, and/or chapter before you read page by page. The concept is that we remember better when we can relate the parts to the whole.
2. **Space you are learning over a period of time.** Try to take large and small breaks between study times. For example, you are likely to be more successful in retaining material in three two-hour sessions than one six-hour session. Even in the two-hour session you should pause occasionally and reflect on something other than what you are reading.
3. **Create meaningful associations.** When you have to remember a number of details, group them together in a common association that has meaning to you. For example, you may want to create a chart that groups common terms and definitions by color. You could make a form of diagram that groups common theories or concepts.
4. **Practice the principle of recitation.** Simply recite aloud to yourself the key ideas you have just read from your textbooks or notes. For many people, this is the best memory technique of all.
5. **Visualize relationships.** Create a picture of the information you are trying to learn. Draw the main topic in the center of the page. Arrange subtopics about the main topic around the center. Use words, numbers, symbols, and colors and pictures to organize your information.
6. **Use mnemonic methods for aiding memory.** Mnemonics techniques require that the items to be remembered being organized in personally meaningful and concrete ways. For example, the acronym MASH is encoded as Mobile Army Surgical Hospital.

Exam Preparation

Following are additional methods associated with increased success on tests.

1. **Plan an overall study strategy for the exam.** Survey what you need to know for the exam. How do your notes, the text, or any assignments relate? Decide how much of the material you already know and what you do not know. Write down any information that you need to know. Review flashcards, outlines, and any summaries you have made during the term.
2. **Know what was emphasized and what you are expected to know.** Review your course study guide and text.
3. **Study and Review actively.** Read actively by reviewing chapter sub-headings and topic sentences recalling the important points. Recite them, write them, say them, hear them, and picture them.
4. **Read the test questions and directions very carefully.** Be alert to read the questions as they are, not as you would like them to be. Make sure you understand the kinds of answers expected.
5. **Answer easy questions first.** Working on questions that you are prepared to answer is one method to reduce test anxiety.
6. **Be aware that in objective and multiple-choice tests the question may have a best answer and not necessarily a correct answer.** If this is the case, work toward selecting the best answer from those available.
7. **Pay particular attention to the wording of questions.** Watch for qualifiers such as all, most, some, great, much, little, and no. The test maker is interested in knowing when and under what circumstances something is or is not true. Examine all questions containing negative wording such as *not* or the prefix *un*. Read these questions very carefully to assure full understanding.
8. **Handling excessive test anxiety.** Some amount of test anxiety is beneficial. It can facilitate test performance by increasing alertness and motivation. However, excessive anxiety can result in poor concentration, carelessness, and poor test performance. If you find the prospect of sitting for your exam particularly unsettling, follow these suggestions:

Avoid stressful situations just before exams.

Think calm and relaxing thoughts about yourself and talk to friends who make you feel good about yourself.

Arrive at your exam room only a few minutes early, and review what you know about the subject.

REGULATIONS

General and Textbook Information

- Textbooks are distributed in the class.
- Textbooks that are accepted and received by the student become the property of the student.
- Syllabus, course schedules and lesson plans are distributed in the class.
- Tests are given in class and are graded by the instructor.
- Additional certification examinations may be scheduled in front office.

The HEOA is a federal mandate that, inter alia, requires institutions of higher education to display textbook information at the time enrollment opens. The Act specifies that the institution display the textbook title, price, and ISBN identifier. This means that in the new academic year, textbook information must be available to students prior to the start of class.

Infinity College accepts textbook information from faculty or administrative staff via the web, fax, email, campus mail, or walk-in. Regardless, the institution/bookstore will continue to accept textbook information until classes open in any term.

In order to comply with the HEOA, each textbook must be accompanied by price and ISBN identifier. *Please see the textbook list for your program of study via the course syllabi or textbook listing.

Orientation

An orientation class will be given to all new students. The purpose of the orientation is to acquaint the student with the goals of the school, the rules, and regulations, along with the objectives of their course of study. Orientation is designed to enable the student to make an easy adjustment to the school environment and to acquaint the student with Infinity College. All students will be given a school catalog in which job-related health, safety and fire prevention are discussed. Questions related to individual financing options are discussed in private with the financial aid officer.

Identification Badges

Students will be required to purchase an identification badge for a fee of \$10. Students are expected to wear the badge at all times while on the Infinity College campus. Identification badges must be unaltered and free of any other material, i.e., pin, stickers, etc. If badge is damaged, lost, stolen or student changes course of study or name, the student will be required to purchase a new identification badge for an additional fee of \$10.

Procedure to secure a replacement badge:

- Proceed to the Director to pay the \$10.00 identification badge fee. Receipt will be provided to certify payment.
- Proceed to the Receptionist with a copy of paid receipt and a new identification badge will be issued.

Any student who does not choose to comply with the above-mentioned policy will be subject to Infinity College disciplinary procedures.

Quick Schools / Moodle / Proctored Exams

Students can check their progress such as grades, attendance, view report cards, tuition balances, blog with students and faculty and view transcripts by logging into <https://infinitycollege.quickschools.com>. In order to set up a User ID and Password, students must submit a valid email address to Infinity College. Once the student enrolls and submits a valid email address, the student will receive an invitation to log into Quick schools and/or Moodle SIS LMS and set up a password to begin using system. *Moodle is used to access class

materials. Proctored exams are administered using Proctorio or similar monitored testing services.

Proctored Exam Policy

Proctored Exams are designed to test a student's overall knowledge of the program's learning outcomes and objectives. Infinity College faculty and administrators schedule the proctored exams for each course. The student must have a computer with Windows 8 or newer, Chromebook, or Mac OS to successfully complete the online proctoring.

Technical Competencies, Information Technology and Equipment

Students will use basic laboratory equipment in the classroom and utilize the equipment provided as approved by clinical site personnel. Students should have basic computer skills, the ability to read and write in the English language. Technical Competencies may be administered within your program of study via the Internet through national certification testing agencies, practice test preparation which may be administered on a laptop, desktop, or tablet computer. Students may need basic calculators for some courses. Students are financially responsible for the tools they borrow and the equipment they work on. *Program specific equipment and/or supplies may be needed. Students should speak with their individual Instructor for specific details.

Infinity College has computers and Internet available for student use. Library resources are available for student use. Allied Health Laboratories contain examination areas and equipment reflecting relevant and current medical technologies. Students are financially responsible for the tools they borrow and the equipment they work on.

Establishing and Maintaining an Information Security Program

All customer information is safeguarded. This requirement applies to all nonpublic personal information in the school's possession (from students, parents, or other individuals with whom the school has a customer relationship). It also pertains to the customers of other financial institutions that have provided such information to the school.

The school establishes and maintains an information security program. This program must include the administrative, technical, or physical safeguards the school uses to access, collect, distribute, process, protect, store, use, transmit, dispose of, or otherwise handle customer information. The safeguards achieve the following objectives:

- Ensures the security and confidentiality of customer information
- Protects against any anticipated threats or hazards to the security or integrity of such information, and
- Protects against unauthorized access to or use of such information that could result in substantial harm or inconvenience to any customer

- Overseeing service providers. The school takes reasonable steps to select and retain service providers that are capable of maintaining appropriate safeguards for the customer information at issue and requires the service providers by contract to implement and maintain such safeguards.

Misrepresentation

Infinity College is prohibited under federal regulations from making any false, erroneous, or misleading statement directly or indirectly to a student, prospective student, member of the public, accrediting agency, state agency, or to the Department of Education. Misleading statement includes any statement that has the likelihood or tendency to deceive or confuse. A statement is any communication made in writing, visually, orally, or through other means. This includes student testimonials given under duress or because such testimonial was required to participate in a program.

Federal regulations further provide that substantial misrepresentation is any misrepresentation on which the person to whom it was made could reasonably be expected to rely, or has reasonably relied, to that person's detriment.

The regulations regarding misrepresentation describe misrepresentation with respect to:

- Nature of the education program
- Nature of financial charges
- Employability of graduates
- Relationship with the Department of Education

A Title IV eligible school may not describe its participation in a way that suggests approval or endorsement by the Department of Education of the quality of its educational programs. Any violation of this directive will be taken seriously, and the college will ensure that it is not repeated.

Availability of Employees for Information Dissemination Purposes

The institution is required to designate an employee or group of employees to assist enrolled or prospective students in obtaining all of the information specified below. If the institution has designated one person for an area of responsibility, that person shall be available, upon reasonable notice, to any enrolled or prospective student throughout the normal administrative working hours listed. If more than one person, often an entire office, is designated, the combined work schedules have been arranged so that at least one of them is available, upon reasonable notice, throughout the normal administrative working hours listed.

Dress Code

Infinity College has set forth the following guidelines concerning mandatory dress code and appearance. The guidelines seek to foster an environment, which promotes respect for authority, increased safety for students and staff and preparation for students into the workforce.

Because the public gains many of its impressions of our school from its contact with our students, it is important that the students contribute to the public image of nursing through proper appearance and personal grooming. Neatness and proper taste in one's dress and manner also contribute to the impression made on fellow classmates, peers, staff, etc. Professional personal appearance assures poise, self-confidence, and professionalism. The following policies have been established for both the clinical and classroom setting.

The Director and/or Director of Education will make the final decision as to the appropriateness of attire and appearance. Any student who violates the dress code will be subject to disciplinary action.

- All students enrolled in a medical program are required to wear an appropriate scrub suit.
- Students are required to wear nametags at ALL times.
- Students enrolled in non-medical programs are required to wear business casual attire.
- Jewelry is allowed; however, during clinical, students are only allowed to wear wedding bands and stud earrings.
- Students attending clinical should have their fingernails trimmed at all times.
- Students must wear the appropriate uniform and nametag when attending a field trip.
- All clothing must fit and be worn appropriately.
- Dress; personal appearance; and grooming must be clean and comply with appropriate health, safety, and sanitation standards. Daily personal hygiene in both classroom/clinical – includes daily bath, use of effective deodorant, clean, and cut fingernails, and good oral hygiene.
- Student's dress, personal appearance, and grooming must not materially disrupt or detract from the educational process or constitute a threat to the health or safety of the student or others.
- Hair must be clean, simply styled and off the collar while in uniform. Beards and mustaches must be neatly groomed. Barrettes, bows, clips, hairnets, feathers, tinsel, ribbons, and other

hair accessories or trends such as bright colored streaks are not allowed while in the clinical setting.

- Makeup must be conservative (colorless or pastel white/pink nail polish may be worn if in good repair; in certain clinical areas nail polish is not allowed (Obstetrics and Newborn Nursery).
 - Nails cannot extend beyond the tips of the fingers. In compliance with facility policy, no false nails, nail fill or nail jewelry will be allowed when providing “hands-on” patient care, administration of medications, preparation of food or preparation of products for patients or the laboratory setting.
 - When in the clinical and professional settings, body jewelry* shall be limited to a watch, wedding ring and/or an engagement ring (provided deemed safe) and one pair of tiny post earrings (ears only). In certain clinical areas, no jewelry is allowed (Obstetrics and Newborn Nursery) *All other body jewelry is prohibited.
 - Pins, promotional buttons, stethoscope decorative, etc., may not be worn while in clinical.

Prohibited

- Pants cannot be worn lower than the top of the hipbone.
- Baggy pants, (when undergarments are exposed) distressed jeans, biker pants and leggings are prohibited.
- See through, tight fitting, or that which exposes the mid-section which includes halter tops, tank tops, crop tops, sundresses, spaghetti straps, and mesh tops.
- Flip-flops, slippers, and beach shoes
- Hats, caps, wave caps, hoods, bandannas, and scarves
- Sunglasses
- Tattoos should not be visible
- Hair should be cleaned, and well-groomed and fingernails should not be long
- Facial hair should be neatly groomed
- Spiked choke collars, chains on pants, occult type jewelry, or anything distracting to the educational process is prohibited.
- Earrings are only allowed on ears. Body piercings should not be visible.
- Any article of clothing that displays alcohol or drug slogans, which symbolize anti-social group members.

Students should dress in a manner that would be acceptable in the job field for which they are training. Failure to comply with the guidelines for dress, appearance, or uniforms will result in disciplinary action.

Illness of students

If a student cannot attend class due to illness, the student shall contact the school immediately (if possible). However, if absences persist the student academics can be severely affected, and the student may have to withdraw from their program of study and re-enter at a later date.

In the event of an illness at school, students must report directly to the Director or Academic Supervisor on duty the nature of the illness. In turn, Infinity College will determine the most appropriate action to take in regard to treatment and contact the emergency contact listed if needed.

Incident Reports

If a student is involved in an incident while at school, the student shall report the incident immediately to management staff and the instructor so that a record can be made of the incident. Infinity College will then determine appropriate action to be taken. Failure to report the incident immediately results in no action taken by Infinity College. Infinity College has a health and safety plan that has a system for reporting and investigating accidents, is distributed to employees and is available to students and is evaluated with input from employees and students and is revised as needed.

Campus Security

Infinity College is committed to providing a safe and secure environment. All visitors must check in at the front desk before going anywhere on the grounds. Security on campus is handled by Student Services. The personnel of this department are empowered to enforce Infinity College regulations, to investigate incidents and to apprehend those who violate these regulations or commit crimes on campus. Criminal violators who are apprehended will be turned over to the local police precinct for arrest processing. When necessary, Infinity College will press charges against the criminal violators.

The school prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act (Clery Act). This report is prepared in cooperation with local law enforcement agencies. Nothing in the law shall be construed to permit a school to retaliate, intimidate, threaten, coerce, or otherwise discriminate against any individual with respect to the implementation of the Clery Act.

Our school attempts to provide students and employees with a safe and secure environment in which to study and work. The school is open during posted hours. School facilities are secured during times the school is not open. The school has no residence halls. Maintenance Staff have keys for the school, offices, and classrooms. Criminal background checks are done on them.

Personal Safety

While the school attempts to provide a safe and secure environment, students, faculty, staff, and campus visitors are ultimately responsible for their safety. Safety is enhanced when students and employees take precautions such as:

- Report all suspicious activity to Student Services immediately
- Never take personal safety for granted.
- Avoid walking alone at night. Travel with a friend or companion.
- Avoid parking or walking in secluded or dimly lit areas.
- Limit your alcohol consumption, and leave social functions that get too loud, too crowded, or that have too many people drinking excessively.
- Carry only small amounts of cash.
- Never leave valuables (wallets, purses, books, computers, etc.) unattended.

- Carry your keys with you at all times and do not lend them to anyone.
- Lock your car doors and close the windows when leaving your car.
- Never leave valuables in your car especially if they are easily noticeable.
- Inventory your personal property and make records of the serial numbers of all items of value.
- Never admit anyone without a valid ID badge on campus/school premises.

As the school becomes aware of relevant programs that address responsible practices and procedures that enhance personal safety, such information may be obtained on-campus with the Director of Compliance.

There are no campus housing facilities, so a missing student notification policy is not mandated.

Reporting a Crime

If a student or employee is aware that a crime has been, or is being, committed on school property or at a school sponsored or recognized event off-campus during the hours that the school is open, the crime should be reported as soon as possible to the Student Services' Office. The Student Service's Office is located on the second-floor academic office area. Other emergencies should also be reported to the Student Services Office. If the crime has been committed when the school is closed, it should be reported to the Student Services Office as soon as possible after school is open. In addition to reporting the crime to the Student Services Office, the crime should be reported to local law enforcement authorities. The local Police Department may be reached by dialing 911.

School Personnel have authority to determine whether individuals have lawful business at the school and may request identification to make that determination. In addition, they have the authority to ensure that school policies, such as break time and building access, are followed. The school works with local law enforcement agencies and refers criminal incidents to the local police department having jurisdiction over such matters.

The Campus Director will work with local law enforcement, as appropriate, when a crime is reported. Crimes reported to the Student Services 'Office are included in the annual campus crime statistics. In addition, the school requests from the local Police Department crime information not reported to the Student Services Office that is appropriate for inclusion in the annual campus crime statistics. Further, if circumstances warrant, the school community will be notified if an on-going threat is posed related to a reported crime.

If you are the victim of a crime and do not want to pursue action through the school or the criminal justice system, you may still consider making a confidential report. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. Reports filed in this manner are included in the annual crime statistics for the school.

The school does not tolerate violence or other threatening conduct against any members of the school community. This includes criminal acts against persons or property, as well as harassment

based on sex, race, ethnicity, or disability. The school will impose strict disciplinary actions and appropriately involve law enforcement officials should any acts of violence or threatening conduct occur on school facilities or at school- sponsored events. This includes acts of violence against women.

Pastoral counselors and professional counselors must inform persons they are counseling of the procedures to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics.

As part of Orientation, the school will provide a description of programs designed to inform students and employees about the prevention of crime.

The school has a zero-tolerance policy regarding alcohol on campus and will strictly enforce this policy. Anyone violating this policy will be removed from school properly and disciplinary action will be taken.

There is a separate drug policy which must be reviewed by the school each year and given to each student and each employee each year.

In addition to any criminal sanctions, the school will impose appropriate disciplinary sanctions if the offender is a student or employee of the school. The school Campus Director's Office should be contacted should one wish to file a complaint. Also, note that, in cases of sexual assault complaints:

both the accuser and the accused are entitled to the same opportunities to have others present during the disciplinary hearing and both the accuser and the accused shall be informed of the outcome of any disciplinary proceeding based on an allegation of sexual assault.

The school will work with the victim, should it be requested, in making such changes as can reasonably be accommodated relative to the student's academic and living situations.

Sexual Assault and Related Crimes

In the event of a sexual assault or domestic violence, please be aware of the following:

- * preserve any evidence of the assault (do not drink, bathe, change clothing, or comb hair, as this may destroy evidence that may be needed to prosecute the offender)
- * go to a place where it is safe from further attack and notify the police
- * obtain immediate medical attention
- * seek professional counseling

If requested by the student who is the victim of a sexual assault, the school will assist the student in notifying law enforcement. In addition, the school Campus Director's Office will provide information on off-campus agencies that provide services to victims of a sex offense.

The school encourages students and employees to take advantage of the materials and programs that promote awareness of rape, acquaintance rape, and other forcible and non-forcible sex offenses available through the school and/or local community agencies. Information about such materials and programs is available at the school.

Registered Sex Offenders

The Jacob Wetterling Act requires states to obtain information concerning registered sex offenders' enrollment or employment at institutions of higher education. Those seeking to obtain information about registered sex offenders should visit the following website: www.nsopr.gov. Further, to the extent the State notifies an educational institution of information concerning registered sex offenders, the Family Educational Rights and Privacy Act (FERPA) does not prevent educational institutions from disclosing such information.

Emergency Response and Evacuation Procedures

The school maintains an Emergency Response Operations Plan. The school may also test emergency response and evacuation procedures periodically through drills or exercises. Please contact the Campus Director's Office for more information. Please see separate handout.

Timely Warning & Emergency Notification Statement

Under the Clery Act (20 U.S.C. state § 1092) and its implementing regulations, the institution, through designated personnel, is responsible for issuing a "timely warning" if a crime has been reported and the institution determines there is a serious or continuing threat to the campus community. In addition, the institution is required to send an "emergency notification" if there is an immediate threat to the health or safety of students or employees occurring on campus.

The decision to issue a "timely warning" or an "emergency notification" will be decided on a case-by-case basis in compliance with the Clery Act and after consideration of available fact. The issuance of a timely warning may depend on the nature of the crime, the continuing danger to the campus community, and possible risk of compromising law enforcement efforts. Similarly, the issuance of an emergency notification depends upon the particular health or safety threat. The institution will, without delay, consider the safety of the community, determine the content of the notification, and initiate the emergency notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

If a "timely warning" or "emergency notification" is deemed necessary, it will be issued by the management staff, through any or all of the following notification methods: (1) e-mail system; (2) Emergency Alert, text-based messaging system; (3) Everbridge/reverse 911; (4) social media; and (5) Television/Radio. The warning, or a link to the warning, may also be posted on the institution home page, the Police Department home page, or other web resources, as well as local media sites. Please pay careful attention to both types of warnings as they are designed to provide information that will enable you to take action to protect yourself. In the event of an

emergency notification, a follow up message(s) will also be provided via the methods previously described to keep the campus community reasonably informed of the status of the event.

Disciplinary Proceedings

The school will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the school against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the school will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

The school does not have a campus police department or security office and therefore does not keep a daily crime log. However, the Campus Director keeps an updated list of any criminal activity.

The Handbook for Campus Safety and Security Reporting is available online from the Department of Education: This comprehensive publication was used in developing our policies. The Annual report is distributed to all students and employees each year and is available in the Student Services Office to be viewed at any time.

Computer and Electronic Communications Policy

Infinity College maintains a business telephone system, computer equipment, provides e-mail capability, facsimile equipment, and Internet access. These systems, as well as all equipment and supplies, are provided exclusively to assist employees in their jobs and students in their educational activities. The use of any of these systems for personal use is prohibited.

By using the school's computer equipment and communications devices, all employees and students knowingly and voluntarily consent to their use of these systems being monitored and acknowledge the school's right to conduct such monitoring. The media and equipment are intended to be used for business and educational purposes only, and any other use by student or employees may result in disciplinary action, up to and including termination.

Purpose

Infinity College endeavors to promote an environment for students, employees, and visitors that is conducive to personal development and self-improvement. Certain behavior can contradict these goals and is counterproductive to personal advancement. One such behavior is inappropriate use of Internet access.

Infinity College reserves the right to protect its computers from malicious and unsolicited network traffic by whatever means necessary within the law. To protect these computers from virus attacks and unauthorized access, and to promote a positive environment, Infinity College chooses to adopt a policy which restricts access of the Internet service available from the computers for personal use.

Acceptable Use

Infinity College Internet Use policy states that students and employees are only permitted to use the World Wide Web Internet access when approved to do so by management staff or the instructor for research purposes only.

Unacceptable Use

The following types of computer access and use of the Internet service are **STRICTLY PROHIBITED** in at **ALL TIMES**:

- Downloading or installing:
 - Video / Audio media
 - Pictures
 - Software Programs
 - Pornography Websites
 - All Social Media Sites (i.e., Facebook, twitter, Instagram)
- Downloading, viewing, or printing any form of obscene material
- Viewing and printing web pages unrelated to academic activity
- Sending or receiving personal web-based email
- Sending or receiving Instant Messages
- Participating in or observing chat room sessions
- Playing or observing online games
- Engaging in any form of illegal activity
- Engaging in any activity that is contrary to the Diversity in the Workplace Policy

Downloading, distributing, or sending pornographic or obscene materials are prohibited. This includes viewing or book-marking any such web sites or opening or forwarding such email or fax. Any communication by the employees or residents via email or fax that may constitute verbal abuse, slander, or defamation or may be considered offensive, harassing, vulgar, obscene, or threatening is prohibited. Offensive content included, but is not limited to, sexual comments or images, racial slurs, gender-specific comments, or any comments that would offend someone on the basis of his or her age, race, sex, color, religion, national origin, handicap, disability, or veteran's status. Any individual with a complaint should contact the Director.

Evaluation

To help enforce this policy, all computers will be monitored.

Infinity College takes issues relating to privacy very seriously, which is why all information relating to websites visited and downloaded activity that are recorded electronically, will be stored in an encrypted format, and will only be available to the following persons:

- Director and/or Director of Education

Anyone that is found to be in breach of, or with reasonable suspicion found to be in breach of the Internet Use Policy, may be considered to have put the security of the company at risk and appropriate disciplinary or legal action may then be applied.

Drug Policy and Program Information

The single most egregious problem a student can bring upon him or herself is that of the abuse of substances which alter the chemistry of the body whether they are prescription drugs taken in improper amounts or illegal drugs carried, sold, used, or in any manner supported as normal behavior. If you use, carry, or sell drugs while a student at Infinity College, you will be terminated

from the school and not be readmitted. Infinity College does not permit anyone to consume or possess alcohol in or on the campus which includes the parking lot.

The Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989

The Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989 require all federal grant recipients to certify a drug-free environment. Infinity College has a vital interest in maintaining a safe and healthy learning environment for the benefit of all its students and employees, and to ensure its successful operation as an educational institution. In compliance with the Drug-Free Workplace Act of 1988, and the Drug-Free Schools and Communities Act Amendments of 1989, Infinity College has established the following policy which reinforces the Institute's commitment toward promoting a drug-free learning environment. As a condition of receiving an education at Infinity College, each student is required by federal law to comply with the terms of the below mentioned statement.

IT IS THE POLICY OF INFINITY COLLEGE THAT THE UNLAWFUL MANUFACTURE, DISTRIBUTION, DISPENSION, POSSESSION, OR USE OF ILLICIT DRUGS AND ALCOHOL IS PROHIBITED ON THE CAMPUS PROPERTY AND AS PART OF ITS ACTIVITIES.

Each student/employee so engaged in the performance of any federal grant is required by federal law to comply with the terms of this statement. The Institute must be notified of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction. The Institute is required to notify the granting agency within ten (10) days after receiving notice of a conviction of a student/employee under any criminal drug statute. Any student or employee who is found to have violated the policy will be subject to sanctions by the Institute, which may include suspension, expulsion/termination, mandated participation in a drug abuse assistance or rehabilitation program, or referral for prosecution.

Infinity College acknowledges a legal obligation to conduct a biennial review of compliance with the Drug-Free Schools and Communities Act and authorized an administrative review to be conducted to determine if the schools fulfill the requirements of the Federal Regulations.

The following school offices will have representatives on the Biennial Review Committee: President's Office, Director of Education, Human Resources, and Counseling.

The Materials to be reviewed are:

- The Higher Education Amendments of 1998 (P.L. 105-244) and the Drug-Free Schools and Communities Act Amendments of 1989 (P.L. 101-226)

- Previous Biennial Review Reports
- Alcohol and other Drug Policy documents distributed to all faculty, students, and staff.
- State laws regarding drug and alcohol abuse.
- Summary of alcohol and other drug-free programming/events sponsored by the school.

This statement will be distributed annually. Every two (2) years the statement will be evaluated for its effectiveness. As part of this biennial review, schools must determine:

- The number of drug and alcohol-related violations and fatalities that occur on a school's campus, or as part of any of the school's activities and are reported to campus officials.
- The number and type of sanctions that are imposed by the school as a result of drug and alcohol-related violations and fatalities on the school's campus or as part of any of the school's activities.
- Determine the effectiveness of the policy and implement changes to the program, if needed.
- Ensure that the sanctions developed are enforced consistently.

**For Detailed information about the Drug Policy and Prevention, please view the policy in the Financial Aid, Education or Director's Office. You can also refer to the Drug and Substance Prevention Program Information.*

Smoking Policy

Smoking is prohibited inside and near Infinity College. (i.e., classrooms, laboratories, offices, lounges, restrooms, hallways, stairways, and common areas, meeting rooms) and in all areas where "No Smoking" signs are posted.

With the newly adopted Louisiana Smoke Free Air Act 815, persons choosing to smoke outside the Infinity College campus shall avoid all main entrance and exit areas to prevent subjecting others to secondhand smoke. Designated smoking areas have been established in an effort to reduce litter, address health problems, and alleviate physical reactions by those susceptible to second-hand smoke.

Additionally, any smoking shall occur at a reasonable distance outside any area where smoking is prohibited to ensure that the smoke does not enter a facility through entrances, windows, and ventilation systems or by any other means. Any student who does not choose to comply with the above-mentioned policy will be subject to Infinity College disciplinary procedures.

Vaccination Policy

Infinity College is aware that vaccination policy varies by State. In the State of Louisiana, a student must provide documentation to the school that all necessary shots and vaccinations are up to date.

In August 2003, the State of Louisiana passed a law requiring all students attending college to (1) receive the Meningitis vaccine, (2) provide prior proof of vaccination of (3) sign a waiver to decline the meningitis vaccine.

Voter Registration Policy

The school encourages its students to register to vote. The National Mail Voter Registration Form is available from the U.S. Election assistance commission (EAC) website.

U.S. citizens who are students and of voting age, can find information specific to their states of residence from: www.eac.gov/voterresources or call the Election Assistance Office at (866) 747-1471.

How Do I Register to Vote?

You may register to vote by completing and submitting the National Mail Voter Registration Form. This form may be used to report a name or address change to the voter registration office or to register with a political party. You may obtain this form in person from the following public facilities.

- State or local election offices
- The Department of Motor Vehicles
- Public Assistance Agencies
- State funded programs that serve people with disabilities
- Any public facility a state has designed as a voter registration agency (such as public libraries, public schools, city, or clerk's offices).

Am I eligible to Vote?

You must be 18 years of age and a U.S. citizen to be eligible to vote. States may have their own requirements, which are outlined in the "State Instructions" section of the National Mail Voter Registration Form.

Copyright Policy

Reproduction of Copyrighted Works

The making of an electronic or paper copy of a copyrighted work by any means (photocopying, electronic reproduction, scanning, digitizing, etc.) constitutes reproduction that is governed by copyright law. The copyright principles that apply to the use of copyrighted works in electronic environments are the same as those that apply to such use in paper environments.

The reproduction or copying of a work subject to copyright protection typically requires the permission of the copyright owner. However, the copyright law recognizes that in certain

situations, copyrighted work may be reproduced without the copyright owner's consent. One such situation is where the doctrine of "fair use" applies.

The following four factors must be considered for determining "fair use"

- The purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes.
- The nature of the copyrighted work
- The amount and substantiality of the portion used in relation to the copyrighted work
- The effect of the use upon the potential market for or value of the copyrighted work.

The school distributes materials informing the community about the appropriate use of copyrighted materials. This information is included in the student catalog, codes of conduct, in addition to e-mail and/or paper disclosures.

Any unauthorized distribution of copyrighted materials will be handled by the Dean of the school and a disciplinary hearing may be called.

The school presently has installed on its computer server "Watchdog Software", which monitors the traffic of computer usage. The software also restricts access to only those websites which are on a "safe list". In addition, it prohibits the users from downloading restricted information without the consent of the administrators in charge of the program.

The Academic committee reviews the effectiveness of the plan to combat the unauthorized distribution of copyrighted materials on an outcome basis. A check of a "before and after" comparison of bandwidth or relapsing into previous problem situations is a way to check on outcomes.

The institution provides an annual notice on a one-to-one basis through a direct notice to each enrolled student. Any student involved in a copyright situation will be referred to the Dean and the proper authorities.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws:

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion,

also assess costs and attorneys' fees. For details see title 17, United States Code, Sections 504 and 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

For more information, please see the Web site of the U.S. Copyright Office at www.copyright.gov, especially their FAQ's at www.copyright.gov/help/faq.

Consumer Information

Consumer information such as financial aid information, general information about the school, disability, price of attendance, refund policy, return of title IV funds, withdrawals, academic programs, instructional facilities, faculty, transfer credit, copyright infringement, school program approval accreditation and licensure, NCES, IPEDS, and Students right to know, drug and alcohol abuse prevention, vaccination policy, student diversity, voter registration, completion and graduation rates, and campus crime reports are found in one or more of the following areas: student catalog, school website, and other publications within the school.

Emergency Evacuation

I. Fire Alarm

- To activate a fire alarm box, pull down the handle.
- This is the preferred method because the alarm alerts others in the facility and alerts the local emergency response team.

II. Emergency Phone Number (911)

Give your name, location, and a description of the problem. Speak slowly and clearly. Wait to answer any questions or receive instructions the dispatcher may have. Stay on the line until the dispatcher hangs up.

III. Personnel with delayed evacuation permission

This policy is to evacuate immediately when an alarm is sounded. Infinity College does not have personnel who may delay evacuation.

IV. Responsibility for communicating emergencies

All staff has the responsibility of communicating the initial alarm.

V. Staff must account for all students

In the event, all residents are not accounted for, staff shall communicate this information to local authorities.

A. General Procedure in the Event of Fire

1. When an alarm sound:

- Do not stop for valuables or to get a coat.
- If possible, to complete safety as you leave:
 - Shut off electrical appliances.
 - Leave lights on

- Close doors and windows
 - If you lock your door, take your keys with you.
 - Alert others around you.
 - Assist any special needs people in evacuating.
 - When evacuating *WALK*, never run, and keep to the right of the hallways.
 - Leave the building, even if the alarm stops while you are on your way out.
 - Once outside, move away from the building to allow room for the firefighters and their equipment.
 - Look for others who work with you to insure everyone has evacuated.
 - Give any information about the fire or about persons who might still be in the building to the Fire Department and Police Department.
 - Do not re-enter the building for any reason until told to do so by the Fire Department or Police Department.

2. If you cannot leave because all exits are obstructed:

- Crawl or stay low to the floor where there is cleaner and cooler air.
- Get to a phone, dial 911 and let someone know where you are.
- Keep calm. A fire may be hot, noisy, and generally overwhelming, but your best weapon is a composed and logical approach.
- Assume there is a fire when the alarm sounds. Take it seriously.
- Do not call the Police Department or Fire Department to ascertain if there is a real fire.
- Do not use the elevator. Elevators may also act like giant pistons, pushing smoke and fire to other portions of the building. Use the nearest exit stairway or passageways to an adjacent building. (If applicable)
- Do not run if your clothes catch fire. Running will only fan the fire, causing it to intensify. Drop to the floor and roll back and forth to smother the flames. Call for help. Rescuers can smother the flames by quickly wrapping a blanket, coat, sheet, or rug over the victim.
- Leave the building. This includes lobby areas. Not doing so is considered interference with firefighting operations.

3. Other Considerations:

Horizontal evacuation generally means to move on the same floor to another section in the same building or an adjacent building instead of exiting vertically via the stairs or elevator. The advantage to horizontal evacuation is that one may remain inside, protected from the weather, and avoid descending over stairs. Hence, this method is of primary importance for people with disabilities. For horizontal evacuation to be effective, one must pass through smoke barriers and/or fire barriers. Usually this means smoke or fire doors or perhaps a fire wall. The terms fire doors and smoke doors are really synonymous except a fire door can withstand a fire and prevent its passage more effectively because of heavier construction materials and a heavier frame. Smoke doors and their frames are comparatively more lightly constructed and cannot withstand a rigorous fire for as long a period as a fire door. Both, however, will keep deadly smoke and fire confined long enough to make an escape or rescue possible provided they are kept closed. Doors blocked open with wedges, broken, or improperly working doors, a fire hose or other object holding the

door even a little is enough to render the designed safety effect of preventing the spread of smoke and fire useless.

It is important to note when evacuating horizontally that it is not enough merely to exit into an adjoining building. It is necessary to go beyond an operating fire or smoke barrier.

A. Evacuation of persons with disabilities

We will use horizontal evacuation whenever possible. Refer to floor plans for possible routes.

If horizontal evacuation is not possible, staff will assist disabled individuals to the nearest enclosed stairway that is free from smoke and tell the person to remain there until help arrives.

B. Evacuation in the event of a bomb threat

Evacuation procedures are the same as fire evacuation procedures except it is permissible to use elevators to evacuate. The elevators, however, should be reserved primarily for those who are disabled, elderly, pregnant, have heart or respiratory conditions, or other medical problems. Others should exit via the stairwells (if possible) to expedite evacuation. Please follow the directions of supervisory personnel during this situation.

NOTE:

The handling of explosives is a job strictly for professionals. Should you notice something you suspect may be a bomb because it is an unusual item in an area you are familiar with, do NOT touch it! Report it to the Police Department or Fire Department personnel. Be prepared to describe the item and its location.

C. Evacuation in the event of an explosion

In the event that an explosion occurs, use the Fire Evacuation Procedure.

Fire Safety

The regulation on Fire Safety relates only to schools that have living facilities on campus. Since Infinity College does not have dormitories, this regulation does not apply.

The institution will use their emergency response system to inform students of fires either on campus or in neighboring building. At first notice of a blaze, it should be reported to the nearest employee who will call the Fire Department immediately. A student may also use his/her cell phone to contact the Fire Department.

Reporting Criminal Activities and Emergencies

If any student or staff member is aware of a crime or suspicious behavior of a person or incident, or is a victim of a crime, that person must report the crime or incident immediately to management staff. The management staff will assess the nature of the incident to determine the best course of action and if necessary, will contact the local police.

If the incident is an emergency, one should call 911 immediately and then report the incident to management staff in order to assess the nature of the incident and the best course of action. In the event that the school determines that there is an ongoing threat, a campus wide warning will be issued. The warning will be issued to students and staff through announcement from management staff. All incidents will be documented by management staff and kept on file.

Crime Statistics

The institution prepares crime statistics under the guidelines established by 20 United States Code, section 1092(f), known as the “Jeanne Clery, Disclosure of Campus Security Policy and Campus Crime Statistics Act,” and the Code of Federal Regulations. The information represents a general description of Infinity College’s security/safety policies and programs, and the crime statistics for the most recent calendar year and the two preceding calendar years; however, the information is not intended to serve as a contractual agreement between the college and the recipient.

Infinity College enjoys good relations with its neighbors and maintains a highly visible Public Safety Department that provides for the safety of the campus community. However, no community can be totally risk free in today’s society. To lessen the chances of crimes occurring within the campus community, everyone’s cooperation and vigilance is needed. All members of the campus community are encouraged to immediately report all suspected crimes, unusual or suspicious activities, and emergencies to the Public Safety Department and management staff.

The importance of reporting all crime:

The importance of reporting crime, suspected crime and unusual or suspicious activity to the Public Safety Department or a security authority cannot be over emphasized. The reports provide a basis for making timely warnings when a crime may present a threat to other members of the campus community and also assist the college in providing a full disclosure in the annual crime statistics report. In addition, such action by a victim or witness will assist in making the campus environment a safer place for the entire community.

Voluntary confidential reporting:

Infinity College allows a victim or witness to report crime on a voluntary and confidential basis. The Public Safety Department accepts and investigates all reported incidents, whether or not a victim or witness provides a name or other identifying information.

Confidential reporting to a Counselor:

Infinity College does not have a policy or procedure that encourages professional counselors; if and when the counselor deems it appropriate, to inform the person being counseled of any procedures to report crime on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics. Generally, when counselors do not have the permission of the victim, they can only report the occurrence of a number/statistic to the law enforcement authority.

Daily Crime Log

Calls for service made to the Police Department which required a completed incident report, follow-up investigation, or other formal action are entered into our Department's Daily Crime Log. This log is available for public viewing in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act.)

Daily Crime Log case numbers do not run sequentially. The Police Department assigns a case number for all reportable activities, both criminal and non-criminal. Only case numbers generated for incidents requiring a full incident report, follow-up investigation, or other formal action are listed in the log.

Note: Incidents that involve information received from other campus Administrators defined by federal law as "campus security authorities." These administrators share with the police department non-identifying information provided by the victim. In these incidents, the victim did not file an official police report and therefore it is not always possible to provide information regarding the date reported, date or time the incident occurred, or location of the incident. Because an official report was not filed there will be no disposition. These incidents are reported to the police department for statistical purposes and are posted to the Daily Crime Log as the information is received by the Police Department.

According to Federal Law, an institution may withhold any of the required fields of entry (i.e., the classification, date, time, location and/or disposition) if any of the following conditions apply:

- The disclosure is prohibited by law
- The disclosure would jeopardize the confidentiality of the victim
- The disclosure would jeopardize an ongoing criminal investigation or the safety of an individual
- The disclosure would cause a suspect to flee or evade detection
- The disclosure would result in the destruction of evidence

Daily Crime Log Disposition Definitions

The following is an explanation of the terminology used to complete the Disposition section of the Daily Crime Log:

Open - This disposition designates a case that is under investigation or has otherwise not been closed or referred to another agency or Department.

Pending - This disposition designates a case that is pending court action or has been referred to another agency or court.

Closed - This disposition designates a case that is no longer under active investigation, has been adjudicated in court, has been referred to another agency, or has reached a point where there is no further action to be taken by the Department, including cases where no further leads are available, or the victim refused to cooperate.

Disciplinary Referral - This disposition designates a case that has been referred to another University Department for action under their own policies and procedures and the University Police Department is no longer the primary acting agency on the case.

Unfounded - This disposition designates a case wherein credible evidence has been discovered which demonstrates the report to be false or baseless. This designation requires positive demonstration of the falseness or lack of base for the report and is not to be utilized in cases where there simply is no evidence to support the crime.

Missing Person Notification

The purpose of this policy is to establish procedures for the University's response to reports of missing students, as required by the Higher Education Opportunity Act of 2008.

For purposes of this policy, a student may be considered to be a "missing person" if the person's absence is contrary to his/her usual pattern of behavior and unusual and/or unknown circumstances may have caused the absence. Such circumstances could include, but not be limited to, a report or suspicion that the missing person may be the victim of foul play, has expressed suicidal thoughts, is drug dependent, is in a life-threatening situation, has been with persons who may endanger the student's welfare, or fails to appear where expected for an extended period of time.

Persons Under Age 18

In the event a student who is not emancipated is determined to be missing, pursuant to the procedures set forth below, the institution is required to notify a custodial parent or guardian no more than 24 hours after the student is determined to be missing.

Infinity College does not have campus housing available at this time.

Student Right to Know Act

The Student Right-to-Know Act, passed by Congress in 1990, requires institutions eligible for Title IV funding, under the Higher Education Act of 1965, to calculate completion or graduation rates of certificate- or degree-seeking, full-time students entering that institution, and to disclose these rates to current and prospective students. Every institution that participates in any Title IV program and is attended by students receiving athletically related student aid is required to disclose graduation/completion rates of all students as well as students receiving athletically related student aid by race/ethnicity, gender and by sport, and the average completion or graduation rate for the four most recent years, to parents, coaches, and potential student athletes.

Infinity College does not have athletically related student aid and does not participate in athletic events. In addition, the institution does publish graduate's rates of our cohorts of full-time, first-time, degree-seeking undergraduates that show the graduation rates/completion status of students who enrolled for whom 150% of the normal time-to-completion through the required networks such as IPEDS and other mandatory reporting.

Method of Disclosure

Infinity College is committed to providing access to information that will allow students, parents, counselors, and other constituents to make informed decisions about postsecondary education. The webpage as well as hard copy has consumer information noted in the Higher Education Act of 1965 and amended by the Higher Education Opportunity Act of 2008 (HEOA).

Sexual Assault and Misconduct

Infinity College will not tolerate sexual assault or sexual misconduct in any form, including but not limited to rape, acquaintance, or date rape, and/or sexual harassment. In the event of a sexual assault or other criminal act on campus, the Director's office should be notified immediately.

VAWA _ Violence Against Women Act:

On March 7, 2013, President Obama signed the Violence Against Women Reauthorization Act of 2013 (VAWA), which amended the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) by adding a number of new reporting requirements and classifications of crimes. The law was effective March 7, 2014; however, implementation guidance was subject to NPRM and thus not available until October 2014.

If you are a victim of sexual assault at Infinity College, you should get to a place of safety and report the incident to appropriate management staff so that medical treatment can be obtained. All incidents must be reported in a timely manner, preferably the same day of the incident in order that evidence can be collected by local authorities and medical professionals. Filing a police report will ensure that the victim receives the necessary medical treatment and tests, provide the opportunity for the collection of evidence, and give the victim access to free confidential counseling from counselors trained in the area of sexual assault crisis intervention.

In addition to filing a police report, the victim may request the school to investigate in which the accused will be questioned as well as witnesses. Both parties will be notified of the outcome of the investigation. Any student found guilty of violating the school sexual assault policy could be criminally prosecuted in the courts and suspended and/or expelled from the school.

Sexual Harassment

According to section 703 of Title VII of the Civil Rights Act of 1964, it is illegal to sexually harass any employee. Sexual Harassment description is as follows:

Having conversations that demeans, insults, or implies sexual preference in the presence of that individual. To imply whether, explicitly or implicitly, that one employment is dependent upon favors. The above conduct will not be tolerated, and any infraction will be subject to suspension or dismissal from Infinity College. Any student who feels that he/she have been subjected to sexual harassment is instructed to report the incident to the Director, and/or Director of Education. In addition, victims of sex offenses are reminded of their right to report the matter directly to local law enforcement officials.

Anti-Harassment

Policy Statement – it is the policy of this company to maintain a working environment which encourages mutual respect, promotes respectful and congenial relationships between employees and is free from all forms of harassment of any employee or applicant, by anyone, including supervisors, co-workers, vendors, or customers. Harassment in any manner or form is strictly prohibited and will not be tolerated by the company. All reported or suspected occurrences of harassment will be promptly and thoroughly investigated. Where harassment is determined to have occurred, the company will immediately take appropriate disciplinary action. The company will not permit or condone any acts of

retaliation against anyone who files harassment complaints or cooperates in the investigation of it.

Definitions:

1. The term “harassment” includes but is not limited to unwelcome slurs, jokes, verbal, graphic or physical conduct relating to any individual’s race, religion, sex, age, national origin, or disability.
2. Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature where:
 - a) Submission to such conduct is an explicit or implicit term or condition of employment
 - b) Employment decisions are based on an employee’s submission to or rejection of such conduct; or
 - c) Such conduct interferes with an individual’s work performance or creates an intimidating, hostile or offensive working environment.
3. The term “harassment” may also include conduct of employees, supervisors, vendors and/or customers who engage in verbally or physically harassing behaviors, which has the potential for humiliating or embarrassing an employee or the company.

Examples of prohibited conduct

The management of the company considers the following conduct to represent some of the types of actions, which violate this harassment policy:

1. Physical assaults of a sexual nature
2. Unwanted sexual advances, propositions, or other sexual comments, i.e., sexual jokes, vulgar language
3. Sexual or discriminatory displays, photographs, or publications in any location in the workplace, i.e., any sexually suggestive pictures, cartoons, emails, or magazines.

A list of registered sex offenders in Louisiana is available from the Louisiana Department of Public Safety and Corrections at <http://www/lsp.org>.

Job Related Health & Safety

Job Related Health and Safety is reviewed with students during the orientation process and also in the classes. (i.e., OSHA regulations, HIPPA, Blood borne Pathogens, Fire Prevention and Exposure Control).

Certification Exams

Certification exams can be taken through the National Healthcare Association (NHA), National Career Competency Testing Center (NCCT) at Infinity College. Pharmacy Technician Certification exams are offered through PTCB. NCLEX-PN examinations can be taken at approved Prometric sites. However, there are other recognized organizations that may offer national certification exams. Certification exam fees are **not** included in the cost of your tuition.

GRADUATION INFORMATION

Diplomas show the official name of the diploma awarded. The school may contract a third-party vendor to print and package a diploma awarded to a student OR the diploma may be printed in house. Upon completion of your program of study, students should allow the school time to process the diploma and transcript; there students can expect to receive their diploma and transcript at least 30 days after they have completed all requirements of their program of study.

While your diploma is a wonderful way to display your accomplishment, it is not the only item provided by the school. Proof of graduation can be displayed via your diploma, and/or an official transcript. Your official transcript not only displays the courses you took, and grades earned at Infinity College, but it also contains the date of commencement and your program information, including your major. In addition, the school will report all required graduates to the National Student Clearinghouse approximately 2 weeks after diplomas are awarded.

Applying for Graduation

Graduation and officially receiving a degree are not automatic. Students must officially notify the Office of Student Services of their intentions to graduate by completing a graduation application form. Do not assume that graduation is an automatic outcome of you having completed the minimum requirements for a degree. The College will not take steps to graduate you until you officially apply for graduation and there are several particularly good reasons for this.

Graduation.

Diplomas are officially awarded after a student has completed their program of study. It is important not to confuse “graduation” with “commencement.” The College awards the diploma when the Education Department has determined that all requirements have been successfully completed at the end of the program and notes that fact on the official college transcript. Only then has the student graduated.

Commencement. All potential diploma candidates are eligible to participate in the Commencement ceremony in the Spring and/or Winter. While diplomas are awarded at the completion of a program of study, the College holds 1 or 2 Commencement ceremonies each year depending on the number participants. However, participation in the Commencement ceremony *does not necessarily constitute graduation*. Commencement is the public celebration of that accomplishment, but it is a ceremony, and not the actual graduation itself.

Students who are unable to finish their requirements at the initial projected completion date may be able to complete them during the following term and graduate with the next cohort and

participate in the following ceremony. A nominal commencement fee is charged to all students. This fee is mandatory and is not contingent on student participation in Commencement ceremonies.

Diplomas. The diploma is not the only source of legal proof that the student has completed a degree. As soon as final grades have been posted and a final review of the student's records has been completed to ensure that all requirements have been met, the Education Department will place that notation on the official transcript as the real proof of the completion of the diploma.

The diploma will not arrive at the address requested on the Application for Graduation until several weeks after the degree has been posted on the transcript. It is important to remember that a request for an address change on the College records *will not* affect the diploma address. **If the diploma address needs to be changed, the student must request it specifically.** To be awarded their diploma, students must be in good financial standing with the College. If a hold exists on their account, the diploma will be held until the hold has been cleared by the appropriate office. Once cleared, the student must notify the Education Department to release the diploma. The same is true for releasing transcripts. Official transcripts will not be released by the Office of Registration and Records until the student has cleared all holds on their account.

Confirming the Award of the Diploma. Students should check to make certain that their final transcript shows the notation of their diploma award and that their diploma arrives. Occasionally, students walk through the commencement ceremony and then, “forget” about requirements that are still not met. They discover years later that they have not actually been awarded the degree because they did not complete those remaining requirements.

Graduation Requirements

- Complete program requirements
- Maintain a minimum of a cumulative of 2.0 GPA (70%)
- Complete all externship requirements and submit appropriate paperwork to the school
- Fulfill all financial obligations (**All checks must clear the bank before receipt of diploma etc.**)
- Complete an exit interview
- Return all property that belongs to the school.

Graduation with Honors

Students who have successfully completed all course requirements and have a cumulative GPA of 3.5 or higher will be designated as Honors Graduates.

Criteria for Valedictorian Award

Grade point average will be calculated on graduates' actual grades earned (Not including extra points awarded). Highest grade point in each individual class will determine this award. In case of a tie concerning academic achievements, graduates will be given

consideration in regard to attendance, attitude, community service, and staff and faculty recommendations. The Director and Director of Education will make the decision.

Attendance Honors

An Attendance Award is presented to all students who have maintained perfect attendance during the program of study.

Prometric Testing

Effective, July 1, 2018, the Louisiana Department of Health and Hospitals as partnered with Prometric to deliver Nurse Aide Competency Evaluations (examinations) and to manage the reciprocity process in Louisiana. Prometric will be the single source vendor for the State of Louisiana, providing testing to individuals at locations strategically distributed throughout the state.

By partnering with Prometric to deliver Nurse Aide Competency exams, all nurse aide candidates in Louisiana are assured the availability of a standard and secure test, regardless of the training or competency evaluation location. This will also ensure that only qualified individuals receive their Nurse Aide certification, in an effort to promote the general safety and well-being in the community.

Prometric will manage all aspects of candidate testing and the reciprocity process, including application processing, test scheduling and event coordination, and results management. All written and oral exams will be delivered via computer, using an internet-based platform.

Prospective Clients

Looking for a thorough, compliant, flexible, and affordable nurse aide competency evaluation program for your state? Prometric offers comprehensive testing and Registry services to ensure that your CNAs are in compliance with all required federal and state-specific regulations.

We have been involved in nurse aide competency examinations since the inception of the federal requirements more than 25 years ago. Prometric currently provides CNA examination services in 12 states, administering more than 150,000 CNA examinations annually. Our service offerings provide for convenient exam administrations and are based on successful regional test site and in-facility testing models.

The testing and certification process we offer is conducted in accordance with OBRA requirements (OBRA-87, 89, P.L. 100-203; and Section 6901 [B] OBRA 89).

CNA Certification Exams - Widely recognized and accepted

- Prometric's CNA tests are based on a recently completed job analysis that focused specifically on the role of the nurse aide in long term care facilities. We utilized SMEs from around the country to analyze job task and knowledge data collected from practicing CNAs and RNs/LPNs who supervise CNAs in long-term care facilities. SMEs

always utilize the OBRA federal regulations as a primary reference in the development of nurse aide test items.

- Written and oral versions of the knowledge exams (available in English and Spanish) are delivered via computer in a multiple-choice format.
- Prometric's Clinical Skills exam is a performance-based exam in which the candidate is rated and scored on five areas while performing three psychomotor skills, with special emphasis on Hand Washing and Indirect Care (communication, resident rights, safety, comfort, and Standard Precautions). The Clinical Skills exams are administered by RNs with experience in long-term care.

Nurse Aide Registry Services

- Prometric's Nurse Aide Registry is used to maintain critical data about CNAs and their certification status. The "private" side of the Registry is used by Prometric and client staff to manage recertification and findings. The "public" side of the Registry provides information to facilities on the employability of each nurse aide in the registry based on the current status of their certification and whether the record is flagged for substantiated findings of resident abuse, neglect, or misappropriation of resident possessions.
- Prometric's Nurse Aide Registry system is Web-based and accessible via the Internet from any computer.

Fees incurred prior to enrolling	
Entrance Exam	\$20
Tabc	\$40
HESI	\$50

**Included for Title IV Tuition Students Note: Practical Nursing student's tuition and fees may differ from the above illustrated cost. Please see a Practical Nursing student catalog for specific program details.*

Clock Hour to Credit Hour Calculation

- The credit hour definition and the credit/clock hour conversion rules serve two purposes: to determine program eligibility and to determine the award amount for certain Federal Student Aid programs.
- A credit hour is defined as a unit of measure that gives value to the level of instruction, time requirements for a course taken at an educational institution, and the academic rigor. It can also be defined as a measure of a quantity of student learning.
- Since we offer an undergraduate clock hour educational program in credit hours that is considered a Gainful Employment (GE) program, we must use the following conversion formula
- The formula will determine, if after the conversion, the minimum number of credit hours to qualify as an eligible program for Federal Student Aid (FSA) purposes.

- For determining the number of credit hours in an educational program -a semester hour must include at least 37.5 clock hours of instruction
- To determine if the program meets the FSA standard for the minimum number of credit hours for that type of program, the following formula will be used:

$$\frac{\text{For a semester hour program,}}{\text{Number of clock hours in the credit-hour program (is divided by)}} \\ 37.5$$

This formula will be used to convert the credit hours to determine the amount of Federal Student Aid (FSA) a student is eligible to receive.

****Note: Infinity College measures its programs in terms of clock hours. Associate Degree programs are measured in credit hours.***

PROGRAMS OF STUDY

Diploma Programs

A diploma is awarded for successful completion of the following programs-excluding the Associate of Applied Science in Healthcare Management program.

	Clock Hours	Length of Completion	Length @ 150%	Schedule	Leads to Licensure or Certification upon Passing the State or National Exam
Medical Assistant	900	9 months-day 12.5 months-evening	13.5 months-day 18.75 months-evening	M-Th-8:30a-2:30p M, W, Th- 5:30p-9:30p	Certification
Phlebotomy and EKG Technician	600	6 months	9 months	M-Th-8:30a-2:30p	Certification
Pharmacy Technician Training	900	9 months-day 12.5 months-evening	9 months-day 18.75 months-evening	M-Th-8:30a-2:30p M, W, Th- 5:30p-9:30p	Certification
Medical Insurance Billing & Coding Specialist	900	9 months-day 12.5 months-evening	9 months-day 18.75 months-evening	M-Th-8:30a-2:30p	Certification
Nursing Assistant	80	2 weeks-day 4 weeks-evening	Not Title IV eligible	M-F-8a-5p / M-F 5p-9p *Clinical times may vary	Certification
Practical Nursing	1692	15 months	22.5 months	M-Th-8:30a-3:30p / 5:30p-10p *Clinical times may vary	Licensure
Associate of Applied Science in Healthcare Management	60 semester hours	24 months	36 months	Distance Education	Associate of Applied Science Degree
Certifications eligible to sit for Upon Successful Completion of the program. *Passing the certification and/or licensure examination is not guaranteed					
Medical Assistant		Certified Medical Assistant	Registered Medical Assistant	Phlebotomy and EKG Technician	EKG Technician
		Electronic Health Records	CPR	LA Medical Examiners	

Phlebotomy and EKG Technician		Phlebotomy and EKG Technician	EKG Technician	CPR	LA Medical Examiners

Associate of Applied Science in Healthcare Management-Distance Education		Customer Service Representative	Associates Degree	Health Office Manager	Medical Biller
		Medical Transcriptionist	Medical Coder	Dental Assistant/Technician	Health Data
		Informatics	Analyst	Entry-level manager	

Infinity College will notify individual students in circumstances where an offered program has been determined not to meet or where the institution has not made a determination as to whether the program meets the education requirements for licensure in a state where a prospective student was located as well as to students currently enrolled in a program that ceased to meet such requirements. For students currently enrolled, the institution will have 14 calendar days to directly disclose that they had decided that a program did not meet state licensure or certification requirements for the state on which the student is located. For prospective student's, the disclosure would be made prior to the student's enrollment in the program. The disclosures must be made directly to the student in writing, which may include through email or other electronic communication.

Medical Assistant Program Description

MA 101 Introduction to Medical Assisting and Health Professions

(20 Clock Hours Lecture/ 04 Clock Hours Lab)

This course teaches the student about the history of medicine and an introduction to the profession of Medical Assisting.

MT 103 Medical Terminology and Abbreviations

(44 Clock Hours Lecture/ 23 Clock Hours Lab)

This course is designed to acquaint the student with medical terminology. Students learn to construct words using medical roots, prefixes, and suffixes, as well as learn to pronounce and spell medical terminology.

AP 101 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course will identify the essential anatomical and physiological features of the body systems with an emphasis on the blood and cardiovascular, renal, digestive, and endocrine systems.

ME 101 Medical Ethics

(15 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches patient rights and responsibilities, ethical issues in patient care, and privacy standards governing healthcare practice.

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches written, verbal, and nonverbal communications.

MA 102 Therapeutic Approach

(14 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches therapeutic communication skills, coping skills for the medical assistant, and the therapeutic approach to the patient with a life-threatening illness.

MA 103 Responsible Medical Practice

(20 Clock Hours Lecture/04 Clock Hours Lab)

This course teaches legal and ethical considerations, HIPPA, and emergency procedures and first aid.

MA 104 Integrated Administrative Procedures

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches creating the family environment, the ambulatory care setting, telecommunications, patient scheduling, medical records management, written communications, and medical documents.

MA 105 Clinical Procedures

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches infection control and medical asepsis, the patient history and documentation, vital signs and measurements, and the physical examination.

MA 106 Examinations and Procedures

(25 Clock Hours Lecture/30 Clock Hours Lab)

This course teaches specialty procedures in obstetrics and gynecology, pediatrics, male reproductive system, gerontology, and examinations and procedures of body systems. This course teaches assisting with office/ambulatory surgery, rehabilitation and therapeutic modalities, nutrition in health and disease, basic pharmacology, calculation of medication dosage and medication administration.

MA 107 Laboratory Procedures

(25 Clock Hours Lecture/30 Clock Hours Lab)

This course teaches safety and regulatory guidelines in the medical laboratory, introduction to the medical laboratory, phlebotomy, venipuncture and capillary puncture, hematology, urinalysis, basic microbiology, and specialty laboratory tests.

MA 108 Office Management

(30 Clock Hours Lecture/15 Clock Hours Lab)

This course teaches the medical assistant as an office manager.

EHR 101 Electronic Health Records

(20 clock hours lecture/ 20 clock hours lab)

This course teaches the execution of workflows, retrieving and storing patient information, and administrative tasks.

EKG 101 Introduction to Electrophysiology

(15 clock hours lecture/20 clock hours lab)

This course teaches about electrophysiology, lead morphology and placement, aspects of the EKG, and calculating heart rate.

EKG 102 Concepts in Electrophysiology

(15 clock hours lecture/20 clock hours lab)

This course teaches about interpreting a rhythm strip, rhythms originating in the sinus node, atria, AV Junction, and ventricles.

EKG 103 Lead EKG and Interpretation

(08 clock hours lecture/08 clock hours lab)

This course teaches how to interpret a 12-Lead EKG, myocardial infarction, electrical therapy, and critical thinking skills.

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

Students will learn adult and child CPR.

NA 101 Communication and Interpersonal Skills

(03 Clock Hours Lecture/03 Clock Hours Lab)

This section teaches about the nursing assistant in long-term care, communication skills, and communication challenges.

NA 102 Infection Control

(02 Clock Hours Lecture/00 Clock Hours Lab)

This section teaches the immune and lymphatic systems.

NA 103 Safety and Emergency Procedures

(04 Clock Hours Lecture/03 Clock Hours Lab)

This section teaches cardiopulmonary resuscitation, safety and body mechanics, emergency care, first aid and disasters, position, moving and lifting.

NA 104 Resident's Rights and Promoting Resident's Rights

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches ethical and legal issues and the integumentary system.

NA 105 Mental Health and Social Service Needs

(02 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches diversity and human needs and development, the respiratory system, rehabilitation and restorative care, and end of life care.

NA 106 Basic Nursing Skills

(04 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches bed making and unit care, personal care, vital signs, nutrition, and fluid balance, and the circulatory or cardiovascular system.

NA 107 The Body Systems

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches the gastrointestinal system, urinary system, musculoskeletal system, nervous system, and endocrine system.

NA 108 Externship

(00Clock Hours Lecture/ 00Clock Hours Lab/ 40 clock hours clinical)

Students will perform clinical hours under the direct supervision of the program Coordinator.

CD 101 Career Development

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course introduces students to professional environments, job search and personal requirements for career success. Students will prepare resumes, learn interview, and job search techniques.

CR 101 Certification Review

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course assists students with preparation to take their national and/or state certification exam.

COS 102 Microsoft Word

(20 Clock Hours Lecture/25 Clock Hours Lab)

This course teaches how to create documents in Word, format and organize text, working with graphics, tabs, and tables, and applying special text, paragraph, and documents.

COS 103 Microsoft Excel

(20 clock hours lecture/25 clock hours lab)

This course teaches how to create workbooks with Excel, create charts, manage multiple worksheets, and uses Excel functions and tables.

MA 109 Externship

(00 Clock Hours Lecture/00 Clock Hours Lab/120 Clock Hours Clinical)

Students are placed in a medical facility where there is an opportunity to observe, assist, learn, and perform services in a medical setting. The externship is an essential component of the program where theoretical and practical skills are integrated. Specific objectives, including cognitive, affective, and psychomotor behaviors shall be met while completing this course.

Medical Assistant

Curriculum

Objective: To provide the student with information about various aspects of the medical assisting profession, both administrative and clinical. Graduates will be available to work in hospital and private practice medical settings.

Text: Delmar's Comprehensive Medical Assisting, Administrative and Clinical Competencies, by Wilburta Lindh, Marilyn Pooler, Carol Tamparo, and Barbara Dahl.

Text: Workbook for Delmar's Comprehensive Medical Assisting, Administrative and Clinical Competencies, by Wilburta Lindh, Marilyn Pooler, Carol Tamparo, and Barbara Dahl.

MA 101 Introduction to Medical Assisting and Health Professions

(20 Clock Hours Lecture/ 04 Clock Hours Lab)

Lesson 1: The Medical Assisting Profession

Lesson 2: Health Care Settings and the Health Care Team

Lesson 3: History of Medicine

MT 103 Medical Terminology and Abbreviations

(44 Clock Hours Lecture/ 23 Clock Hours Lab)

Lesson 1: Define and analyze medical terminology

Lesson 2: Identify word parts and combining form

Lesson 3: Read and interpret medical terminology

Lesson 4: Word Parts and Meanings

Lesson 5: Common Medical Terms, Abbreviations, and Symbol

AP 101 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

Lesson 1: Understanding basic structures of tissues and cells

Lesson 2: Organs which comprise the major body systems

Lesson 3: Functions of the organs which comprise the major body systems with an emphasis on the urinary system

Lesson 4: Understand the common disease processes related to major body systems and their related organs

ME 101 Medical Ethics

(15 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Ethics

Lesson 2: Governing Bodies

Lesson 3: Regulation at the State and Federal Level

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Communication process

Lesson 2: Verbal, written, and nonverbal communication

Lesson 3: Communication with others and methods of communication

Lesson 4: Types of customers and professionalism

Lesson 5: Barriers to communication and negative communication

Lesson 6: Defense mechanisms

Lesson 7: Dealing with conflict and eliminating barriers to communication

MA 102 Therapeutic Approach

(14 Clock Hours Lecture/ 10 Clock Hours Lab)

Lesson 1: Therapeutic Communication Skills

Lesson 2: Coping Skills for the Medical Assistant

Lesson 3: The Therapeutic to the Patient with a Life-Threatening Illness

MA 103 Responsible Medical Practice

(20 Clock Hours Lecture/ 04 Clock Hours Lab)

Lesson 1: Legal Considerations

Lesson 2: Ethical Considerations

Lesson 3: Emergency Procedures and First Aid

MA 104 Integrated Administrative Procedures

(20 Clock Hours Lecture/20 Clock Hours Lab)

Lesson 1: Creating the Facility Environment

Lesson 2: The Ambulatory Care Setting

Lesson 3: Telecommunication

Lesson 4: Patient Scheduling

Lesson 5: Medical Records Management

Lesson 6: Written Communications

Lesson 7: Medical Documents

MA 105 Clinical Procedures

(20 Clock Hours Lecture/ 20 Clock Hours Lab)

Lesson 1: Infection Control and Medical Asepsis

Lesson 2: The Patient History and Documentation

Lesson 3: Vital Signs and Measurements

Lesson 4: The Physical Examination

MA 106 Examinations and Procedures

(25 Clock Hours Lecture/ 30 Clock Hours Lab)

Lesson 1: Obstetrics and Gynecology

Lesson 2: Pediatrics

Lesson 3: Male Reproductive System

Lesson 4: Gerontology

Lesson 5: Examinations and Procedures of Body Systems

Lesson 6: Assisting with Office/Ambulatory Surgery

Lesson 7: Rehabilitation and Therapeutic Modalities

Lesson 8: Nutrition in Health and Disease

Lesson 9: Basic Pharmacology

Lesson 10: Calculation of Medication Dosage and Medication Administration

Lesson 11: Electrocardiography

MA 107 Laboratory Procedures

(25 Clock Hours Lecture/ 30 Clock Hours Lab)

Lesson 1: Safety and Regulatory Guidelines in the Medical Laboratory

Lesson 2: Introduction to the Medical Laboratory
Lesson 3: Phlebotomy: Venipuncture and Capillary Puncture
Lesson 4: Hematology
Lesson 5: Urinalysis
Lesson 6: Basic Microbiology
Lesson 7: Specialty Laboratory Tests

MA 108 Office Management

(30 Clock Hours Lecture/ 15 Clock Hours Lab)

Lesson 1: The Medical Assistant as Office Manager

Lesson 2: Daily Practice

EHR 101 Electronic Health Records

(20 clock hours lecture/20 clock hours lab)

Lesson 1: Execute EHR workflows

Lesson 2: Retrieve and store patient information

Lesson 3: Perform routine EHR administrative tasks

Lesson 4: Inventory and management of patient data

EKG 101 Introduction to Electrophysiology

(15 clock hours lecture/20 clock hours lab)

Chapter 2 Electrophysiology

Chapter 3 Lead Morphology and Placement

Chapter 5 Aspects of the EKG

Chapter 4 Calculating Heart Rate

EKG 102 Concepts in Electrophysiology

(15 clock hours lecture/20 clock hours lab)

Chapter 6 Interpreting a Rhythm Strip

Chapter 7 Rhythms Originating in the Sinus Node

Chapter 8 Rhythms Originating in the Atria

Chapter 9 Rhythms Originating in AV Junction

Chapter 10 Rhythms Originating in the Ventricles

Chapter 11 AV Blocks

Chapter 12 Rhythm Practice Strips

EKG 103 Lead EKG and Interpretation

(08 clock hours lecture/08 clock hours lab)

Chapter 13 How to Interpret a 12-Lead EKG

Chapter 14 Myocardial Infarction

Chapter 15 12-Lead EKG Practice

Chapter 16 Medications and Electrical Therapy

Chapter 17 Diagnostic Electrocardiography

Chapter 18 Critical Thinking Scenarios

Text: BLS for Healthcare Providers Student Manual

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

Part 1 General Concepts

Part 2 CPR for Adults

- Part 3 CPR for Children
- Part 4 Adult and Child Bag Mask Technique and Rescue Breathing
- Part 5 2-Rescuer CPR for Adults and Children
- Part 6 Automated External Defibrillator
- Part 7 CPR for Infants
- Part 8 Relief of Choking
- Part 9 Special Considerations
- Part 10 The Big Picture

Text: Successful Nursing Assistant Care, 3rd Edition by Diana L. Dugan, RN-Hartman Publishing, Inc.

NA 101 Communication and Interpersonal Skills

(03 Clock Hours Lecture/03 Clock Hours Lab)

Unit 1: The Nursing Assistant in Long –Term Care – Chapter 1

Unit 2: Communication Skills – Chapter 3

Unit 3: Communication Challenges – Chapter 4

NA 102 Infection Control

(02 Clock Hours Lecture/00 Clock Hours Lab)

Unit 1: Infection Control – Chapter 6

Unit 2: The Immune and Lymphatic Systems – Chapter 24

NA 103 Safety and Emergency Procedures

(04 Clock Hours Lecture/03 Clock Hours Lab)

Unit 1: Cardiopulmonary Resuscitation

Unit 2: Safety and Body Mechanics – Chapter 7

Unit 3: Emergency Care, First Aid and Disasters –Chapter8

Unit 4: Positioning, Moving and Lifting – Chapter 11

NA 104 Resident's Rights and Promoting Resident's Rights

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: Ethical and Legal Issues – Chapter 2

Unit 2: The Integumentary System – Chapter 18

NA 105 Mental Health and Social Service Needs

(02 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: Diversity and Human Needs and Development – Chapter 5

Unit 2: The Respiratory System – Chapter 20

Unit 3: Rehabilitation and Restorative Care – Chapter 25

Unit 4: End of Life Care – Chapter 27

NA 106 Basic Nursing Skills

(04 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: Bed making and Unit Care – Chapter 10

Unit 2: Personal Care – Chapter 12

Unit 3: Vital Signs – Chapter 13

Unit 4: Nutrition and Fluid Balance – Chapter 14

Unit 5: The Circulatory or Cardiovascular System-Chapter 19

NA 107 The Body Systems

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: The Gastrointestinal System – Chapter 15

Unit 2: The Urinary System – Chapter 16

Unit 3: The Musculoskeletal System – Chapter 21

Unit 4: The Nervous System – Chapter 22

Unit 5: The Endocrine System – Chapter 23

NA 108 Externship

(00Clock Hours Lecture/ 00Clock Hours Lab/ 40 clock hours clinical)

Students will perform clinical/externship hours under the direction of the program Coordinator.

CD 101 Career Development

(10 Clock Hours Lecture/ 10 Clock Hours Lab)

Lesson 1: Employment Strategies

CR 101 Certification Review

(10Clock Hours Lecture/10Clock Hours Lab)

Lesson 1: Reviewing materials to prepare to take the certification exam

COS 102 Microsoft Word

(20 clock hours lecture/25 clock hours lab)

Chapter 1 Create Documents with Word

Chapter 2 Format and Organize Text

Chapter 3 Work with Graphics, Tabs, and Tables

Chapter 4 Apply Special Text, Paragraph and Documents Formats

COS 103 Microsoft Excel

(20 clock hours lecture/25 clock hours lab)

Chapter 1 Create Workbooks with Excel

Chapter 2 Create Charts

Chapter 3 Manage Multiple Worksheets

Chapter 4 Use Excel Functions and Tables

MA 109 Externship

(00 Clock Hours Lecture/00 Clock Hours Lab/120 clinical hours)

Unit 1: Externship

Phlebotomy and EKG Technician Program Description

PT 101 Introduction to Phlebotomy

(05 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches the history of phlebotomy, the phlebotomist's role in health care, areas of the health care setting, ethical considerations, the patient care partnership, professional attitude, advance directives, standards used in the laboratory, and quality assurance in phlebotomy.

PT 102 Infection Control and Safety

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches infection control and isolation techniques, medical asepsis, hand washing, removing contaminated gloves, blood collection in an isolation room, occupational safety and health administration standards, disposal of used materials, importance of following safety guidelines, and the response to accidental biohazard exposure.

MT 101 Medical Terminology

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches the basic roots, prefixes, and suffixes involved in medical terms and the basic terms that help to define the anatomy and physiology in the human body.

PT 103 Vital Signs

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches temperature, pulse, and blood pressure.

AP 101 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches the introduction to the human body, body functions, body organization, and each of the systems of the body.

AP 102 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches about the circulatory system, anatomy and physiology of the circulatory system, and veins and arteries of the circulatory system. This course teaches the heart and circulation, blood vessels, and the composition of blood.

PT 104 Laboratory Tests

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches about the collection of non-blood specimens, blood smear, glucose testing, urine, and culture testing.

PT 105 Patient & Specimen Requirements

(20 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches communication in healthcare, patient and specimen identification, and the phlebotomist role in the process.

PT 106 Phlebotomy Equipment

(15 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches about the metric system, syringes, and needles, evacuated system, reuse of evacuated system holder, splattering of blood, evacuation collection tubes, butterfly collection system, coagulation, anticoagulants, tourniquets, micro collection equipment, collecting a unopette blood sample, order of draw and specimen collection trays.

PT 107 Phlebotomy Technique

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches about the blood collection technique, skills used in approaching the patient, patient identification, test request form, specimen labeling and identification, accession order, selecting the appropriate venipuncture site, performing a safe venipuncture, syringe versus evacuated tube specimen collection, venipuncture by syringe, venipuncture by evacuated tube method, butterfly needle collection system, the failed venipuncture, intravenous and indwelling lines, prioritizing specimen collection, and arterial punctures.

PT 108 Specimen Preparation and Handling

(16 Clock Hours Lecture/16 Clock Hours Lab)

This course teaches about the pre-analytical variables, specimen transport and handling, criteria for re-collection or rejection of a specimen.

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches written, verbal, and nonverbal communications.

ME 101 Ethics in Healthcare

(15 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches patient rights and responsibilities, ethical issues in patient care, and privacy standards governing healthcare practice.

CD 101 Career Development

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches professionalism and workplace conduct, resume writing, and interview techniques.

CR 101 Certification Exam Review

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course assists the student with preparation for the certification examination.

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

This course teaches CPR for adults, infants, and children.

EKG 101 Introduction to Electrophysiology

(15 clock hours lecture/20 clock hours lab)

This course teaches about electrophysiology, lead morphology and placement, aspects of the EKG, and calculating heart rate.

EKG 102 Concepts in Electrophysiology

(15 clock hours lecture/20 clock hours lab)

This course interpreting a rhythm strip, rhythms originating in the sinus node, atria, AV Junction, and ventricles.

EKG 103 Lead EKG and Interpretation

(08 clock hours lecture/08 clock hours lab)

This course teaches how to interpret a 12-Lead EKG, myocardial infarction, electrical therapy, and critical thinking skills.

PT 109 Internship/Externship

(00 Clock Hours Lecture/00Clock Hours Lab/52 clock hours clinical)

Students will perform clinical hours on the campus and at a clinical site under the direct supervision of the Program Instructor.

COS 102 Microsoft Word

(20 clock hours lecture/25 clock hours lab)

This course teaches how to create documents in Word, format and organize text, working with graphics, tabs, and tables, and applying special text, paragraph, and documents.

COS 106 Office Administrative Skills

(15 clock hours lecture/15 clock hours lab)

This course teaches the basic office skills such as telephone procedures, scheduling, filing, written and verbal communications, and organization skills.

Phlebotomy and EKG Technician Curriculum

Objective: To provide information on how to become a Phlebotomy and EKG Technician by using a unique emphasis on medical terminology that is specific to the phlebotomy profession. The program consists of an overview of anatomy and physiology and point-of-care testing that separate enhanced skills such as taking a patient's vital signs, temperature, pulse, respirations, and blood pressures from specialized testing such as hematocrits, hemoglobin's, blood pressure, coagulation studies, pregnancy testing and other point-of-care tests for more thorough coverage while emphasizing customer service. Students will be able to work as Phlebotomy and EKG Technicians in hospitals, laboratories, home health agencies and physicians' offices.

Text: Phlebotomy: A Competency-Based Approach by Kathryn A. Booth and Lillian Mundt, By McGraw Hill

PT 101 Introduction to Phlebotomy

(05 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Phlebotomy's Role in Health Care

Lesson 2: Standards used the medical lab

Lesson 3: Regulatory Agencies

Lesson 4: Quality Assurance in Phlebotomy

PT 102 Infection Control and Safety

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Infection Control and Isolation Techniques

Lesson 2: Patient and Personal Safety

Lesson 3: Blood Collection in an Isolation Room

Lesson 4: Occupational Safety and Health Administration Standards

Lesson 5: Disposal of Used Materials

Lesson 6: Importance of Following Safety Guidelines

MT 101 Medical Terminology

(20 Clock Hours Lecture/20 Clock Hours Lab)

Lesson 1: Define and analyze medical terminology

Lesson 2: Identify word parts and combining form

Lesson 3: Read and interpret medical terminology

PT 103 Vital Signs

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Temperature

Lesson 2: Pulse

Lesson 3: Blood Pressure

AP 101 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

Unit 1: The Human Body
Unit 2: Body Positions & Systems
Unit 3: Cell Structure & Tissues
Unit 4: Tissues
Unit 5: Integumentary System
Unit 6: Skeletal System
Unit 7: Muscular System
Unit 8: Nervous System
Unit 9: Respiratory System
Unit 10: Urinary System
Unit 11: Digestive System
Unit 12: Endocrine System
Unit 13: Reproductive System
Unit 14: Lymphatic System

AP 102 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

Unit 1: Circulatory System
Unit 2: Anatomy and Physiology of the Circulatory System
Unit 3: Veins and Arteries of the Circulatory System
Unit 4: Understanding the Cardiovascular System
Unit 5: The Heart and Circulation
Unit 6: Blood Vessels
Unit 7: Composition of Blood

PT 104 Laboratory Tests

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Collecting non-blood specimens
Lesson 2: Levels of laboratory testing
Lesson 3: Waived testing
Lesson 4: Making a Blood Smear
Lesson 5: Glucose Testing
Lesson 6: Urine and Culture Collection

PT 105 Patient & Specimen Requirements

(20 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Communication in Healthcare
Lesson 2: Patient Identification
Lesson 3: Specimen Identification
Lesson 4: Specimen requirements and the Phlebotomist's role

PT 106 Phlebotomy Equipment

(15 Clock Hours Lecture/05Clock Hours Lab)

Lesson 1: Common Equipment
Lesson 2: Venipuncture equipment
Lesson 3: Micro collection equipment

Lesson 4: Order of Draw

Lesson 5: Additives and Color-coding

PT 107 Phlebotomy Technique

(20 Clock Hours Lecture/20 Clock Hours Lab)

Lesson 1: Patient Identification

Lesson 2: Test Request Form

Lesson 3: Positioning the Patient

Lesson 4: Steps in Blood Collection Technique

Lesson 5: Skills Used in Approaching the Patient

Lesson 6: Venipunctures

Lesson 7: The Dermal/Capillary puncture

Lesson 8: Complication in phlebotomy

Lesson 9 Syringe versus Evacuated Tube Specimen Collection

Lesson 10: Butterfly Needle Collection

PT 108 Specimen Preparation and Handling

(16 Clock Hours Lecture/16 Clock Hours Lab)

Lesson 1: Specimen Preparation and Transportation

Lesson 2: Specimen handling

Lesson 3: Criteria for Re-Collection or Rejection of a Specimen

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Communication process

Lesson 2: Verbal, written, and nonverbal communication

Lesson 3: Communication with others and methods of communication

Lesson 4: Types of customers and professionalism

Lesson 5: Barriers to communication and negative communication

Lesson 6: Defense mechanisms

Lesson 7: Dealing with conflict and eliminating barriers to communication

ME 101 Ethics in Healthcare

(15 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Patients' rights and responsibilities

Lesson 2: Ethical and legal issues in patient care

Lesson 3: Privacy standards governing healthcare practice

CD 101 Career Development

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Continuing education requirements

Lesson 2: Professionalism and workplace conduct

Lesson 3: Interviewing techniques and resume writing

CR 101 Certification Exam Review

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Review for student certification examination

Text: BLS for Healthcare Providers Student Manual

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

- Part 1 General Concepts
- Part 2 CPR for Adults
- Part 3 CPR for Children
- Part 4 Adult and Child Bag Mask Technique and Rescue Breathing
- Part 5 2-Rescuer CPR for Adults and Children
- Part 6 Automated External Defibrillator
- Part 7 CPR for Infants
- Part 8 Relief of Choking
- Part 9 Special Considerations
- Part 10 The Big Picture

EKG 101 Introduction to Electrophysiology

(15 clock hours lecture/20 clock hours lab)

- Chapter 2 Electrophysiology
- Chapter 3 Lead Morphology and Placement
- Chapter 5 Aspects of the EKG
- Chapter 4 Calculating Heart Rate

EKG 102 Concepts in Electrophysiology

(15 clock hours lecture/20 clock hours lab)

- Chapter 6 Interpreting a Rhythm Strip
- Chapter 7 Rhythms Originating in the Sinus Node
- Chapter 8 Rhythms Originating in the Atria
- Chapter 9 Rhythms Originating in AV Junction
- Chapter 10 Rhythms Originating in the Ventricles
- Chapter 11 AV Blocks
- Chapter 12 Rhythm Practice Strips

EKG 103 Lead EKG and Interpretation

(08 clock hours lecture/08 clock hours lab)

- Chapter 13 How to Interpret a 12-Lead EKG
- Chapter 14 Myocardial Infarction
- Chapter 15 12-Lead EKG Practice
- Chapter 16 Medications and Electrical Therapy
- Chapter 17 Diagnostic Electrocardiography
- Chapter 18 Critical Thinking Scenarios

PT 109 Internship/Externship

(00 Clock Hours Lecture/00 Clock Hours Lab/52 clock hours clinical)

Students will perform clinical/internship hours on the campus under the direction of the program Instructor.

COS 102 Microsoft Word

(20 clock hours lecture/25 clock hours lab)

Chapter 1	Create Documents with Word
Chapter 2	Format and Organize Text
Chapter 3	Work with Graphics, Tabs, and Tables
Chapter 4	Apply Special Text, Paragraph and Documents Formats

Text: Professionalism: Real Skills for Workplace Success by Lydia Anderson and Sandra Bolt, published by Pearson

COS 106 Office Administrative Skills

(15 clock hours lecture/15 clock hours lab)

Lesson 1	Telephone Procedures and Scheduling
Lesson 2	Filing

Pharmacy Technician Training Program Description

PHT 201 Introduction to Pharmacy

(30 Clock Hours Lecture/00 Clock Hours Lab)

Students will be introduced to the practice of pharmacy, the history of pharmacy, pharmacy settings, ethics, patient care process, pharmacy technician requirements and opportunities for technicians.

ME 102 Medical Ethics for Pharmacy Technicians

(15 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches law and ethics in pharmacy, governing bodies, types of law and violations of the law, pharmacy law and regulation at the state and federal level, drug recall and standards, and the ethical foundation of pharmacy.

MT 104 Medical Terminology and Abbreviations for Pharmacy Technicians

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches word parts, rules for forming and spelling medical terms, abbreviations, drug names and apothecary symbols.

PHT 103 Drug Classification and Dosage Forms

(30 Clock Hours Lecture/10 Clock Hours Lab)

This course introduces the student to trade and generic drug names, dosage forms and routes of administration, pharmacologic classes, and systems of measurement.

PHT 104 Immunology and Microbiology

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches about infection, diseases of the various body systems, and about the various types of body systems.

PHT 105 Patient and Medication Safety

(20 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches occupational safety and health administration standards, regulations within the pharmacy, and universal precaution and employee responsibilities

PHT 106 Nutrition and Drug Interactions

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches pharmacokinetics and pharmacodynamics, mechanism and causes of drug interaction, patient variables that affect drug interaction, and reducing the risk of drug interaction.

PHT 204 Pharmacology

(30 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches drug names and sources, dosage forms of drugs, and principles of drug administration.

AP 104 Anatomy and Physiology

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches the integumentary, musculoskeletal, nervous, endocrine, cardiovascular, lymphatic, respiratory, urinary, and digestive systems

PHT 108 Mathematics and Calculations

(30 Clock Hours Lecture/30 Clock Hours Lab)

This course introduces the student to the basic math, algebra, and pharmaceutical calculations utilized in pharmacy practices.

PHT 110 Extemporaneous Prescription, Sterile and Non-Sterile Compounding

(30 Clock Hours Lecture/40 Clock Hours Lab)

This course teaches extemporaneous compounding, compounding of liquid, semisolid, and solid drugs as well as suppositories and parenteral products. This course also teaches parenteral preparations, types of asepsis, equipment and supplies, laminar airflow hoods, compounding of a parenteral and TPN product, preparing an IV Piggyback, large volume parenterals, preparation of IV admixtures, non-injecting products and compounding records, and policies and procedures for sterile product preparation. Students are introduced to medication and compliance, facilities and equipment, sterile and non-sterile compounding procedures, handling, packaging, storage, and disposal.

PHT 111 Pharmacy Billing and Receiving

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course introduces the student to the pharmacy reimbursement process by discussing healthcare plans, reimbursement systems, third-party payments, documentation, collections, and claims processing.

PHT 112 Inventory Control and Management

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches inventory control and management, ordering, receiving, stocking, expired stock, drug formulary, repackaging, and automated dispensing systems.

PHT 206 Pharmacy Management and Operations

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course introduces the pharmacy technician student to the operations of pharmacy. This course teaches organization of the hospital pharmacy, medication orders and medication of dispensing systems, sterile products, inventory control, automation, roles and duties of a pharmacy technician, and the policies and procedures manual and regulatory agencies. The course also teaches the prescription, organization of the retail pharmacy, and the professional characteristics of pharmacy technicians. Furthermore, the course teaches long-term care pharmacy services, home health care and home infusion pharmacy, hospice, ambulatory, mail-order, central fill, and internet pharmacies

PHT 207 Pharmacy Management Software

(15 Clock Hours Lecture/30 Clock Hours Lab)

This course is designed to facilitate the student's mastery of computer skills needed to perform various pharmacy technician related responsibilities in community and hospital pharmacy practices. Students will also perform hands on and simulated activities where they will practice pharmacy technician skills to prepare for externship.

PHT 208 Community and Hospital Practice Pharmacy

(25 Clock Hours Lecture/35 Clock Hours Lab)

This course is designed to introduce the student to community pharmacy operations, interpreting and processing prescriptions, third-party payments, merchandise handling and inventory, hospital pharmacy practice, infection control and preparing sterile IV's, HIPPA regulations and pathogens in the pharmacy.

PHT 209 Infection Control

(10 Clock Hours Lecture/15 Clock Hours Lab)

Course includes infection prevention and control practices, the chain of infection, standard and transmission-based precautions, barriers and use of personal protective equipment (PPE), and strategies for preventing the spread of infectious disease to healthcare workers and patients.

PHT 210 Laboratory Simulations

(15 Clock Hours Lecture/26 Clock Hours Lab)

This course is designed to provide hands on training using electronic simulations as well as simulations within the laboratory to prepare the student for externship.

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches written, verbal, and nonverbal communications.

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

This course teaches about Adult and Child CPR

COS 100 Keyboarding

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course teaches the introduction to basic keyboarding and typing. This course teaches writing, verbal, and non-verbal communication.

CD 103 Career Development

(10 Clock Hours Lecture/14 Clock Hours Lab)

This course introduces students to professional environments, job search and personal requirements for career success. Students will prepare resumes, learn interview, and job search techniques.

CR 101 Certification Review

(10 Clock Hours Lecture/10 Clock Hours Lab)

This course assists students with preparation to take their national and/or state certification exam.

PHT 113 Externship

(00 Clock Hours Lecture/00 Clock Hours Lab/ 200 Clock Hours Clinical)

This course provided students with hands on training in a community and hospital pharmacy practice setting. Students will complete 200 hours of externship training under the direction of a Registered Pharmacist and Infinity College.

Pharmacy Technician Training Curriculum

Objective: This program will prepare students for entry-level pharmacy technician positions by teaching medical and pharmaceutical terminology, basic anatomy related to the pharmacology of medications, and pharmaceutical calculations. Students will learn necessary information to process prescriptions and physician orders and apply that knowledge to fill mock prescriptions and learn the skills needed to become a Pharmacy Technician in a hospital or retail setting. The curriculum also includes the ethics of pharmacy practice and education about prescription medications, patient care and interaction, and charges and reimbursement.

Text: The Pharmacy Technician: A Comprehensive Approach by Jahangir Moini by Cengage Learning

PHT 201 Introduction to Pharmacy

(30 Clock Hours Lecture/00 Clock Hours Lab)

Lesson 1: The Profession of Pharmacy Technician

Lesson 2: Educational Requirements

Lesson 3: The Role of the Pharmacy

Lesson 4: Patient care process

Lesson 5: Professional Organizations

Lesson 6: Code of Ethics

Lesson 7: State and National Requirements

Lesson 8: Job Opportunities

ME 102 Medical Ethics for Pharmacy Technicians

(15 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Ethics in Pharmacy

Lesson 2: Governing Bodies

Lesson 3: Drug recall and standards

Lesson 4: Regulation at the State and Federal Level

Lesson 5: Federal Regulatory Agencies, Drug Recalls, and Standards

Lesson 6: The Ethical Foundation of Pharmacy

MT 104 Medical Terminology and Abbreviations

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Word Parts

Lesson 2: Rules for Forming and Spelling Medical Terms

Lesson 3: Medical Vocabulary in Body Systems

Lesson 4: Abbreviations

Lesson 5: Drug Names and Apothecary Symbols

PHT 103 Drug Classification and Dosage Forms

(30 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Drug Names and Sources

Lesson 2: Dosage Forms of Drugs

Lesson 3: Principles of Drug Administration

PHT 104 Immunology and Microbiology

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Infection and Hygiene

Lesson 2: Physical and Chemical Agents to control microbes

Lesson 3: Immunology and Vaccination

PHT 105 Patient and Medication Safety

(20 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Occupational Safety and Health Administration (OSHA) Standards

Lesson 2: Standards and Regulations within the Pharmacy Profession

Lesson 3: Universal Precautions and Employee Responsibilities

PHT 106 Nutrition and Drug Interactions

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Pharmacokinetics and Pharmacodynamics

Lesson 2: Mechanism and causes of Drug Interaction

Lesson 3: Patient Variables that affect Drug Interaction

Lesson 4: Reducing the Risk of Drug Interaction

PHT 204 Pharmacology

(30 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Prescribing, Dispensing, and Administration Errors

Lesson 2: Minimizing Liability and Negligence and Malpractice Penalties

Lesson 3: Trade and Generic Medications

Lesson 4: Drugs affecting the immunological functions, infectious diseases, hormonal function, mood and behavior, neoplastic disorders, the gastrointestinal system, vitamin and mineral balance, and the eyes.

Lesson 5: How drugs affecting the nervous, cardiovascular, respiratory integumentary systems, as well as complementary and alternative treatments.

Lesson 6: Major indications for drug use, how drugs exert their effects, adverse effects, and specific implications for consumer awareness. Drugs of abuse, at-risk populations and treatment regimens are included.

Lesson 7: Simulation

AP 104 Anatomy and Physiology

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Integumentary and Musculoskeletal System

Lesson 2: Nervous System and Special Senses (eyes and ears)

Lesson 3: Endocrine and Cardiovascular System

Lesson 4: Lymphatic and Respiratory System

Lesson 5: Urinary and Digestive System

PHT 108 Mathematics and Calculations

(30 Clock Hours Lecture/30 Clock Hours Lab)

Lesson 1: Arabic and Roman Numerals

Lesson 2: Fractions, Decimals, and Ratios

Lesson 3: The Measurement System

Lesson 4: Household Measurements and Apothecary System

Lesson 5: Avoirdupois Weight and Units of Measure used for Medications

Lesson 6: Converting within and between systems

Lesson 7: Reading Medication Labels

Lesson 8: Methods of Calculation

Lesson 9: Calculation of Oral and Parenteral Medications

Lesson 10: Standardized Units of Drug Dosages

Lesson 11: Intravenous Solutions, Equipment, and Calculations

Lesson 12: Pediatric Dosage Calculations

PHT 110 Extemporaneous Prescription, Sterile and Non-Sterile Compounding

(30 Clock Hours Lecture/40 Clock Hours Lab)

Lesson 1: Extemporaneous compounding

Lesson 2: Compounding of liquid drugs

Lesson 3: Compounding of semisolid drugs and suppositories

Lesson 4: Compounding of solid drugs and parenteral products

Lesson 5: Parenteral preparations

Lesson 6: Types of asepsis and ways to achieve it

Lesson 7: Equipment and supplies

Lesson 8: Laminar airflow hoods

Lesson 9: Compounding of a parenteral and TPN product

Lesson 10: Preparing an IV Piggyback

Lesson 11: Large Volume Parenterals

Lesson 12: Preparation of IV Admixtures

Lesson 13: Non-injecting products and compounding records

Lesson 14: Policies and procedures for sterile product preparation

Lesson 15: Medication and Compliance
Lesson 16: Facilities and Equipment
Lesson 17: Sterile Compounding Procedures
Lesson 18: Handling, Packaging, Storage and Disposal

PHT 111 Pharmacy Billing and Receiving

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Management of Pharmacy Operations
Lesson 2: Health Insurance
Lesson 3: Documentation, Billing and Collections

PHT 112 Inventory Control and Management

(10 Clock Hours Lecture/10 Clock Hours Lab)

Lesson 1: Inventory control and management
Lesson 2: Ordering, receiving, and stocking
Lesson 3: Expired stock, drug formulary, repackaging, and automated dispensing systems

PHT 206 Pharmacy Management and Operations

(20 Clock Hours Lecture/20 Clock Hours Lab)

Lesson 1: Hospital pharmacy
Lesson 2: Organization of the hospital pharmacy
Lesson 3: Medication orders and medication of dispensing systems
Lesson 4: Sterile products, inventory control, and automation
Lesson 5: Roles and duties of a Pharmacy Technician
Lesson 6: The policies and procedures manual and regulatory agencies
Lesson 7: The Prescription-Community Pharmacy
Lesson 8: Organization of the Retail Pharmacy
Lesson 9: The Professional Characteristics of Pharmacy Technicians
Lesson 10: Long-term care pharmacy services-Advanced Pharmacy
Lesson 11: Home health care and home infusion pharmacy
Lesson 12: Hospice, Ambulatory, Mail-order, central fill, nuclear and internet

PHT 207 Pharmacy Management Software

(15 Clock Hours Lecture/30 Clock Hours Lab)

Lesson 1: Computer related skills for community pharmacies
Lesson 2: Computer related skills for hospital pharmacies
Lesson 3: Simulation

PHT 208 Community and Hospital Pharmacy

(25 Clock Hours Lecture/35 Clock Hours Lab)

Lesson 1: Interpret and process prescriptions
Lesson 2: Third party payments
Lesson 3: Merchandise handling and inventory
Lesson 4: Preparing sterile IV's
Lesson 5: HIPPA and pathogens in the pharmacy
Lesson 6: Simulation

PHT 209 Infection Control

(10 Clock Hours Lecture/15 Clock Hours Lab)

Lesson 1: Modes and mechanisms of transmission of organisms and strategies for prevention and control

Lesson 2: Selection and use of barriers and/or personal protective equipment for preventing patient and healthcare worker contact with potentially infectious material.

Lesson 3: The creation and maintenance of a safe environment patient care through application of infection control principles and practices for cleaning, disinfection, and sterilization.

Lesson 4: The prevention and management of infectious or communicable disease in healthcare workers.

PHT 210 Laboratory Simulations

(15 Clock Hours Lecture/26 Clock Hours Lab)

Lesson 1: Electronic and Hands-on simulations for various pharmacy types

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Communication process

Lesson 2: Verbal, written, and nonverbal communication

Lesson 3: Communication with others and methods of communication

Lesson 4: Types of customers and professionalism

Lesson 5: Barriers to communication and negative communication

Lesson 6: Defense mechanisms

Lesson 7: Dealing with conflict and eliminating barriers to communication

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

Part 1 General Concepts

Part 2 CPR for Adults

Part 3 CPR for Children

Part 4 Adult and Child Bag Mask Technique and Rescue Breathing

Part 5 2-Rescuer CPR for Adults and Children

Part 6 Automated External Defibrillator

Part 7 CPR for Infants

Part 8 Relief of Choking

Part 9 Special Considerations

Part 10 The Big Picture

COS 100 Keyboarding

(10 Clock Hours Lecture/ 10 Clock Hours Lab)

Unit 1 : Introduction to Keyboarding

Unit 2: Basic Skills and typing

CD 103 Career Development

(10 Clock Hours Lecture/ 14 Clock Hours Lab)

Lesson 1: Continuing education requirements

Lesson 2: Professionalism and workplace conduct

Lesson 3: Interviewing techniques and resume writing

CR 101 Certification Review

(10 Clock Hours Lecture/ 10 Clock Hours Lab)

Lesson 1: Reviewing materials to prepare to take the certification exam

PHT 113 Externship

(00 Clock Hours Lecture/00 Clock Hours Lab/ 200 Clock Hours Clinical)

Students will complete 200 of externship training under the direction of a licensed Pharmacist and Infinity College.

Externship Training is under the direction of a licensed Pharmacist and Infinity College.

Pharmacy Technician Information and Certification

How Do I Become A Pharmacy Technician?

Qualifications:

- At least 18 years of age
- High school graduate
- Must be of good moral character and non-impaired

The pathway to obtaining a pharmacy technician certificate begins with completing the training requirements. To complete the training requirements, the applicant must first obtain a pharmacy technician candidate registration. The candidate registration is a training credential; it authorizes the candidate to perform professional functions in a pharmacy under the supervision of a pharmacist while the candidate is training to become a pharmacy technician. The registration is valid for a limited period of time - two years - and it is not renewable. When the candidate has completed the training requirements, the candidate may then apply for the pharmacy technician certificate. The candidate need not wait until the registration has expired; as soon as the requirements have been completed, the candidate may submit their application for the pharmacy technician certificate.

Pharmacy Technician Candidate Registration:

Applicants for the pharmacy technician candidate registration shall complete the **application form** supplied by the board and attach the required documentation and fee. Applicants must be at least 18 years of age and, in addition, shall meet one of three eligibility options:

- **Option A** - provide proof of enrollment in a nationally accredited and board-approved pharmacy technician training program. A roster of nationally accredited and board-approved pharmacy technician training programs is available **here**.
- **Option B** - provide (1) proof of successful completion of a board-approved pharmacy technician certification examination AND (2) proof of successful completion of a high school (or GED) approved by a state department of education.
- **Option C** - provide (1) proof of credentialing as a pharmacy technician by another state board of pharmacy, (2) evidence of practice as a pharmacy technician for at least one year in that state, AND (3) proof of successful completion of a board-approved pharmacy technician certification examination.

When completed applications are received in the office, the office staff will send the applicant a packet of materials necessary to complete the required criminal background check (CBC). The applicant must submit their fingerprints for analysis by the Louisiana State Police and the Federal Bureau of Investigation (FBI). The applicant shall return the completed packet to the board office for submission to the La. State Police Headquarters. Following their analysis, those agencies will prepare a report for the board. The board staff must review that report before they can issue the registration. The amount of time necessary to complete the CBC process can vary widely - from as little as one week to more than six weeks. When the analysts determine the fingerprints are of insufficient quality, the applicant must re-submit their fingerprints, which takes additional time for processing. The CBC process is controlled by the La. State Police and FBI, and the board has no control over how long it takes for those agencies to send their report to the board. Applicants can substantially reduce the amount of time for that process by completing their packet at the La. State Police Headquarters in Baton Rouge, La. There is a nominal additional fee for that service, and instructions for that option are included in the packet of materials provided to the applicant.

The pharmacy technician candidate registration shall expire two years after the date of issue. It is a training credential, and it is not renewable. The training requirements vary slightly depending on the eligibility option originally selected by the applicant:

- Candidates who obtained their registration by selecting **Option A** shall complete a nationally accredited and board-approved training program, obtaining the number of hours of practical experience required by the training program's curriculum. The diploma or certificate issued by the training program is proof of completion of the program as well as the practical experience earned during the program. The candidate will attach a copy of that document to their application for the pharmacy technician certificate.
- Candidates who obtained their registration by selecting **Option B** or **Option C** shall earn at least 600 hours of practical experience in a pharmacy in Louisiana, subject to the following limitations - the permit of the pharmacy may not be on probation during the time the hours are earned, and the license of the pharmacist supervising the pharmacy technician candidate may not be on probation during the time the hours are earned.

All pharmacy technician candidates shall provide proof of successful completion of a board-approved pharmacy technician certification examination in order to qualify for the pharmacy technician certificate. The board has approved examinations from two organizations:

- Pharmacy Technician Certification Board [PTCB - www.ptcb.org]. The Pharmacy Technician Certification Examination (PTCE) administered by this organization was approved effective January 1, 2000. The board will accept completion certificates issued by PTCB reflecting initial certification on or after January 1, 2000.
- National Healthcare Association [NHA - www.nhanow.com]. The Examination for Certification as Pharmacy Technician (ExCPT) administered by this organization was approved effective January 1, 2018. The board will accept completion certificates issued by NHA reflecting initial certification on or after January 1, 2018.

Pharmacy Technician Certificate

Applicants for the pharmacy technician certificate shall complete the application form supplied by the board and attach the required documentation and fee. The documentation required includes proof of completion of a board-approved pharmacy technician certification examination [either PTCE issued on or after January 1, 2000 or ExCPT issued on or after January 1, 2018) AND one of the following: (1) for candidates who obtained their registration under **Option A**, a copy of the diploma or certificate of completion of a nationally-accredited and board-approved pharmacy technician training program, OR (2) for candidates who obtained their registration under **Option B** or **Option C** or any other method, proof of completion of at least 600 hours of practical experience using the Pharmacist's Certification form supplied by the board.

- The initial pharmacy technician certificate shall expire on June 30 regardless of the date of issue. Pharmacy technicians must apply for the renewal of their certificate every year, using the application form supplied by the board. In order to qualify for the renewal of their certificate, the pharmacy technician must successfully complete at least 10 hours of ACPE-accredited technician-specific continuing education (CE), and further, must maintain their CE records at CPE Monitor, a free service provided through the National Association of Boards of Pharmacy (NABP). Pharmacy technicians may establish their eProfile account for the CPE Monitor free of charge at www.nabp.pharmacy. The board will send a renewal reminder to the pharmacy technician approximately 60 days before the expiration date of their certificate. Pharmacy technicians may not practice with an expired certificate.

Application Process:

- All candidates must submit an **Application for Pharmacy Technician Candidate Registration** and include the required attachments.
- Part of the application process requires the candidate to submit to a State and Federal criminal background check (materials and instructions will be provided by the Board upon receipt of a completed application).
- Once issued, the pharmacy technician candidate registration shall expire in 18 months, and it is not renewable. The candidate must complete the experience and examination requirements for the technician certificate within that 18 month period of time.

Associated Fees:

- Pharmacy Technician Candidate Registration - \$25.00
- Criminal Background Check - \$38.00 (payable to LA State Police- no cash or personal checks)
- Application Fee for New Pharmacy Technician Certificate - \$100.00
- Annual Renewal Fee for Pharmacy Technician Certificate - \$50.00

NOTES:

It is your responsibility to read and understand all requirements for obtaining – and maintaining – a Louisiana Pharmacy Technician Certificate prior to submitting the candidate application.

- In order to practice as a pharmacy technician in Louisiana, you must have a Louisiana Pharmacy Technician Certificate. A PTCB Certificate (by itself) cannot be used to work as a technician in the state of Louisiana.
- In order to obtain a Louisiana Pharmacy Technician Certificate, a candidate must first earn 600 hours of practical experience hours in a Louisiana-licensed pharmacy and pass a board-approved examination.
- In order to earn the 600 hours of practical experience in a Louisiana-licensed pharmacy, a candidate must first obtain a Pharmacy Technician Candidate Registration.
- Falsification of any information on applications or documents submitted to the board may result in denial of the application and refusal to issue the credential.

Qualifications:

- 1) Registration – all candidates must register with the board.
- 2) Age – must be 18 years or older.
- 3) Character – must be of good moral character and non-impaired.
- 4) Education – must be a graduate from a high school approved by a state department of education, or shall possess an equivalent degree of education (GED or University degree)
- 5) Exceptions – a. A pharmacist or pharmacist intern whose board credential has been denied, suspended, revoked, or restricted for disciplinary reasons by any board of pharmacy shall not be a pharmacy technician candidate or pharmacy technician.
- b. A pharmacist or pharmacist intern whose board credential is lapsed shall not be a pharmacy technician candidate or pharmacy technician until such lapsed credential is recalled through non-disciplinary board action.

Application Procedure:

- In order to receive a pharmacy candidate registration, the following items must be submitted to the Board:
 - 1) Application for Pharmacy Technician Candidate Registration.
 - 2) A check or money order drawn on any bank located within the USA in the amount of US\$25, payable to the Louisiana Board of Pharmacy.
 - 3) Legible copy of birth certificate, passport, or naturalization papers.
 - 4) Legible copy of Social Security card.
 - 5) Legible copy of high school diploma, GED certificate, university degree or high school/university transcript. a. High school transcript must be marked as “Official” and must contain the applicant’s name, school’s name, and date of graduation.
 - b. University transcript must be marked as “Official” and must contain the applicant’s name, school’s name, degree earned, and date degree conferred.

Note: If your certificate has been expired for more than 30 days, it is too late to renew it. However, you can apply for the reinstatement of your certificate. To do so, please complete *Form No. 41-R ~ Application for Reinstatement of Pharmacy Technician Certificate* (see link above) and send it with all attachments and payment to the Board office.

Criminal Background Check (CBC):

- La R.S. 37:1216 requires the Board to conduct a criminal history check on applicants as a condition for eligibility for registration
- Upon receipt of your properly completed application, you will be provided with the materials needed to conduct a criminal record search with the Louisiana Department of Public Safety and the Federal Bureau of Investigation (FBI).
- Criminal history reports generated for or by another agency cannot be accepted to satisfy this requirement.
- We are not permitted to issue your registration until the results of this record search have been received and reviewed.

Pharmacy Technician Candidate Registration:

Candidate registration will expire 18 months after the date issued.

- Registrations cannot be renewed.
- A candidate cannot apply for another registration if they fail to complete all the requirements for certification in a timely manner.
- The board reserves the right to refuse to issue, recall, or discipline a registration for cause.
- Candidate shall wear appropriate attire and be properly identified as to name and candidate status while on duty in the prescription department.
- A candidate shall notify the board, in writing, no later than 10 days following any change of mailing address or any change of pharmacy employment.

Earning Hours of Practical Experience:

- A candidate shall possess a registration prior to earning any practical experience in a pharmacy.
- A candidate shall not work in a permitted site that is on probation with the board or with a pharmacist who is on probation with the board.
- A candidate may receive board credit for a maximum of 50 hours per week.
- All practical experience hours earned must be recorded on a Pharmacist's Affidavit and submitted to the board for approval.
- A separate Pharmacist's Affidavit must be completed for each pharmacy.
- Hours will expire one year after the expiration date of the registration.

Examination Administered by the Pharmacy Technician Certification Board (PTCB):

- The Louisiana Board of Pharmacy does not test candidates for certification.
- Candidates are required to pass the examination administered by the Pharmacy Technician Certification Board (PTCB), a private company located in Washington, D.C.
- PTCB is not affiliated with the Louisiana Board of Pharmacy.
- It is in your best interest to contact PTCB as soon as possible for exam information. You can contact that company at 800.363.8012 or www.ptcb.org.

Application for Pharmacy Technician Certificate:

- In order to qualify for a Pharmacy Technician Certificate, a candidate must provide the following items to the board:
- 1) Application for Pharmacy Technician Certificate
- 2) \$100.00 application fee payable to Louisiana Board of Pharmacy
- 3) One or more Pharmacist Affidavits documenting completion of at least 600 hours of practical experience.
- 4) Legible copy of your PTCB certificate documenting successful completion of their examination.

Pharmacy Technician Certificate:

- All certificates, regardless of the date originally issued, will expire on June 30th every year, and they must be renewed for continuing authority to assist in the practice of pharmacy.

Pharmacy technicians must earn a minimum of 10 hours of ACPE-accredited technician-specific continuing education every 12 months as a prerequisite to renew their certificate. (*See Louisiana Board of Pharmacy Website)

Pharmacy Technician Program Outcomes

1. Demonstrate career readiness, including effective communication with other health professionals and patients, proper telephone etiquette, protocol, required identification, and professional attire.
2. Demonstrate knowledge of pharmacy laws and regulations as they pertain to pharmacy technician responsibilities, including application of procedures of the Drug Enforcement Administration (DEA) and state requirements for controlled substances and the role of the Louisiana Board of Pharmacy and the regulations that pertain to pharmacy technicians.

3. Demonstrate knowledge of drug nomenclature, an understanding of the classes of drugs, the various dosage forms and issues pertaining to their stability, the various factors that could affect drug activity, and proficiency in the dispensing of drugs.
4. Perform duties of the pharmacy technician including the process of prescriptions and/or medication orders, the maintenance of a patient profile/information system as directed by a pharmacist, proper procedure for materials management including ordering, receiving, and storing drugs, manufacturer drug labels, and inventory control and accountability for drugs.
5. Demonstrate knowledge and skills needed to be successful on the National Pharmacy Technician Certification Examination.

Pharmacy Technician Program- Goals and Objectives

Page Source: <https://www.ashp.org/Professional-Development/ASHP-ACPE-Pharmacy-TechnicianProgram-Accreditation/Accreditation-Standards/Accreditation-Standards-for-Pharmacy-TechnicianEducation-and-Training-Programs>

Infinity College's Pharmacy Technician Program goals are based on the objectives found in the American Society of Health-System Pharmacists (ASHP) Model Curriculum for Pharmacy Technician Education and Training, published by the American Society of Health-System Pharmacists. The Model Curriculum for Pharmacy Technician Education and Training is utilized as a framework to provide detail and guidance on the instructional goals and objectives, learning activities, didactic education, laboratory simulation, and experiential training components upon which ASHP/ Accreditation Council for Pharmacy Education (ACPE) Accredited Pharmacy Technician Programs are based.

Personal/Interpersonal Knowledge and Skills

Entry-Level

1. Demonstrate ethical conduct.
2. Present an image appropriate for the profession of pharmacy in appearance and behavior.
3. Demonstrate active and engaged listening skills
4. Communicate clearly and effectively, both verbally and in writing.
5. Demonstrate a respectful attitude when interacting with diverse patient populations, colleagues, and professionals.
6. Apply self-management skills, including time management, stress management.
7. Apply interpersonal skills, including negotiation skills, conflict resolution, customer service and teamwork.
8. Demonstrate problem solving skills.

Advanced- Level

9. Demonstrate capability to manage or supervise pharmacy technicians in matters such as conflict resolution, teamwork, and customer service.
10. Apply critical thinking skills, creativity, and innovation.
11. Apply supervisory skills related to human resource policies and procedures.
12. Demonstrate the ability to effectively and professionally communicate with other healthcare professionals, payors, and other individuals necessary to serve the needs of patients and practice.

Foundational Professional Knowledge and Skills

Entry-level

1. Explain the importance of maintaining competency through continuing education and continuing professional development.
2. Demonstrate ability to maintain confidentiality of patient information and understand applicable state and federal laws.
3. Describe the pharmacy technician's role, pharmacist's role, and other occupations in the healthcare environment.
4. Describe wellness promotion and disease prevention concepts
5. Demonstrate basic knowledge of anatomy, physiology and pharmacology, and medical terminology relevant to the pharmacy technician's role.
6. Perform mathematical calculations essential to the duties of pharmacy technicians in a variety of settings.
7. Explain the pharmacy technician's role in the medication-use process.
8. Practice and adhere to effective infection control procedures.

Advanced-Level

9. Describe investigational drug process, medications being used in off-label indications, and emerging drug therapies.
10. Describe further knowledge and skills required for achieving advanced competencies.
11. Support wellness promotion and disease prevention programs.

Processing and Handling of Medications and Medication Orders

Entry-Level

1. Assist pharmacists in collecting, organizing, and recording demographic and clinical information for the *Pharmacists' Patient Care Process*.
2. Receive, process, and prepare prescriptions/ medication orders for completeness, accuracy, and authenticity to ensure safety.
3. Assist pharmacists in the identification of patients who desire/require counseling to optimize the use of medications, equipment, and devices.
4. Prepare patient-specific medications for distribution.
5. Prepare non-patient-specific medications for distribution.
6. Assist pharmacists in preparing, storing, and distributing medication products including those requiring special handling and documentation.
7. Assist pharmacists in the monitoring of medication therapy.
8. Maintain pharmacy facilities and equipment.
9. Use information from Safety Data Sheets (SDS), National Institute of Occupational Safety and Health (NIOSH) Hazardous Drug List, and the United States Pharmacopeia (USP) to identify, handle, dispense, and safely dispose of hazardous medications and materials.
10. Describe Food and Drug Administration product tracking, tracing, and handling requirements.
11. Apply quality assurance practices to pharmaceuticals, durable and non-durable medical equipment, devices, and supplies.
12. Explain procedures and communication channels to use in the event of a product recall or shortage, a medication error, or identification of another problem.

13. Use current technology to ensure the safety and accuracy of medication dispensing.
14. Collect payment for medications, pharmacy services, and devices.
15. Describe basic concepts related to preparation for sterile and non-sterile compounding.
16. Prepare simple non-sterile medications per applicable USP chapters (e.g., reconstitution, basic ointments, and creams).
17. Assist pharmacists in preparing medications requiring compounding of non-sterile products.
18. Explain accepted procedures in purchasing pharmaceuticals, devices, and supplies.
19. Explain accepted procedures in inventory control of medications, equipment, and devices.
20. Explain accepted procedures utilized in identifying and disposing of expired medications.
21. Explain accepted procedures in delivery and documentation of immunizations.
22. Prepare, store, and deliver medication products requiring special handling and documentation.

Advanced-Level

1. Prepare compounded sterile preparations per applicable, current USP Chapters.
2. Prepare medications requiring moderate and high level non-sterile compounding as defined by USP (e.g., suppositories, tablets, complex creams).
3. Prepare or simulate chemotherapy/hazardous drug preparations per applicable, current USP Chapters.
4. Initiate, verify, and manage the adjudication of billing for complex and/or specialized pharmacy services and goods.
5. Apply accepted procedures in purchasing pharmaceuticals, devices, and supplies.
6. Apply accepted procedures in inventory control of medications, equipment, and devices.
7. Process, handle, and demonstrate administration techniques and document administration of immunizations and other injectable medications.
8. Apply the appropriate medication use process to investigational drugs, medications being used in off-label indications, and emerging drug therapies as required.
9. Manage drug product inventory stored in equipment or devices used to ensure the safety and accuracy of medication dispensing.

Patient Care, Quality and Safety Knowledge Skills

Entry-level

1. Explain the *Pharmacists' Patient Care Process* and describe the role of the pharmacy technician in the patient care process.
2. Apply patient- and medication-safety practices in aspects of the pharmacy technician's roles.
3. Explain how pharmacy technicians assist pharmacists in responding to emergent patient situations, safely and legally.
4. Explain basic safety and emergency preparedness procedures applicable to pharmacy services.
5. Assist pharmacist in the medication reconciliation process.
6. Explain point of care testing.
7. Explain pharmacist and pharmacy technician roles in medication management services.

8. Describe best practices regarding quality assurance measures according to leading quality organizations.

Advanced level

1. Verify measurements, preparation, and/or packaging of medications produced by other healthcare professionals.
2. Perform point-of-care testing to assist pharmacist in assessing patient's clinical status.
3. Participate in the operations of medication management services.
4. Participate in technical and operational activities to support the *Pharmacists' Patient Care Process as assigned*.
5. Obtain certification as a Basic Life Support Healthcare Provider.

Regulatory and Compliance Knowledge and Skills

Entry-level

1. Describe and apply state and federal laws pertaining to processing, handling, and dispensing of medications including controlled substances.
2. Describe state and federal laws and regulations pertaining to pharmacy technicians.
3. Explain that differences exist between states regarding state regulations, pertaining to pharmacy technicians, and the processing, handling, and dispensing of medications.
4. Describe the process and responsibilities required to obtain and maintain registration and/or licensure to work as a pharmacy technician.
5. Describe pharmacy compliance with professional standards and relevant legal, regulatory, formulary, contractual, and safety requirements.
6. Describe Occupational Safety and Health Administration (OSHA), National Institute of Occupational Safety and Health (NIOSH), and United States Pharmacopeia (USP) requirements for prevention and treatment of exposure to hazardous substances (e.g., risk assessment, personal protective equipment, eyewash, spill kit).
7. Describe OSHA requirements for prevention and response to blood-borne pathogen exposure (e.g., accidental needle stick, post-exposure prophylaxis).
8. Describe OSHA Hazard Communication Standard (i.e., "Employee Right to Know").

Advanced-Level

9. Participate in pharmacy compliance with professional standards and relevant legal, regulatory, formulary, contractual, and safety requirements.
10. Describe major trends, issues, goals, and initiatives taking place in the pharmacy profession.

Clinical Safety

If accidental exposure to blood or body fluid or other potentially infectious material occurs while participating in a scheduled clinical experience the instructor must be notified immediately and subsequently notify the Dean.

The following procedure will be implemented:

1. The student, following the clinical agency's policies and procedures, is to report to the nearest emergency room for treatment, initial testing, and care immediately after the incident. The results will be disseminated to the student according to the clinical site's policy.
2. The cost of any emergency medical care or treatment shall be the responsibility of the student receiving the care or treatment.
3. Although it is highly recommended to seek immediate treatment, the student does have the right to refuse treatment.
4. Incident reports are to be filled out to meet both the clinical sites and the College's requirements.
5. An incidence report is provided to the Campus Director and/or Director of Education.
6. The cost of any medical follow-up care or treatment shall be the responsibility of the student.
7. In the event that a student administers care to a patient who later in their hospitalization, tests positive for communicable disease, it will be the student's responsibility to undergo testing and follow-up as may be recommended by the clinical site.
8. The cost of medical care or treatment shall be the responsibility of the individual receiving the care or treatment.

Pharmacy Technician Certification Board (PTCB) Examination

Upon completion of the Pharmacy Technician program the graduate may be eligible to apply to the PTCB to take the registry examination. The examination is designed to test the knowledge, skills, and abilities essential to the safe and effective practice of the Pharmacy Technician at the entry level. Upon successful completion of these examinations, the graduate becomes registered to practice as a Certified Pharmacy Technician.

Class Attendance

Attendance will be recorded daily for each class. Regular and prompt class attendance is regarded as a minimal academic obligation. Documentation is required for any absence or tardiness in excess of one hour. Students are advised that employment potential is negatively impacted by a lack of reliable attendance history.

Clinical Attendance

1. The student is expected to attend ALL clinical experiences.

2. Clinical absence may compromise a student's ability to meet clinical objectives and lead to an unsatisfactory clinical evaluation. Missed clinical time may be re-scheduled at the discretion of the instructor. Alternate learning methods may also be assigned.

3. In the event of an unavoidable clinical absence or delay, the student must:

- a. Call the clinical instructor before clinical arrival time.
- b. Call the clinical site supervisor at least 30 minutes before scheduled clinical time.
- c. Provide appropriate documentation of the unavoidable situation.
- d. If the student has health problems, or is taking medications for health problems during clinical, he / she must inform the clinical instructor with appropriate documentation.

Testing And Grading Policy

Theory Evaluation

1. Students must pass all courses each semester with a grade of "C" or better before progressing to the next semester of courses.
2. Methods of evaluation for grade calculation will be explained in each course syllabus.
3. Unannounced quizzes may be given at any time during the course. A student arriving late will not be allowed to take the quiz. A missed quiz will not be made up and is recorded as a zero.
4. Pharmacy Technician courses may have a comprehensive final examination.
5. Desktops will be cleared of all papers, books, notebooks, carry-bags, food dishes and all electronics. The only acceptable objects on the desk are a writing device, eraser, and a sealable beverage. The owner of any other material on the desktop will not be allowed to test, will receive a grade of zero (0), and under such circumstances, will not be allowed to make-up the exam.
6. All quizzes, tests and exams are retained according to established policy.

Posting Grades

Grades for all examinations will be posted to the student's Quick Schools account and/or distributed to the student.

Test Review

Test review will occur within one week of the day of the exam. During the review, correct answers will be available, and discussion of test items will be permitted. During the review, notebooks, binders, books, and any other documentation tool cannot be in the students'

possession. Students must make an appointment with the instructor in order to review the test items within two weeks of the exam date. No review will be conducted after one week.

Professional Behavior

Faculty of Infinity College and the Pharmacy Technician program have an academic, legal, and ethical responsibility to protect members of the public and the health care community from unsafe or unprofessional practices. Pharmacy Technician students, while representing Infinity College at any clinical agency, must conduct themselves in an ethical, professional, and safe manner. Students are expected to assume responsibility for their actions and will be held accountable for them. Students will abide by Infinity College and clinical agency policies during each clinical experience. Failure to adhere to program specific policies related to professional behavior or safe clinical practice may result in the use of the Progressive Discipline Policy outlined in the Student Handbook.

Professional Ethics and Confidentiality

Students must remember that the information concerning patients is confidential. Students are required to adhere to legal and ethical standards as established by regulatory agencies and professional standards. Failure to comply with the above is cause for immediate dismissal from the program.

Unsafe Clinical / Practicum Practices

The Pharmacy Technician program identifies safety as a basic human need. A safety need can be identified as physical, biological, and/or emotional in nature. Unsafe clinical/practicum practice shall be deemed to be behavior demonstrated by the student which threatens or violates the physical, biological, or emotional safety of the patient, caregiver, students, staff, or self. Unsafe or unprofessional clinical/practicum practice may result in implementation of Progressive Discipline as described below. The following examples serve as guides to these unsafe behaviors, but are not to be considered all-inclusive:

Physical Safety:

Unsafe behaviors include but are not limited to:

- ☐ inappropriate use of equipment
- ☐ lack of proper protection of the patient which potentiates injury
- ☐ failure to correctly identify patient(s) prior to initiating care
- ☐ failure to perform pre-procedure safety checks of equipment or patient status

Biological Safety:

Unsafe behaviors include but are not limited to:

- ☐ performing actions without appropriate supervision
- ☐ failure to seek help when needed
- ☐ attending clinical while ill

Emotional Safety:

Unsafe behaviors include but are not limited to:

- ☐ threatening or making a patient, caregiver, or bystander fearful
- ☐ providing inappropriate or incorrect information
- ☐ performing actions without appropriate supervision
- ☐ failure to seek help when needed
- ☐ evidence of unstable emotional behaviors

Unprofessional Practice:

Unprofessional behaviors include but are not limited to:

- ☐ Verbal or non-verbal language, actions (including but not limited to postings on social media sites), or voice inflections which compromise rapport and working relations with patients, family members, staff, or physicians, may potentially compromise contractual agreements and/or working relations with clinical affiliates, or constitute violations of legal/ethical standards
- ☐ Behavior which interferes with or disrupts teaching/learning experiences
- ☐ Using or being under the influence of any drug or alcohol that may alter judgment and interfere with safe performance in the clinical or classroom setting
- ☐ Breach of confidentiality in any form
- ☐ Falsifying data in a patient health record
- ☐ Misrepresenting care given, clinical errors, or any action related to the clinical experience
- ☐ Recording, taping, taking pictures in the clinical setting without expressed consent
- ☐ Leaving the clinical area without notification of faculty and clinical staff or supervisor

Clinical Requirements	
Instructions	Items Due
Complete the application for New Louisiana Pharmacy Technician Candidate Registration	
The application can be found at the link below.	
http://www.pharmacy.la.gov/assets/docs/Forms/030_AppNewPTC_2014-1001F.pdf	
Please note you will need to submit the following items with your application:	
<input type="checkbox"/> a notarized passport picture	
<input type="checkbox"/> a copy of your Social Security card	
<input type="checkbox"/> a copy of your birth certificate, passport, or naturalization papers	
<input type="checkbox"/> a check or money order for \$25 payable to the Louisiana Board of Pharmacy	
<input type="checkbox"/> Criminal Background Check: The Louisiana Board of Pharmacy conducts a criminal history check on applicants as a condition for eligibility for registration. Upon receipt of your properly completed application, you will be provided with the materials needed to conduct a criminal record search with the Louisiana Department of Public Safety and the Federal Bureau of Investigation (FBI).	
<input type="checkbox"/> CPR: You must have a current American Heart Association BLS Provider Cardiopulmonary Resuscitation (CPR) card.	Current American Heart Association

<input type="checkbox"/> *CPR card must be valid for the duration of the program.	Healthcare Provider CPR Card Online courses are not accepted for initial
Health Requirements: The following are required by the agencies we use for clinical rotations. All requirements should be dated within the last year unless otherwise indicated. Immunization: <input type="checkbox"/> Tetanus vaccine (current 10 years) <input type="checkbox"/> Hepatitis B Series or a titer (current 10 years) Lab: <input type="checkbox"/> Complete Blood Count <input type="checkbox"/> HIV test (current 5 years) <input type="checkbox"/> VDRL/RPR <input type="checkbox"/> Varicella Titer <input type="checkbox"/> MMR Titer <input type="checkbox"/> Hepatitis B Series or a titer (current 10 years) <input type="checkbox"/> TB skin test or Chest X-ray	Submit copies of immunization and lab records to the program manager or course instructor
Health History and Physical Examination Forms: Have your primary care provider complete the health and physical forms; if you do not have a health care provider a list of local resources is attached. The providers address and contact information must be written/stamped on the bottom of the health history form.	Completed health and physical forms. ***Completed form must include healthcare provider address and contact information otherwise forms will not be accepted****
Drug Screening: Students are required to complete a 10-panel urine drug screening	
Registration: All documentation must be submitted to the program manager or course instructor before you can register for your classes.	

SERVICE PROVIDERS

Criminal Background Check:

Must be completed at Louisiana State Police Headquarters,
7919 Independence Blvd, Baton Rouge, LA 70806 (225.925.6006)

CPR SERVICES:

AHA Healthcare Provider CPR cards issued by your employer will be accepted. You may use any AHA Health Care Provider.

The following are community providers:

Infinity College
117 W. Pinhook Rd
Lafayette, LA 70501
337-261-9009

CPR Instructors: Mrs. F. Rogers

Dr. S. Davis

***CPR card must be valid for the duration of the program.**

HEALTH SERVICES: All health requirements can be completed by your primary care practitioner (PCP). The tests required are expensive, we have negotiated discount service rates with the providers listed below.

To obtain the contracted rates inform them you are an Infinity College Student.

Drug Screen: DISA

825 Kaliste Saloom Rd, #100
Lafayette, LA 70508
337-235-3712

TB Test: Stafford Clinic

3251 Ambassador Caffery #b
Lafayette, LA 70506
337-983-0208

**You can go to any Occupational Medical, Family Health Center, Workforce Medical or Walk-In Clinical to obtain labs or immunizations.*

Pharmacy Technician Career Information Resources

Salary

The median annual wage for pharmacy technicians was \$30,920 in May 2016.

<https://www.bls.gov/ooh/healthcare/pharmacy-technicians.htm>

Job Outlook

Employment of pharmacy technicians is projected to grow 9 percent from 2014 to 2024, faster than the average for all occupations. Increased demand for prescription medications will lead to more demand for pharmaceutical services. – The U.S. Department of Labor

Medical Insurance Billing and Coding Specialist Program Description

Objective: This program is designed to provide the student with a basic understanding of the field of medical insurance billing and coding, medical terminology, and coding and classification systems. Upon completion of the program students will be eligible to work in hospitals, physician's office, health care agencies, and private billing companies.

MIBC 101 Introduction to Medical Coding

(15 clock hours lecture/ 05 clock hours lab)

This course teaches the career as a coder and documentation as a basis for coding. This course is designed to provide a discussion of strategies for completing the allied health programs as an independent learner. In addition, it introduces health care and the role that healthcare professionals play in that industry. This course is designed to provide a discussion of strategies for completing the allied health programs.

MIBC 201 Medical Coding

(80 clock hours lecture/ 40 clock hours lab)

Your first course begins with an overview of coding concepts, terms, and procedures. You will explore the history of the ICD-10 coding system. You will code diagnoses in the ICD-10-CM and use the chapter-specific coding guidelines to code diseases and conditions with specific and unique rules. You will finish your course by learning how to code procedures in the ICD-10-PCS, rounding out your training in the basics of coding with ICD-10. Students explore CPT Coding, CPT Evaluation and Management, and CPT in various departments.

MIBC 202 Medical Billing

(80 clock hours lecture/ 40 clock hours lab)

Introductory course covering the reimbursement process and payment methodologies, like fee for-service and episode-of-care. This course covers payment systems, fee schedules, charge masters, coding, and the internal audit process, as well as the fundamentals and different types of health insurance.

MT 101 Medical Terminology and Abbreviations

(20 clock hours lecture/ 20 clock hours lab)

This course teaches the student a basic understanding of medical terminology of the body systems, diseases, diagnostic procedures, laboratory tests, and abbreviations.

AP 101 Anatomy and Physiology

(20 clock hours lecture/ 20 clock hours lab)

This course teaches the introduction to the human body, body functions, body organization, and each of the systems of the body.

AP 102 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

This course teaches about the circulatory system, anatomy and physiology of the circulatory system, and veins and arteries of the circulatory system. This course teaches the heart and circulation, blood vessels, and the composition of blood.

MIBC 102 International Classification of Diseases

(35 clock hours lecture/35 clock hours lab)

This course teaches the introduction to ICD-9-CM and ICD-10-CM coding, coding conventions, coding guidelines, hospital inpatient coding, and outpatient and physician office coding.

MIBC 103 Health Care Procedure Coding System

(35 clock hours lecture/15 clock hours lab)

This course teaches HCPCS Level II National Coding System.

EHR 101 Electronic Health Records

(20 clock hours lecture/ 20 clock hours lab)

This course teaches the execution of workflows, retrieving and storing patient information, and administrative tasks. The Electronic Medical Records Management Certificate program provides a basic overview on how to successfully manage electronic medical records (EMRs) in different health care settings. Attendees will learn EMR concepts, terminology, regulations, and procedures, and receive hands-on training with an electronic medical record.

MIBC 107 Insurance Principles

(25 clock hours lecture/25 clock hours lab)

This course teaches basic insurance principles, third-party payers, affordable care act, and healthcare reform.

MIBC 203 Insurance Reimbursement

(40 clock hours lecture/ 08 clock hours lab)

This course covers health insurance products and managed care approaches to the financing and delivery of healthcare services. Students explore reimbursement and payment methodologies. Students examine forms, processes, practices, and the roles of health information professionals. Students discuss concepts in insurance, third-party and prospective payments, and managed care organizations.

MIBC 204 Accounts Receivable and Injury Claims

(40 clock hours lecture/ 17 clock hours lab)

This course will expound on how to account for and manage receivables and payables. Students will explore the techniques of how to calculate a bad debt provision amount based on a company's history and will include an overview of both the aging schedule and the allowance methods for calculating receivables. Students will learn the basic concepts of Worker's Compensation.

ME 101 Medical Ethics

(15 clock hours lecture/ 05 clock hours lab)

This course teaches patient rights and responsibilities, ethical issues in patient care, and privacy standards governing healthcare practice. The Law and Ethics section of this course covers how law affects medical offices; the origin of law that affects medical professionals; the process of litigation and its alternatives; the duties created between health care professionals and patients once a doctor-patient relationship is established; criminal law and torts that are relevant to the health profession. The Confidentiality in Allied Health section examines the common-law basis for the confidentiality of health care information and the

laws regulating health care information collected and maintained by government agencies. Also covered is the Health Insurance Portability and Accountability Act (HIPAA), as well as how the management of medical information affects the management and measurement of quality in health care.

MIBC 108 Medical Office Procedures

(20 clock hours lecture/ 20 clock hours lab)

This course teaches documentation, filing, charting, and file maintenance procedures. This course covers the typical duties of the administrative assistant in any business office: task management, general business machines, telephone call management, business letter writing, electronic and print mail processing, travel and meeting planning, policy and procedures manuals, facility care and maintenance, as well as office math.

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

This course teaches written, verbal, and nonverbal communications.

CD 101 Career Development

(10 clock hours lecture/ 10 clock hours lab)

This course teaches professionalism and workplace conduct, resume writing, and interview techniques.

CR 101 Certification Review

(10 clock hours lecture/ 10 clock hours lab)

This course assists the student with preparation for the certification examination.

COS 102 Microsoft Word

(20 clock hours lecture/25 clock hours lab)

This course teaches how to create documents in Word, format and organize text, working with graphics, tabs, and tables, and applying special text, paragraph, and documents.

COS 103 Microsoft Excel

(20 clock hours lecture/25 clock hours lab)

This course teaches how to create workbooks with Excel, create charts, manage multiple worksheets, and uses Excel functions and tables.

CPR 101 Healthcare Provider CPR

(03 clock hours lecture/02 clock hours lab)

This course teaches CPR for adults and children.

Medical Insurance Billing and Coding Specialist Curriculum

Objective: This program is designed to provide the student with a basic understanding of the field of medical insurance billing and coding, medical terminology, and coding and classification systems. Upon completion of the program students will be eligible to work in hospitals, physician's office, health care agencies, and private billing companies.

Text: 3-2-1 Code It! By Michelle A. Green, published by Cengage Learning.
Understanding Health Insurance by Michelle A. Green
Medical Transcription: Fundamentals and Practice

MIBC 101 Introduction to Coding

(15 clock hours lecture/05 clock hours lab)

Lesson 1: Overview of Coding

MIBC 201 Medical Coding

(80 clock hours lecture/40 clock hours lab)

Lesson 1: Coding Concepts, terms, and procedures

Lesson 2: ICD-10 Coding system

Lesson 3: ICD-10-CM

Lesson 4: ICD-10-PCS

Lesson 5: Introduction to CPT Coding

Lesson 6: CPT Evaluation and Management

Lesson 7: CPT Anesthesia and Surgery

Lesson 8: CPT Radiology, Pathology, Laboratory and Medicine

Lesson 9: CPT Pathology and Laboratory

MIBC 202 Medical Billing

(80 clock hours lecture/40 clock hours lab)

Lesson 1: Reimbursement process and payments

Lesson 2: Fundaments of health insurance

MT 101 Medical Terminology & Abbreviations

(20 clock hours lecture/20 clock hours lab)

Lesson 1: Introduction to Medical Terminology

Lesson 2: Word Parts and Meanings

Lesson 3: Common Medical Terms, Abbreviations, and Symbols

Lesson 4: Organization of the Human Body and Systems

AP 101 Anatomy and Physiology

(20 clock hours lecture/20 clock hours lab)

Lesson 1: Understanding basic structures of tissues and cells

Lesson 2: Organs which comprise the major body systems

Lesson 3: Functions of the organs which comprise the major body systems with an emphasis on the urinary system

Lesson 4: Understand the common disease processes related to major body systems and their related Organs

AP 102 Anatomy and Physiology

(20 Clock Hours Lecture/20 Clock Hours Lab)

Unit 1: Circulatory System

Unit 2: Anatomy and Physiology of the Circulatory System

Unit 3: Veins and Arteries of the Circulatory System

Unit 4: Understanding the Cardiovascular System

Unit 5: The Heart and Circulation

Unit 6: Blood Vessels

Unit 7: Composition of Blood

MIBC 102 International Classification of Diseases

(35 clock hours lecture/35 clock hours lab)

Lesson 1: Introduction to ICD-9-CM Coding

Lesson 2: ICD-9-CM and ICD-10-CM Coding Conventions

Lesson 3: ICD-9-CM and ICD-10-CM Coding Guidelines

Lesson 4: ICD-9-CM and ICD-10-CM Hospital Inpatient Coding

Lesson 5: ICD-9-CM and ICD-10-CM Outpatient and Physician Office Coding

MIBC 103 Health Care Procedure Coding System

(35 clock hours lecture/15 clock hours lab)

Lesson 1: HCPCS Level II National Coding System

EHR 101 Electronic Health Records

(20 clock hours lecture/20 clock hours lab)

Lesson 1: Execute EHR workflows

Lesson 2: Retrieve and store patient information

Lesson 3: Perform routine EHR administrative tasks

Lesson 4: Inventory and management of patient data

MIBC 107 Insurance Principles

(25 clock hours lecture/25 clock hours lab)

Lesson 1: Insurance and Reimbursement

Lesson 2: Third Party Payers

Lesson 3: Affordable Care Act

Lesson 4: Healthcare Reform

Lesson 5: HIPPA compliance

MIBC 203 Insurance Reimbursement

(15 clock hours lecture/05 clock hours lab)

Lesson 1: Health insurance products and managed care

Lesson 2: Reimbursement and payment methodology

Lesson 3: Role of health information professionals

MIBC 204 Accounts Receivable and Injury Claims

(15 clock hours lecture/05 clock hours lab)

Lesson 1: Management of Payable and receivables

Lesson 2: Calculating debt

Lesson 3: Basic concepts in Worker's Compensation

ME 101 Medical Ethics

(15 clock hours lecture/05 clock hours lab)

Lesson 1: Patients' rights and responsibilities

Lesson 2: Ethical and legal issues in patient care

Lesson 3: Privacy standards governing healthcare practice

MIBC 108 Medical Office Procedures

(20 clock hours lecture/20 clock hours lab)

Lesson 1: Documentation

Lesson 2: Categorizing patient health information
Lesson 3: Filing and charting
Lesson 4: File maintenance procedures

COM 101 Communication

(05 Clock Hours Lecture/05 Clock Hours Lab)

Lesson 1: Communication process
Lesson 2: Verbal, written, and nonverbal communication
Lesson 3: Communication with others and methods of communication
Lesson 4: Types of customers and professionalism
Lesson 5: Barriers to communication and negative communication
Lesson 6: Defense mechanisms
Lesson 7: Dealing with conflict and eliminating barriers to communication

CD 101 Career Development

(10 clock hours lecture/ 10 clock hours lab)

Lesson 1: Continuing education requirements
Lesson 2: Professionalism and workplace conduct
Lesson 3: Interviewing techniques and resume writing

CR 101 Certification Review

(10 clock hours lecture/10 clock hours lab)

Lesson 1: Review for student certification examination

COS 102 Microsoft Word

(20 Clock Hours Lecture/25 Clock Hours Lab)

Chapter 1 Create Documents with Word
Chapter 2 Format and Organize Text
Chapter 3 Work with Graphics, Tabs, and Tables
Chapter 4 Apply Special Text, Paragraph and Documents Formats

Text: Professionalism: Real Skills for Workplace Success by Lydia Anderson and Sandra Bolt, published by Pearson

COS 103 Microsoft Excel

(20 clock hours lecture/25 clock hours lab)

Chapter 1 Create Workbooks with Excel
Chapter 2 Create Charts
Chapter 3 Manage Multiple Worksheets
Chapter 4 Use Excel Functions and Tables

Text: BLS for Healthcare Providers Student Manual

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

Part 1 General Concepts
Part 2 CPR for Adults
Part 3 CPR for Children

- Part 4 Adult and Child Bag Mask Technique and Rescue Breathing
- Part 5 2-Rescuer CPR for Adults and Children
- Part 6 Automated External Defibrillator
- Part 7 CPR for Infants
- Part 8 Relief of Choking
- Part 9 Special Considerations
- Part 10 The Big Picture

Nursing Assistant Program Outline

	Course Title	Classroom/Lecture	Laboratory	Work- Based Activities	Total Hours
		Clock	Clock	Clock	Clock
NA 101	Communication and Interpersonal Skills	03	03		06
NA 102	Infection Control	02	00		02
NA 103	Safety and Emergency Procedures	04	03		07
NA 104	Resident's Rights and Promoting Resident's Rights	03	02		05
NA 105	Mental Health and Social Service Needs	02	02		04
NA 106	Personal Care	04	02		06
NA 107	Basic Nursing Services	03	02		05
CPR 101	Healthcare Provider	03	02		05
NA 108	Externship			40	40
	Total	24	16	40	80

Nursing Assistant Program Description

NA 101 Communication and Interpersonal Skills

(03 Clock Hours Lecture/03 Clock Hours Lab)

This section teaches about the expectations of CNA's, communication and documentation principles and procedures.

NA 102 Infection Control

(02 Clock Hours Lecture/00 Clock Hours Lab)

This section teaches the prevention and control of infection, the aging process and disease management.

NA 103 Safety and Emergency Procedures

(04 Clock Hours Lecture/03 Clock Hours Lab)

This section teaches cardiopulmonary resuscitation, safety and body mechanics, emergency care, first aid and disasters, position, moving and lifting.

NA 104 Resident's Rights and Promoting Resident's Rights

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches how to understand people and identify the needs of the resident, understanding people's rights and the nursing assistant's role in ensuring the quality of life.

NA 105 Mental Health and Social Service Needs

(02 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches diversity and human needs and development in the role of the family, work environments and resident populations and end of life.

NA 106 Personal Care

(04 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches bed making and unit care, personal care, vital signs, personal injury prevention and protection, pain management, sleep and comfort and restorative activities.

NA 107 Basic Nursing Services

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

This section teaches the about basic nursing services, gathering information, creating a home, assisting with nutrition and elimination, and maintaining and improving skin integrity.

CPR 101 Healthcare Provide CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

This course teaches about Adult and Child CPR.

NA 108 Externship

(00Clock Hours Lecture/ 00Clock Hours Lab/ 40 clock hours clinical)

Students will perform clinical hours under the direct supervision of the program Coordinator.

Nursing Assistant Curriculum

Objective: To train students on the skills needed for the Nursing Assistant career. Upon completion of the program and the nursing assistant certification examination graduates will be eligible to work in nursing homes, hospitals, home health agencies, physician's offices, and rehabilitation facilities.

Text: Successful Nursing Assistant Care, 4th Edition by Diana L. Dugan, RN-Hartman Publishing, Inc.

NA 101 Communication and Interpersonal Skills

(03 Clock Hours Lecture/03 Clock Hours Lab)

Unit 1: Expectations of Certified Nurse Aides (CNAs)

Unit 2: Communication

Unit 3: Documentation Principles and Procedures

NA 102 Infection Control

(02 Clock Hours Lecture/00 Clock Hours Lab)

Unit 1: Prevention and Control of Infection

Unit 2: The Aging Process and Disease Management

NA 103 Safety and Emergency Procedures

(04 Clock Hours Lecture/03 Clock Hours Lab)

Unit 1: Cardiopulmonary Resuscitation Training

Unit 2: Learning to Position and Move Correctly

Unit 3: Emergency Care

NA 104 Resident's Rights and Promoting Resident's Rights

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: Understanding People and Identifying the Needs of the Resident(s)

Unit 2: Understanding People's Rights

Unit 3- Your Role in Ensuring Quality of Life

NA 105 Mental Health and Social Service Needs

(02 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: The Role of the Family

Unit 2: Work Environments and Resident Populations

Unit 3: End of Life

NA 106 Personal Care

(04 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: Personal Injury Prevention and Protection

Unit 2: Pain Management, Sleep and Comfort

Unit 3: Restorative Activities

NA 107 Basic Nursing Services

(03 Clock Hours Lecture/ 02 Clock Hours Lab)

Unit 1: Gathering Information

Unit 2: The Importance of Creating a Home

Unit 3: Assisting with Nutrition

Unit 4: Assisting with Elimination

Unit 5: Maintaining and Improving Skin Integrity

Text: BLS for Healthcare Providers Student Manual

CPR 101 Healthcare Provider CPR

(03 Clock Hours Lecture/02 Clock Hours Lab)

Part 1 General Concepts

Part 2 CPR for Adults

Part 3 CPR for Children

Part 4 Adult and Child Bag Mask Technique and Rescue Breathing

Part 5 2-Rescuer CPR for Adults and Children

Part 6 Automated External Defibrillator

Part 7 CPR for Infants

Part 8 Relief of Choking

Part 9 Special Considerations

Part 10 The Big Picture

NA 108 Externship

(00Clock Hours Lecture/ 00Clock Hours Lab/ 40 clock hours clinical)

Students will perform clinical/externship hours under the direction of the program Coordinator.

***Policies for the Practical Nursing Program Vary- please see the PN Student Handbook**

Practical Nursing Program Description

The practical nursing is designed for students to acquire skills, knowledge, attitudes, and judgment to be able to provide safe and effective nursing care and eligibility to take the NCLEX-PN.

MT 102 Medical Terminology and Abbreviations

(40 Clock Hours Lecture/ 00 Clock Hours Lab)

This course teaches the basic roots, prefixes, and suffixes involved in medical terms and the basic terms that help to define the anatomy and physiology in the human body.

PN 100 Nursing Fundamentals

(44 Clock Hours Lecture/ 12 Clock Hours Lab)

This course provides the development of personal qualities and characteristics needed for a safe and effective practice including problem solving and critical thinking abilities which include the history, trends and evolution of practical nursing, practical nursing organizations and an introduction to the laws and rules that govern practical nursing practice. This course provides instruction on the basic nursing skills which include infection control techniques, and lab and workplace safety. The nursing process, patient assessment, documentation, vital signs, wound care, and mobility concepts are taught. The course provides an overview of Maslow's Hierarchy of Needs and sets the stage for decisions concerning patient care and nursing strategies, awareness of variations in cultural, religious, spiritual, educational, and socio-economic histories and experiences, and how these variations impact health and illness. Concepts of communication and interviewing will prepare the student for health data collection in the levels to follow. Cultural and ethical considerations of nursing is incorporated, and an overview of infection control practices are reinforced. This course also introduces the law and rules governing practical nursing in the State of Louisiana.

PN 101 Introduction to Microbiology

(15 Clock Hours Lecture/ 00 Clock Hours Lab)

This course emphasizes the role of microbes in health and illness, transmission, reproduction, methods of control/destruction, with a focus on concepts essential for nursing care and prevention of illness and/or transfer of disease to others.

PN 102 Nursing Fundamentals Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 40 Clock Hours Clinical)

This course builds upon the nursing care theories and skills discussed in PN 100. Students apply basic and beginning knowledge obtained from nursing theory and interactive laboratory experiences to provide basic care to clients and families using the nursing process, students perform basic clinical nursing skills in appropriate health facilities under the supervision of the instructor. The student begins to use the nursing process to plan and implement safe nursing care. Produce accurate documentation of their nursing assessment and nursing care provided. The student learns to develop a plan of care based on current nursing research and demonstrate an understanding of basic pathophysiology.

PN 103 Nutrition and Diet Therapy

(40 Clock Hours Lecture/00 Clock Hours Lab)

This course provides information concerning the relationships between health, food, and nutrients. This course also provides information on basic nutrition, life cycle, community, and clinical nutrition. This course provides an integrated overview of the physiological requirements and functions of protein, energy, and the major vitamins and minerals that are determinants of health and diseases in human populations. The student will be able to identify the nutritional requirements for a healthy diet, analyze labels and create a healthy meal plan.

AP 102 Anatomy and Physiology

(48 Clock Hours Lecture/ 00 Clock Hours Lab)

This course covers the structure and function of the body, the basic chemistry makeup of the body, the integumentary system, tissues and membranes, skeletal and muscular system, respiratory system, digestive system, urinary system, and water, electrolyte, and acid-base balance of the body. This course is designed to provide information necessary to gain a basic knowledge of the anatomical structure and the normal function of the human body and deviations from the normal. The course provides a foundation upon which students may build knowledge and skills in order to render patient care.

PN 104 Geriatrics

(68 Clock Hours Lecture/ 12 Clock Hours Lab)

This course will expand the student's knowledge of nursing care in the geriatric population. It will address geriatric nursing care in a variety of life settings and prepare the student for work in elder care. Students will learn adult, child, and infant CPR and First Aid.

PN 105 Geriatric Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 80 Clock Hours Clinical)

In this course students apply basic and beginning knowledge obtained from PN 111, PN 112. Students apply nursing theory and interactive laboratory experiences to provide basic care to Geriatric population in varied care settings under the supervision of a clinical instructor. Students apply knowledge acquired from nursing and theory courses to provide basic care that is safe, follows the principles of practical nursing, views the client needs holistically, while addressing the client needs utilizing the nursing process focusing on elder

care. Client needs are stressed and integrated processes of clinical problem solving, caring, communication, documentation and teaching/learning are introduced. Clinical experience shall include basic and advanced nursing skills, geriatrics, general health and physical assessment, patient education, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, and working as a member of an interdisciplinary health care team.

MT 103 Medical Terminology and Abbreviations

(20 Clock Hours Lecture/ 00 Clock Hours Lab)

This course is designed to acquaint the nursing student with medical terminology. Students learn to construct words using medical roots, prefixes, and suffixes, as well as learn to pronounce and spell medical terminology.

AP 103 Anatomy and Physiology

(24 Clock Hours Lecture/00 Clock Hours Lab)

This course teaches the introduction to the human body, body functions, body organization, and each of the systems of the body and deviations from normal. This course covers the structure and function of the body, the basic chemistry makeup of the body, the nervous system, tissues and membranes, autonomic and sensory systems, endocrine, lymphatic and immune system, blood and covers the anatomy of the heart.

PN 200 Pharmacology I

(30 Clock Hours Lecture/ 05 Clock Hours Lab)

This course contains nursing theory and skills related to the general principles of medication administration. The pharmacology course provides instruction on the fundamentals of medication therapy and medication administration to include terminology, abbreviations, and knowledge of medications required to interpret physician orders are emphasized. It begins with the calculation of medication dosages, preparation, and administration of medications via oral, topical, and parenteral routes are practiced and demonstrated. Skills lab is required in preparation for clinical participation

PN 203 Med-Surgical Nursing I

(90 Clock Hours Lecture/20 Clock Hours Lab)

Students apply knowledge gained from Fundamental, and previous courses. This course focuses on patient care concepts, acute care, multiple disorders, and long-term care. Students utilizes nursing theory and interactive laboratory experiences to provide basic and intermediate care to clients and families experiencing alterations in the respiratory, cardiovascular, endocrine, gastrointestinal, neurologic, and urologic systems. Pain management and pharmacological interventions and /or commonly used medications for each body system addressed are discussed at length. Care related to disease specific conditions will be addressed in multiple care settings under the supervision of a clinical instructor.

Utilizing a nursing process approach student will perform applicable practical nursing clinical skills to multiple clients in approved health care facilities under the supervision and discretion of Clinical nursing faculty. Critical thinking skills are encouraged while the student learns to make interdependent practical nursing decisions.

PN 204 Med-Surgical Nursing Clinical I

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 200 Clock Hours Clinical)

Students apply knowledge gained from Fundamentals and Medical-surgical theory and previous courses. Students utilizes nursing theory and interactive laboratory experiences to provide basic and intermediate care to clients and families in the medical surgical nursing environment in multiple care settings under the supervision of a clinical instructor. Students apply knowledge gained to provide care that is safe, follows the principles of practical nursing, views the client needs holistically, while addressing the client needs utilizing the nursing process. Client needs are stressed and integrated processes of clinical problem solving,

caring, communication, documentation and teaching/learning are introduced. Students focus care for clients in multiple settings. Clinical experience shall include basic and advanced nursing skills, mental health, geriatrics, general health and physical assessment, patient education, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, IV Therapy, and working as a member of an interdisciplinary health care team.

PN 205 Pharmacology II

(30 Clock Hours Lecture/ 05 Clock Hours Lab)

This course emphasizes the basic scientific principles of pharmacology, its effects on various body systems and their application in person-centered care, health, and disease. The pharmacology course expands knowledge of content critical for safe administration of medications in all clinical settings, provides an integrated overview of the nursing responsibilities required for in each clinical setting the nurse is employed. Provides instruction on the fundamentals of medication therapy and medication administration to include dosage calculation, and classification categories of drugs. Proper administration of IV push, IV piggyback, blood, and blood products will be covered. Components of the nursing process most important to the function of administering medications are emphasized and drug actions explained as well as techniques of administration are covered. Laboratory instruction is provided for mastery of the related skills.

PN 300 IV Therapy

(18 Clock Hours Lecture/ 12 Clock Hours Lab)

This course will provide students with the factors that are essential to body fluid, electrolytes, balance, imbalance, IV, Piggy, Push, Blood, and Blood Products. Practical Nursing students will demonstrate proficiency in starting an IV. The courses introduce the student to the identification of the Scope of practice involving administration of IV therapy and the LPN and provide students with the factors that are essential to body fluid, electrolytes, balance, imbalance, IV, Piggy, Push, Blood, and Blood Products while providing knowledge necessary to avoid complications and demonstrate understanding of correcting problems as they occur. Practical Nursing students will demonstrate proficiency in starting an IV.

PN 301 Mental Health

(30 Clock Hours Lecture/ 00 Clock Hours Lab)

This course presents concepts in mental health and psychiatric nursing, abuse and neglect, stress management, crisis intervention and mental disorders. Presents studies along with treatment and trends in psychiatric nursing as well as introduces the standards of practice of psychiatric and mental health nursing. This course introduces mental health care; past and present; mental health problems throughout the lifecycle; caregivers' therapeutic skills; and clients with psychological and psychosocial problems.

PN 302 Mental Health Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 40 Clock Hours Clinical)

This course allows students to apply nursing theory, skills and knowledge gained from interactive laboratory experiences to provide basic and intermediate care to clients in the mental health arena. Care will be provided in outpatient and inpatient settings introducing the students to a holistic approach to mental health care. Students follows the principles of practical nursing, views the client needs holistically, while addressing the client needs utilizing the nursing process. Client needs are stressed and integrated processes of clinical problem solving, caring, communication, documentation and teaching/learning are introduced. Clinical experience shall include basic and advanced nursing skills, mental health, general health and physical assessment, patient education, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, and working as a member of an interdisciplinary health care team.

PN 303 Med-Surgical Nursing II

(90 Clock Hours Lecture/ 20 Clock Hours Lab)

This course provides information on the concepts providing basic principles of nursing care and correlated experiences in medical-surgical nursing, geriatric, maternal and pediatric nursing, and mental health nursing. This course focuses on care throughout the lifespan to include newborn to older adults with advanced medical/surgical health problems. Application of pathophysiology, nutrition, and pharmacology are applied to complex diseases within each concept. Nursing responsibilities for care of patients with disorders of sensory organs, integumentary system, musculoskeletal system, gastrointestinal system, renal system, and cardiovascular/circulatory system are explored. This plan identifies risk factors, nutritional assesses and patient teaching. The identification of the Scope of practice involving administration of IV therapy and the LPN and provide students with the factors that are essential to body fluid, electrolytes, balance, imbalance, IV, Piggy, Push, Blood, and Blood Products while providing knowledge necessary to avoid complications and demonstrate understanding of correcting problems as they occur. Practical Nursing students will demonstrate proficiency in starting an IV.

PN 304 Med-Surgical Nursing Clinical II

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 200 Clock Hours Clinical)

Students apply theory and knowledge gained from interactive laboratory experiences to provide basic, intermediate, and advanced practical nursing care to clients, families, and groups in the medical surgical environment under the supervision of their clinical instructor. Students are expected to synthesize information learned from previous experiences along with the new learning gained to care for larger numbers of clients and for those clients with advanced complex needs. Clinical experience shall include basic and advanced nursing skills, general health and physical assessment, patient education, maternal and pediatric, mental health, geriatrics, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, IV Therapy, and working as a member of an interdisciplinary health care team.

PN 400 Med-Surgical Nursing III

(60 Clock Hours Lecture/ 00 Clock Hours Lab)

This course expands on theory and principles taught in PN 124 and PN 134. The student is transitioned into the leadership and management role as a graduate. Concepts provided include advanced principles of nursing care and correlated experiences in medical- surgical nursing, geriatric, maternal and pediatric nursing, and mental health nursing. This course focuses on care throughout the lifespan to include newborn to older adults with advanced medical/surgical health problems. Application of pathophysiology, nutrition, and pharmacology are applied to complex diseases within each concept. Nursing responsibilities for care of patients with disorders of sensory organs, integumentary system, musculoskeletal system, gastrointestinal system, renal system, and cardiovascular/circulatory system are explored. This plan identifies risk factors, nutritional assesses and patient teaching. The identification of the Scope of practice involving administration of IV therapy and the LPN and provide students with the factors that are essential to body fluid, electrolytes, balance, imbalance, IV, Piggy, Push and

Blood while providing knowledge necessary to avoid complications and demonstrate understanding of correcting problems as they occur. Practical Nursing students will demonstrate proficiency in starting an IV.

PN 401 Med-Surgical Nursing Clinical III

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 200 Clock Hours Clinical)

Students apply theory and knowledge gained from interactive laboratory experiences to provide basic, intermediate, and advanced practical nursing care to clients, families, and groups in the medical surgical environment in a leadership role under the supervision of their clinical instructor. Students are expected to synthesize information learned from previous experiences along with the new learning gained to care for larger numbers of clients and for those clients with advanced complex needs. Clinical experience shall include basic and advanced nursing skills, general health and physical assessment, patient education, maternal and pediatric, mental health, geriatrics, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, IV Therapy, and working as a member of an interdisciplinary health care team.

PN 402 Maternal Nursing

(32 Clock Hours Lecture/ 08 Clock Hours Lab)

This course utilizes the nursing process and Maslow's Hierarchy of Human Needs to prioritize care to the expectant mother and family during pregnancy, labor, birth, and puerperium. In addition, maternity nursing includes the care of the fetus and the neonate. Critical thinking skills, therapeutic communication and cultural competence are integral components in providing and delivering safe and competent care to the pregnant mother and family.

PN 403 Maternal Nursing Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 40 Clock Hours Clinical)

Students utilize the nursing process and Maslow's Hierarchy of Human Needs to prioritize care to the expectant mother and family during pregnancy, labor, birth, and puerperium. In addition, maternity nursing includes the care of the fetus and the neonate. Students are expected to synthesize information learned from previous experiences along with the new learning gained to care for larger numbers of clients and for those clients with more complex needs. Clinical experience will take place in various inpatient and outpatient settings. Shall include basic and advanced nursing skills, general health and physical assessment, patient education, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, IV Therapy, and working as a member of an interdisciplinary health care team.

PN 404 Pediatric Nursing

(30 Clock Hours Lecture/ 10 Clock Hours Lab)

Pediatric nursing is designed to give students an understanding of basic physiological process and nursing care involved in the care of infants, children, and adolescence to include knowledge of normal psychomotor, psychosocial, and cognitive growth and development as well as the health problems and needs of those in this age group.

PN 404 Pediatric Nursing Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 40 Clock Hours Clinical)

Students demonstrates understanding of the average growth and development, normal vital signs for patient's age and Erikson's Psychosocial Development factors. Students provide basic, intermediate, and advanced practical nursing care to pediatric clients. Students are expected to synthesize information learned from previous experiences along with the new learning gained to care for larger numbers of clients and for

those clients with more complex needs. Clinical experience shall include basic and advanced nursing skills, general health and physical assessment, patient education, health screening, promotion, restoration and maintenance, supervision and management, safety and infection control, communication, and documentation, and working as a member of an interdisciplinary health care team.

CD 102 Career Development

(15 Clock Hours Lecture/ 00 Clock Hours Lab)

This course presents information relating to all aspects of gaining and maintaining a license to practice practical nursing, the nurse's personal accountability to maintain and continue to acquire the knowledge, skills and abilities needed to practice safely, the qualities employers seek, and the non-nursing employment skills, abilities, and personal characteristics needed to secure and maintain employment as a practical nurse. The student also develops a deeper understanding of the laws and rules governing practice.

PN 406 NCLEX-PN Review

(24 Clock Hours Lecture/ 00 Clock Hours Lab)

This course is designed for the practical nursing student preparing to take the NCLEX-PN. The focus is on reviewing nursing knowledge. Content includes a review of the following: body systems in health and disease; health promotion and maintenance from infancy through adulthood, pharmacology, strategies which promote a safe and effective nursing care environment and maintaining psychosocial integrity.

Practical Nursing Curriculum

Objective: The practical nursing is designed for students to acquire skills, knowledge, attitudes, and judgment to be able to provide safe and effective nursing care and eligibility to take the NCLEX-PN.

MT 102 Medical Terminology and Abbreviations

(40 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Introduction to Medical Terminology

Lesson 2: Word Parts and Meanings

Lesson 3: Common Medical Terms, Abbreviations, and Symbols

PN 100 Nursing Fundamentals

(44 Clock Hours Lecture/ 12 Clock Hours Lab)

Lesson 1: Introduction to Nursing, Participation in Healthcare, and laws and rules governing practical nursing

Lesson 2: The Nursing Process

Lesson 3: Student awareness to client's rights and involvement in decision making

Lesson 4: Appropriate use of health resources – local, state, and national

Lesson 5: Aspects of cultural awareness-cultural, religion, spiritual beliefs, educational, socio-economic histories and experiences

Lesson 6: Communication in Nursing

Lesson 7: Developmental, Psychosocial, and Cultural Considerations

Lesson 8: Basic Nursing Skills

PN 101 Introduction to Microbiology

(15 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Introduction to Microbiology

Lesson 2: Role of microbes in Health and Illness

Lesson 3: Modes of Transmission

Lesson 4: Reproduction and Methods of Control or destruction

Lesson 5: Cells and Cell Metabolism

Lesson 6: Concepts essential for safe performance of nursing care

PN 102 Nursing Fundamentals Clinical

(00 Clock Hours Lecture/ 00 Clock Hours Lab/ 40 Clock Hours Clinical)

Lesson 1: Physical Assessment, patient skills, geriatrics, documentation, vital signs, medication administration and preparation, wound care, mobility, problem solving, critical thinking, cultural, religious, spiritual, educational, and socio-economic experiences.

PN 103 Nutrition and Diet Therapy

(40 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Basic Nutrition

Lesson 2: Life Cycle and Nutrition

Lesson 3: Community Nutrition

Lesson 4: Clinical Nutrition

Lesson 5: Diet modifications for therapeutic purposes

AP 102 Anatomy and Physiology

(48 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Structure and function of the body

Lesson 2: Organ Systems of the Body

Lesson 3: Integumentary System and Body Membranes

Lesson 4: Skeletal and Muscular System

Lesson 5: Reproductive System

Lesson 6: Digestive System

Lesson 7: Urinary System

Lesson 8: Fluid and Electrolyte Balance

Lesson 9: Endocrine System

PN 104 Geriatrics

(68 Clock Hours Lecture/ 12 Clock Hours Lab)

Lesson 1: Aging Overview
Lesson 2: Basic Skills for Gerontologic Nursing
Lesson 3: Psychosocial Care of Older Adults
Lesson 4: Physical care of Older Adults
Lesson 5: Healthcare Provider CPR and First Aid

PN 105 Geriatric Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 80 Clock Hours Clinical)

Lesson 1: Physical Assessment, patient skills, geriatrics, documentation, vital signs, medication administration, wound care, mobility, problem solving, critical thinking, cultural, religious, spiritual, educational, and socio-economic experiences.

MT 103 Medical Terminology and Abbreviations

(20 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Word Parts and Meanings
Lesson 2: Common Medical Terms, Abbreviations, and Symbols

AP 103 Anatomy and Physiology

(24 Clock Hours Lecture/00 Clock Hours Lab)

Lesson 1: Blood
Lesson 2: The Heart and Circulation of the Blood
Lesson 3: Lymphatic System and Immunity
Lesson 4: Reproductive System
Lesson 5: Nervous System

PN 200 Pharmacology I

(30 Clock Hours Lecture/ 05 Clock Hours Lab)

Lesson 1: General Principles of Pharmacology
Lesson 2: Medication Preparation
Lesson 3: Medical Administration
Lesson 4: Documentation and safe storage
Lesson 5: Drug Groups

PN 203 Med-Surgical Nursing I

(90 Clock Hours Lecture/ 20 Clock Hours Lab)

Lesson 1: Patient Care Concepts
Lesson 2: Physiologic Responses to Illness
Lesson 3: Acute Care and IV Therapy
Lesson 4: Long-term care and Home Health care
Lesson 5: Cancer
Lesson 6: Neurologic and Respiratory Disorders
Lesson 7: Hematologic and Immunologic Disorders
Lesson 8: Cardiovascular, Digestive, and Urologic Disorders

PN 204 Med-Surgical Nursing Clinical I

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 200 Clock Hours Clinical)

Lesson 1: Provide basic, intermediate, and advanced care, communication, documentation, geriatrics, mental health, general health, physical assessment, safety, and infection control, IV Therapy, medical administration, long term, and acute care.

PN 205 Pharmacology II

(30 Clock Hours Lecture/ 05 Clock Hours Lab)

Lesson 1: Medication Preparation and Administration

Lesson 2: Documentation and Safe Storage

Lesson 3: Drugs Groups

Lesson 4: Medication Precautions

Lesson 5: IV, Piggy, Push, Blood and Blood Products

PN 300 IV Therapy

(18 Clock Hours Lecture/ 12 Clock Hours Lab)

Lesson 1: Body fluid and electrolytes

Lesson 2: Balance and Imbalance

Lesson 3: Starting an IV, Piggy, Push, Blood and Blood Products

PN 301 Mental Health

(30 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: History of Mental Health care

Lesson 2: Therapeutic Skills

Lesson 3: Mental Health Life Cycle

Lesson 4: Psychological Problems

Lesson 5: Psychosocial Problems

PN 302 Mental Health Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 40 Clock Hours Clinical)

Lesson 1: Client's needs, documentation, vital signs, problem solving and critical thinking, advanced nursing skills, mental health clinical, general health, physical assessment, patient education, health screening, supervision and management, safety and infection control, communication, provide basic nursing care while following the principles of practical nursing using a holistic view.

PN 303 Med-Surgical Nursing II

(90 Clock Hours Lecture/20 Clock Hours Lab)

Lesson 1: Musculoskeletal and Endocrine Disorders

Lesson 2: Reproductive and Integumentary Disorders

Lesson 3: Sexually Transmitted Infections

Lesson 4: Psychiatric Disorders

Lesson 5: Cancer

Lesson 6: Body fluid and electrolytes balance and imbalance

Lesson 7: Scope of Practice regulating IV Therapy

Lesson 8: Delegation versus Assignment

Lesson 9: Starting an IV, Piggy, Push, Blood and Blood Products

PN 304 Med-Surgical Nursing Clinical II

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 200 Clock Hours Clinical)

Lesson 1: Provide basic, intermediate, and advanced patient care, general health, physical assessment, documentation, communication, maternal and pediatrics, mental health, geriatrics, health screen, safety and infection control, medication administration.

PN 400 Med-Surgical Nursing III

(60 Clock Hours Lecture/00 Clock Hours Lab)

Lesson 1: Pituitary and Adrenal Disorders

Lesson 2: Fractures
Lesson 3: Psychiatric Disorders
Lesson 4: Neurologic care and Disorders
Lesson 5: Emergency care and Disaster Management
Lesson 6: Leadership and Management role of the LPN

PN 401 Med-Surgical Nursing Clinical III

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 200 Clock Hours Clinical)

Lesson 1: Provide basic, intermediate, and advanced patient care, general health, physical assessment, documentation, communication, maternal and pediatrics, mental health, geriatrics, health screen, safety and infection control, medication administration and community health and leadership.

PN 402 Maternal Nursing

(32 Clock Hours Lecture/ 08 Clock Hours Lab)

Lesson 1: Introduction to Maternity Nursing
Lesson 2: Human Reproductive Anatomy and Physiology
Lesson 3: Fetal Development
Lesson 4: Prenatal Care and Adaptations to Pregnancy
Lesson 5: Nursing Care of Women with complication during Pregnancy
Lesson 6: Nursing care of Mother and infant during Labor and birth
Lesson 7: Pain Management during Labor
Lesson 8: Nursing Care of Women with Complications during Labor and Birth
Lesson 9: The Family after birth.
Lesson 10: Nurse's role in Women's Health

PN 403 Maternal Nursing Clinical

(00 Clock Hours Lecture/ 00Clock Hours Lab/ 40 Clock Hours Clinical)

Lesson 1: Demonstrate skills in the maternity and neonatal setting to meet the needs of the client and neonate during the antepartum, intrapartum, and postpartum periods. Basic, intermediate, and advanced patient care, general health, physical assessment, documentation, communication, patient and family teaching, health screening, safety and infection control and medication administration.

PN 404 Pediatric Nursing

(30 Clock Hours Lecture/ 10 Clock Hours Lab)

Lesson 1: Introduction to Pediatric Nursing
Lesson 2: Physical assessment and care of the Newborn
Lesson 3: Preterm and Post term newborn care
Lesson 4: The Newborn with a Perinatal injury or congenital malformation.
Lesson 5: Assessment and Care of Newborn with Congenital Anomalies
Lesson 6: Growth and Development of infant, toddler, school-age, adolescence
Lesson 7: Nursing Care of the child with Burns
Lesson 8: Nursing care of the child with skin disorders, Musculoskeletal injuries, Respiratory disorders,
Lesson 9: Nursing care of the child with Bleeding disorders
Lesson 9: Nursing care of the child with Gastrointestinal disorders and Cardiovascular disorders
Lesson 10: Nursing care of the child with Genitourinary disorders, Neurological disorders
Lesson 11: Nursing Care of the child with Diabetes Mellitus and other endocrine disorders
Lesson 12: Characteristics and detection and prevention measures for Communicable Diseases.
Lesson 13: Care treatment and identification of the child with emotional and behavioral disorders.

PN 405 Pediatric Nursing Clinical

(00 Clock Hours Lecture/ 00 Clock Hours Lab/ 40 Clock Hours Clinical)

Lesson 1: Demonstrate skills essential to growth and development from infancy through adolescence and provide care for the pediatric client in multiple care settings. Provide basic, intermediate, and advanced patient care, general health, physical assessment, documentation, communication, patient and family education, health screening, safety and infection control and medication administration.

CD 102 Career Development

(15 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Role of the practical nurse and nursing accountability

Lesson 2: Nursing and the Laws and rules of governing practice

Lesson 3: Non-nursing employment skills

Lesson 4: Resume and cover letters

Lesson 5: Job Seeking- interview skills and techniques

Lesson 6: Professionalism and Conflict Management

Lesson 7: Review Law and Ethics

Lesson 8: Gaining and Maintaining a Practical Nursing License

PN 406 NCLEX-PN Review

(24 Clock Hours Lecture/ 00 Clock Hours Lab)

Lesson 1: Review for NCLEX-PN

Degree Program Listing

Associate of Applied Science in Healthcare Management

Length of Program: 2 years

Distance Education

Program Description

The Associate of Applied Science in Healthcare Management provides foundational skills in the areas of healthcare management, accounting, healthcare law, and the student-chosen healthcare specialty. The program is designed for students who seek to acquire complete framework in entry-level healthcare concepts. Learners will acquire the skills and knowledge applicable to their chosen healthcare professions.

Program Outcomes (Dental Studies Concentration):

1. Explain what healthcare management is (its function) and explain the role of a healthcare manager.
2. Define what healthcare ethics are and what their and potential challenges.
3. Analyze motivation theories and the relation between motivation and performance.
4. Articulate the importance of healthcare marketing and its role in relation to an organization.
5. Describe types of management delineating the marked differences within the business landscape.

6. Interpret basic and common financial statements and business budgeting.
7. Identify an organization's stakeholders, its ethical issues and define the concept of social responsibility.
8. Demonstrate fundamental communication skills specific to oral and written language.
9. Identify basic math skills as related to accounting and quantitative reasoning.
10. Analyze healthcare informatics and the role within the healthcare industry.
11. Explain medical coding and billing within the vast healthcare industry.

Total:			60.

Associate of Applied Science in Healthcare Management

Degree Course Descriptions

Government 101

3 Credit Hours

This course provides an overview and exploration of the organization of American government, which includes an overview of the historical significance of the Constitution; the Bill of Rights; Congress; the Supreme Court; the Presidency; political parties and interest groups. This course is an introduction to political science.

Introduction to Healthcare Management

3 Credit Hours

This course explores introductory information related to the US healthcare industry. Students learn about the intricacies of healthcare as well as the breadth of professions within the healthcare industry.

Healthcare Law & Ethics

3 Credit Hours

Healthcare legal structure is the foundation of its operations and much more. This course explores healthcare corporations, types of legal entities, and the relevance of each type. Students learn the introductory navigation within the healthcare industry. This course also provides the entry-level legal language of business. This course also discusses ethics in business.

Math 101

3 Credit Hours

This course is a basic review of mathematical and quantitative skills, including terminology, checking accounts, taxes, payroll, step-by-step approaches. This assists in developing math skills used in personal and business applications.

English 101

3 Credit Hours

This introductory course explores the writing skills to include mechanics, effective writing, organization, and essays. The course ends with a final paper where students demonstrate their newly acquired writing skills.

Electronic Healthcare Records

3 Credit Hours

This course focuses on the execution of workflows, retrieving patient information and types of electronic healthcare records systems. Students learn the basics of record keeping as well as their future legal requirements.

Human Resources Management

3 Credit Hours

This course is an introduction to the human resources field and its key elements. The course outlines the roles and functions of members of the human resources department, as well as educating others outside human resources, in how their roles include human resources-related activities.

Communication 101

3 Credit Hours

This course focuses on the principles of communication to include oral and written language. Students learn the significance of culture and other factors and how they relate to communication.

Anatomy and Physiology

3 Credit Hours

This course is the introduction to anatomical and physiological features of the body systems. Students focus on multiple systems including blood, cardiovascular, renal, digestive, and endocrine.

Principles of Biology

3 Credit Hours

This course is designed to introduce biology at an entry level by examining the hierarchy that ranges from the fundamentals of cell biology to the physiology of organisms, and the interactions among those organisms in their environment.

Introduction to Psychology

3 Credit Hours

This course presents the theories and principles of modern psychology. Students learn about the different branches of psychology and the practical application of psychological tenets to functional behavior.

Healthcare Marketing Principles

3 Credit Hours

This course is designed to introduce you to the basic principles of marketing touching on specific healthcare marketing techniques. It focuses on distribution, financing, marketing information systems, pricing, product/service management, promotions, and selling using common marketing practices as well as exploration of the industry.

Management Information Systems

3 Credit Hours

This course focuses on the processing of information through computers and other intelligent devices. The knowledge acquired in this course provides a foundation for intelligently analyzing managerial decisions.

Organizational Behavior

3 Credit Hours

This course explores human behavior in organizations using psychology and sociology principles. The content discusses the implications of human behavior for business organizations. Issues pursued in this course include group dynamics, communications, motivation, leadership, and decision making as well as organizational design, culture, development, and change. The discipline of Organizational Behavior is unique in its combined goals of seeking organizational success while advocating employee empowerment.

Principles of Business Accounting I

3 Credit Hours

This course is an introduction to the preparation and analysis of business financial statements. Specific topics include the accounting model, general purpose financial statements and accounting for assets, liabilities, and equity.

Healthcare Science Management

3 Credit Hours

This course is designed to introduce students to the healthcare terminology, concepts, and practices and the science of management. Students learn the fundamentals of healthcare management as well as how to apply it in real-life settings.

Principles of Management

3 Credit Hours

This is the introductory course in management. The course is designed to provide students an overview of the management function and its role in organizations and society.

Speech 101

3 Credit Hours

This course is designed as an introduction to the study of the human communication process with an emphasis on effective public communication. The course includes intensive practice in public speaking, reasoning, critical thinking, and critical listening. It is an essential general education course teaching effective use and understanding of written and spoken forms of communication.

Healthcare Informatics & Statistics

3 Credit Hours

This is a survey course in data analytics, informatics, and statistics. Students learn the necessary mathematical skills to properly analyze data and tell the story of what the data is telling them. This course focuses on healthcare data and provides students an opportunity to apply statistics to real-life healthcare data case studies.

Management Information Systems

3 Credit Hours

This course focuses on the processing of information through computers and other intelligent devices. The knowledge acquired in this course provides a foundation for intelligently analyzing managerial decisions.

International Healthcare Sciences

3 Credit Hours

This course introduces learners to international healthcare delivery and highlights similarities and differences between delivery systems. Specific topics include determining cash flows, international accounting, product costing, budgeting, and other concepts of management accounting.

60 Semester Hours

ESSENTIAL INFORMATION

Description of the Logo

- **Olive Branch** – peace
- **Lamp of Knowledge** – guiding light into an atmosphere of intellectual freedom
- **Torch** (“I w/ flame”) – light of hope, freedom
- **Key** – the door is open, and no one can close it
- **Shield** – protection, faith, and love
- **Banner** – Victory
- **Book** –advancement
- **Globe** – endless possibilities
- **I** – Infinity – eternity, unity, and without limits
- **Red** – sacrifice, courage, boldness
- **Green** – Prosperity, growth, and new life
- **Gray**–Prominent
- **Lines** - order

Student Catalog Acknowledgement

I acknowledge that I have attended and participated in the orientation session, and I understand that I have access to Infinity College's catalog via the website and hardcopy upon request. I understand the rules and regulations set forth in this student catalog and understand the financial obligations related to my perspective program of study. By signing this acknowledgement form, I agree to read or have read its contents and I am responsible for understanding the information and adhering to all the guidelines set forth.

Career Services Assistance

Our career services department provides assistance to all graduates of our programs at no charge. However, while career service assistance may be provided, it is understood that the school cannot promise nor guarantee employment to any student or its graduates.

The Board of Regents recommends that prospective students seek independent job/career counseling prior to enrollment in an academic degree-granting postsecondary institution and encourages such institutions to promote this recommendation.

Students seeking employment may be required to submit to some of the following but not limited to a criminal background check, screening of the national sex offender registry, employment references, physical, employment pre-screening testing, drug screen, credit check, submit a resume and/or cover letter, employment application, provide personal and professional references and attend an interview. Depending upon the employment sought, you may be required to have a certification and/or license in the respective field of study although some agencies may permit years of experience. For more specific information on what may be required as a condition of employment with various agencies, it is suggested to contact the agency that you are seeking employment as well to inquire as to the qualifications of each job that you may desire to apply for. This list is not meant to be exhaustive but to provide you with an idea of what may be required when seeking employment.

The career services assistance may include but not be limited to:

1. Employment orientation prior to graduation. This orientation will provide the essential information relating to interviews, resumes and appointments, with emphasis on dress, appearance, and applications.
2. Assistance with applications and employment forms.
3. Efforts to provide interviews with prospective employers.
4. Contacts with employers to identify job openings.
5. Student participates in job readiness
6. Information concerning employment opportunities with local, state, and federal agencies.
7. Communication with career centers to seek employment assistance in areas of Louisiana.

The success or failure of the placement efforts of the school will be influenced to a great extent by the attendance, academic records, and personal appearance of the graduate. Students are required to submit an electronic resume to Infinity College prior to completion of their program of study.
